FOREWORD

Our Seeds are sold Nett Cash with order.

Prices are plainly set out in this catalogue.

All Flower Seeds are post free (except when quoted nett).

Vegetable Seeds in packets post free (except Peas, Beans, and Sweet Corn).

All orders are executed strictly in rotation as received.

Our prices are as low as possible consistent with high class quality.

Prices of larger quantities of seed than are stated in this catalogue will be forwarded on application.

Kindly add exchange to Country and Interstate cheques.

When mailing Interstate orders make sure that your Name, Address and State are plainly given.

WRITE FOR OUR SEPARATE LISTS OF NOVELTIES. THESE ARE ISSUED FROM TIME TO TIME AND ENABLE CLIENTS TO KEEP WELL ABREAST OF THE LATEST INTRODUCTIONS IN THE HORTICULTURAL WORLD.

All MIXTURES of Flower Seeds listed in this catalogue are made up by us from named colours thus assuring our clients a higher percentage of the brighter and rarer shades.

CONDITIONS OF SALE

Although we use every precaution to supply seeds of the highest quality in every respect, we give no warranty, expressed or implied as to description, quality, productiveness, or any other matter of any seeds we send out and we will not be in any way responsible for the crop. On the other hand we shall always give due consideration to any founded complaint, but we, in no event, refund for any item more than the amount actually charged for the item on the invoice.

If these Conditions of Sale are not acceptable the buyer must immediately return the goods.

The seeds described and priced in this Catalogue are Seeds for Sowing.

FLOWER SEEDS

ABRUS.

PREGATORIUS. A pretty creeper with light purple flowers, sometimes called the "weather plant"
per pkt. 6d.

ABRONIA.

UMBELLATA. Rosy pink flowers with paler eye. Though really a perennial this plant may be treated as an annual flowering the same season as sown. Trailing habit with rapid growth and useful both for the rockery and hanging baskets. Commonly called Sand Verbena, sweet scented
per pkt. 6d.

ABUTILON.

CHOICE HYBRIDS. Shrubby perennial plants with handsome pendant flowers of great variety of colours. Some have variegated foliage. Very useful in a cut state as a pot plant or in the garden, height 3 to 6ft. per pkt. 1/-
MAXIMUM MIXED. Immense flowers in extra fine shades. Perennial per pkt. 1/6

ACACIA.

BAILEYANA (Cootamundra Wattle). A handsome small tree with golden yellow fluffy flowers and silvery fern-like foliage. Makes a fine garden tree. Trim where necessary after flowering. Immense seeds of all Acacias in hot water for a few hours before sowing. Height 15ft. . . per pkt. 6d.

ROSEA (new). The pink wattle from Asia. One of the prettiest of all flowering trees, is very free flowering, with delicate fern-like leaves and dainty blossoms of carmine-rose. Grows to a height of about 25ft., and is quite handy. Soak seeds overnight in warm water. Scarce. Deciduous per pkt. 1/-

PODALYRIFOLIA. Very early flowering, with silver shining foliage and magnificent golden yellow flowers. Fine for cutting. 10ft. . . per pkt. 6d.

DEALBATA. The yellow Mimosa of the flower shops. Sweet scented, clear yellow flowers with neat very handsome silvery fern-like foliage. Known as the Silver Wattle per pkt. 6d.

PYRACANTHA (Golden Wattle). Large golden fluffy balls, one of the best per pkt. 6d.

ACONITUM.

WILSONII. One of the finest Autumn flowering border plants. Its long spikes of sapphire-blue flowers make a fine display for a long time. Hardy perennial. Height 4ft. Sow Autumn or Spring per pkt. 6d.

FISCHERI. Compact bright blue, finest for borders, in dense spikes in Autumn per pkt. 6d.

ACHILLEA.

CERISE QUEEN. A highly decorative plant for the herbaceous border, producing flat heads of bright cherry-red flowers all through the Summer. Hardy perennial. Height 2ft. per pkt. 6d.

FILIPENDULINA (Cloth of Gold). Stately perennial, large flat heads with golden yellow flowers. Height 5ft. per pkt. 6d.

THE PEARLE. A fine perennial herbaceous plant which produces during Summer a great profusion of double white flowers on tall stems. 2½ft. high. Splendid for cut flowers. Sow Autumn or Spring
per pkt. 6d.

ACROCLINIUM.

GIANT DOUBLE HYBRIDS (novelty). The finest everlasting flower yet developed, entirely new and different, and sells on sight. Such indeed is this new Acroclinium, so greatly improved over the old variety that they can scarcely be recognised as members of the same family. The double flowers are extremely large, at least twice the size of the ordinary strain, on 12 to 18 inch stems, which are borne freely over a long period. There is an excellent range of colour, being rich in shades of apricot, salmon, pink, rose and cerise, with white and creamy tones as well. Some of the flowers have a dark eye, but the majority are enhanced by a boldly-contrasting dark centre. No florist or market grower should be without these new hybrids . . per pkt. 1/-

ADONIS.

ALEPPICA (The Pheasant's Eye). A hardy annual which blooms early. Its bright blood-red flowers and pretty foliage form an attractive combination in the garden. Height 1ft. Sow Autumn or Spring per pkt. 6d.
VERNALIS. Large bright yellow, good Spring border flower. H.P. per pkt. 6d.

ACHIMENES.

CHOICE MIXED. Coolhouse pot plant belonging to the Gloxinia family. Flowers tube shaped resembling small Petunias in many attractive colours. Fine for hanging baskets or pot plants. Perennial per pkt. 1/6

ACTINIDIA.

ARGUTA (The Silver Vine). A very desirable hardy climber of strong vigorous growth with dark green shining foliage and greenish-white flowers with purple centres which are followed by clusters of edible fruit of fig-like flavour. An excellent climber for covering arbours, trellises, etc., where a rapid and dense growth is desired . . per pkt 1/-

ACANTHUS.

LATIFOLIUS. Handsome broad glossy lobed foliage with curious pale purple flowers in long tractate spikes. Effective perennial border plants
per pkt. 6d.

ADLUMIA.

CIRRHOSA (The Alleghery Vine). Graceful climber with flesh coloured blooms resembling Bleeding Heart. Maidenhair Fern-like foliage. Height 15ft. per pkt. 6d.

AGATHAEA.

COELESTIS. Exceedingly pretty hardy perennial with pale blue Marguerite-like flowers with yellow centres. Very free flowering. Should be used more largely for bedding. Height 1ft. per pkt 6d.
MONSTROSA. A plant of strong growth with lively green leaves, attaining a height of 14 inches. The flowers of this new Blue Daisy are double the size of the ordinary Agathaea, and are a beautiful bright blue. Splendid bedding and pot plant, also fine for cut bloom. Hardy perennial. Seed extremely scarce per pkt 1/-

AGAPANTHUS.

UMBELLATUS. The blue African Lily, so useful for cutting and large groups. Bears a head of bright blue flowers on long 3-foot stems. It is a hardy perennial, its bulb increasing from year to year. Height 3ft. Flower stems 3ft. extra per pkt. 6d.

AGERATUM.

BLUE CAP. This variety surpasses all other varieties of Ageratum in dwarfness and compactness of habit and the regular form of its inflorescence. The foliage is small and the plants have the appearance of miniature domes of blue. Height 4 inches 3/6 1/2 oz., per pkt. 6d.

PURPLE STAR. A compact growing miniature variety. The flowers are small but are produced with the utmost freedom. A gem for edging. Height 4 inches 2/6 1/2 oz., per pkt. 6d.

MAUVE BEAUTY. Dwarf and compact with large mauve flowers very free flowering. Height 6 inches per pkt. 6d.

LITTLE DORRIT YELLOW. A yellow form of the well known Little Dorrit Blue . . . per pkt. 6d.

BLUE BALL. A much improved imperial dwarf blue; plants dwarf and compact. Highly recommended. Long blooming per pkt. 6d.

LASSEAUXI. A charming new variety with fine rose pink flowers and splend for cutting. Height 12 inches per pkt. 6d.

FLORISTS' BLUE. A taller growing type than any of the above with pretty lavender blue flowers which are fine for cutting. Useful for large beds and clumps in the shrubbery. Height 2ft. per pkt. 6d.

FLORISTS' WHITE. A white form of the above and just as useful per pkt. 6d.

CHAMELEON (new). Very dwarf and compact, large heads of blue flowers which later turn to rose per pkt. 6d.

AGROSTEMMA.

COELI ROSEA (Rose of Heaven). A beautiful hardy annual of very easy culture. Bright rosy-pink flowers with lighter centres on long wiry stems. A bowl of this flower exhibited by us at the Malvern Flower Show created great interest. A larger improved Viscaria. Height 18 inches 1/9 1/4 oz., per pkt. 6d.

WALKERII (new). A hybrid perennial variety of the Rose Campion with silky silvery leaves and bright rose flowers. Very showy and hardy. Height 1ft. per pkt. 6d.

ALONSOA.

WARSCIEWICZII COMPACTA. Beautiful Nemesis-like bright salmon-scarlet flowers, a scarce colour in the garden. Alonsoas are not nearly as popular as their real merit deserves. After flowering they may be cut back when they will bloom a second time. Height 1ft. per pkt. 6d.

MUTISSI COMPACTA. An attractive variety with chamois-pink flowers each having a dark crimson centre. The plants are of compact habit and very free flowering. Hardy annual. Height 9 inches. Sow Autumn or Spring per pkt. 6d.

MINIATA. Brightest scarlet. Fine compact habit, free flowering per pkt. 6d.

AKEBIA.

QUINATA. One of our most graceful hardy climbers producing in early Spring numberless bunches of violet-brown flowers which have a pleasant cinnamon odour per pkt. 1/-

ALSTROEMERIA.

AURANTIACA. Hardy Lily-like plants. Colour deep orange, dark markings. Should be left undisturbed in one position for years for best results. Very fine for cutting. Hardy perennial. Height 2 1/2 ft. per pkt. 6d.

CHILENSIS. A splendid variety from Chili. The flowers are various shades of pink, crimson, orange, etc., with yellow and crimson markings. Very attractive as cut flowers. Hardy perennial. Height 2 1/2 ft. per pkt. 1/-

DR. SALTER'S NEW HYBRIDS (novelty). A money-maker for the florist. A new strain of orchid-like Alstroemeria, which can be highly recommended for its wonderful value for cutting, and also for its mass effect in the garden. The flowers are gloriously beautiful, spectacular in the massed clusters, and most interesting in the markings of the individual blooms. The colours in these new hybrids are glossy yellow, pink, rose, carmine, blood-red, salmon-pink, deep red, apricot, orange and tawny lilac, with usually the inner segments showing contrasting markings. Height 2ft. per pkt. 1/-

ALYSSUM.

CARPET OF SNOW. One of the most generally useful of all varieties and well named, for if 12 inches of space is left from plant to plant they will meet giving the appearance of a snow carpet. Pure white flowers. Height 2 1/2 in. . . per pkt. 6d.

GOLD DUST. Compact mass of golden yellow flowers which cover the plant. Extra fine per pkt. 6d.

LILAC QUEEN. Clear light lilac flowers admirably suited for edgings or ribbon borders, habit dwarf and erect. An excellent contrast to the white or yellow varieties. Hardy annual. Height 6 inches. Sow Spring or Autumn per pkt. 6d.

MONTANUM. Forms a carpet of silvery hoary foliage with large sweetly scented yellow flowers in Spring, good rock plant. Hardy perennial, height 4 inches per pkt. 6d.

PERENNIAL ROCK HYBRIDS, MIXED. Many new shades, most attractive species, for all kinds of rock and paving work per pkt. 1/-

SULPHUREUM (new). A splendid variety of this popular bedding and rock plant. Very compact habit. Multitudes of lemon flowers. Hardy perennial. Height 6 inches per pkt. 6d.

AMARANTHUS.

TRICOLOR SPLENDENS. A beautiful half hardy annual with very ornamental foliage, scarlet crimson marked yellow and bronzy-green. Fine for bedding and backgrounds. Height 2ft. per pkt. 6d.

MOLTEN FIRE. Dwarf, leaves dark bronze, centre poinsettia red, beautiful per pkt. 6d.

PYGMY TORCH. Dwarf growing, extremely showy plant. Vivid red foliage and upright bright crimson plumes. Height 10 inches per pkt. 6d.

SUNRISE. Carmine red foliage, shading to gold per pkt. 6d.

AMARYLLIS.

HIPPEASTRUM HYBRIDS. Large Lily-like flowers. Wonderful range of brilliant colourings of red, crimson, orange scarlet, with medium stripes and super light stripes. Hand fertilized per pkt. 1/6

AMBROSIA.

MEXICANA. Aromatic and graceful green plumes. Cuts well per pkt. 6d.

AMPELOPSIS.

VEITCHII (Virginian Creeper). The well known small-leaved Virginian Creeper, self-clinging, quite hardy and changing the colour of its leaves in the Autumn to brilliant red. One of the most effective of the self-clinging climbers for covering walls, etc. H. Perennial bl. per pkt. 6d.

ANAGALLIS.

CELESTIAL. Flowers of a much-wanted gentian blue as large as a penny, borne on a compact little plant 6 inches high. Sow along the front of the border or over rocks, etc. Hardy annual. R.H.S., A.M. per pkt. 6d.

GRANDIFLORA COCCINEA (The Scarlet Pimpernel). Bright scarlet flowers with the same habit as the above. Will become more popular when better known. Usually only obtained mixed with blue per pkt. 6d.

ANCHUSA.

CAPENSIS BLUE BIRD. Wherever hardy annuals are grown this must not be overlooked. The colour is a vivid indigo blue and the habit compact. Splendid for bedding. For colour alone we consider this one of the most valuable of all annual flowers. Height 18 inches per pkt. 6d.

ITALICA DROPMORE. A border plant of first-class habit, a most lovely shade of gentian blue. Dotted here and there in the herbaceous border the colour is most effective. Height 4ft. Hardy perennial per pkt. 6d.

ITALICA LISSADELL. Lovely variety with large clear gentian blue flowers. Some think this variety superior to Dropmore. Anchusas will grow well anywhere and present no cultural difficulties whatever. Height 4ft. Hardy perennial per pkt. 6d.

ALKEKENGI.

BUNYARDI. A new Winter Cherry with bright orange capsules of large size and rich colour. Very useful for Winter decorations and market bouquets. A grand improvement, three times the size of the ordinary. Perennial. Height 3ft.
per pkt. 1/-

ANEMONE.

ST. BRIGID, CREAGH CASTLE STRAIN. We consider this to be the finest strain extant of St. Brigid type. The flowers are extra large and embrace a remarkably wide range of brilliant colours born on long stiff stems with good proportion of vermilion-scarlets and pinks . . . per pkt. 1/-

PULSATILLA. A hardy perennial, well adapted for rock work or border. Pretty flowers of violet-blue on long stems and Snowdrop habits per pkt. 1/-

ST. BRIGID, Mixed Colours. It is not generally realised how easily Anemones may be raised from seed or how quickly they bloom from the time of sowing, which roughly is 7 months. Seed should be rubbed in dry sand to facilitate sowing. This is our ordinary strain of doubles and semi-doubles. Very free flowering . per pkt. 6d.

SUNSET (new). A distinctive colour in these popular hardy bulbs, being a lovely shade of carmine-rose. Fully double, excellent for cutting and bedding. Flowers are borne in profusion on long clean stems . . . per pkt. 1/-

SULPHUREA. A lovely new species with large sulphur-yellow flowers and graceful foliage. Hardy perennial . . . per pkt. 1/-

SCARLET EMPEROR. A beautiful single brilliant scarlet Anemone of strong growth and perfectly hardy. Strong long stems suitable for cutting . . . per pkt. 6d.

HIS EXCELLENCY. A fine selection from the St. Brigid strain with sturdy habit and semi-double scarlet flowers on long stems. Fine for cutting . . . per pkt. 6d.

LORD LIEUTENANT. A fine St. Brigid Anemone with fine double violet-blue flowers on long stalks. Splendid for bedding and cutting. Hardy perennial. Bulb . . . per pkt. 6d.

ANODA.

LAVATEROIDES (New). An annual which thrives in full sun or light shade, and is of easy culture. It flowers within five weeks of sowing, and continues till late Autumn. Known as the Opal Cup, the blooms are salver-shaped, 2½ inches in diameter and rosy-lilac in colour, appearing pure pink in full sun. Specimen plants often reach 4ft. in height, and 3ft. in diameter per pkt. 1/-

ANTHEMIS.

KELWAYII. A valuable hardy perennial border plant, producing over a long period an abundance of bright yellow flowers on long stems, most useful for cutting. Fine feathery foliage. Height 3ft. . . per pkt. 1/-

ARABICA. An annual variety. Height 8in. Resembles a golden Nigella. Deep old gold flowers. Finely cut foliage. Good habit. Attractive perfume . . . per pkt. 6d.

TINCTORIA-PERRY'S VARIETY (new). The well-proportioned bushes with delicate fern-like foliage are most attractive, and become covered with bright golden-yellow well-shaped flowers nearly 3 inches across, which are very valuable for cutting. Height 2ft. Hardy perennial . . . per pkt. 6d.

NEW HYBRIDS (new). Good for cutting. White and yellow shades. Perennial . . . per pkt. 1/-

SANCTA JOHANNIS (new). Hardy perennial, comes 80 per cent. true from seed. Rich glowing orange Marguerite with fern-like foliage. A real florists' flower and sure to be in demand . . . per pkt. 1/-

ANTIGONON.

LEPTOPUS (Mexican Mountain Rose). Handsome Summer blooming climber for warm districts. Flowers beautiful rose-pink . . . per pkt. 1/-

ANTIRRHINUMS.

GOLIATH (tall). Long massive spikes of very large flowers, salmon-rose above with orange centre shading downwards to pale apricot. A grand variety for bedding or bold groups. 3ft.
per pkt. 6d.

ENCHANTRESS (tall). A most distinct and effective pure rose-pink flower. Fine for cutting. 3ft. . . per pkt. 6d.

PRINCE OF ORANGE (tall). A most brilliant ensemble of gold and orange. Specially recommended. Very large bold flowers. 3ft. . . per pkt. 6d.

THE ROSE (tall). A fine pure rose Antirrhinum suitable for cutting and massing for which purpose we particularly recommend it. Height 3ft. . . per pkt. 6d.

THE MONARCH (tall). The finest deep velvety crimson Antirrhinum of immense size. The tallest, most robust and deepest coloured of all . . . per pkt. 6d.

YELLOW KING (tall). The finest and deepest yellow Antirrhinum in the tall section. Fine long spikes. Height 3ft. . . per pkt. 6d.

FELTHAM BEAUTY (tall). Deep rose-pink, extra fine spikes, very large flowers. Good cutting . . . per pkt. 6d.

THE DIAMOND (new). A giant-flowered tall variety with scarlet-carmine flowers with golden-yellow lip and pinkish-red throat. The three contrasting colours make a most sparkling effect. Fine for cutting. Height 3ft. . . per pkt. 6d.

WALLFLOWER (new). A giant flowered tall variety with long spikes of an unusual colour for Antirrhinums. A rich mahogany-red which gives to it its name. Height 3ft. . . per pkt. 6d.

MAJESTIC DELIGHT (medium). Delicate salmon-pink shading to apricot with golden yellow centre. A fascinating shade. All the Majestic class of Antirrhinums can be highly recommended for vigour, cutting and bedding. Height 18in.
per pkt. 6d.

MAJESTIC RED CHIEF (medium). Rich deep scarlet, the individual blooms are of large size carried on long dense spike. The best deep scarlet. Height 18in. . . per pkt. 6d.

MAJESTIC GOLDEN DAWN (medium). Golden-buff overlaid salmon, distinct and soft in tone. In the mass the general effect is a light orange. Height 18in. . . per pkt. 6d.

MAJESTIC ORANGE (medium). An exquisite blend of rich terra-cotta and deep orange, the general effect when seen in the mass being a brilliant rich orange. Height 18in. . . per pkt. 6d.

MAJESTIC ELDERADO (medium). Colour deep golden-yellow quite the richest tint yet produced. The individual blooms are large and the spike dense and massive. Height 18in. . per pkt. 6d.

MAJESTIC PINK BEAUTY (medium). A charming rosy-pink self which makes a most brilliant show both individually and when the plants are massed together in beds. Height 18in. . per pkt. 6d.

RUSTPROOF MIXED (tall). This mixture contains all the newer rust-proof tall varieties. Bright and showy for cutting . . . per pkt 1/-

MAJESTIC SUNSET (medium). Bright terra-cotta shading gradually downwards into a rosy-salmon. From a distance the whole colouring is transfused into a rich salmon-red. Height 18in. . per pkt 6d.

FLAME (medium). Lovely brilliant orange-scarlet self, well fixed, an exquisite variety, one of the best in this shade. Most effective. Height 18in.
per pkt. 6d.

GOLDEN MONARCH (medium). Splendid golden-yellow with massive spike and splendid habit. The best of its colour. Makes a fine contrast to mauve or purple shades. Height 18in.
per pkt. 6d.

SILVER QUEEN (medium). Colour pure silvery-lilac, a lovely shade and a rare colour in Antirrhinums. Height 18in. . . per pkt. 6d.

MAUVE BEAUTY (medium). An attractive and distinctive shade of rosy-mauve, pleasing if used in conjunction with white or yellow colours, though it does not blend with many of the others. Height 18in. . . per pkt. 6d.

MALMAISON (medium). One of the finest Antirrhinums ever raised. Pure silvery-pink flowers of large size on splendid spikes. It has dark foliage to which the delicate colour of the flowers forms an admirable contrast. Height 18in.
per pkt. 6d.

ANTIRRHINUMS (Continued).

BLACK PRINCE (medium). A very rich deep maroon-crimson with distinctive dark foliage. A good bedder, fine edged with white. Height 18in. per pkt. 6d.

WELCOME. A large flowered semi-tall type which we name with confidence the best of all crimson varieties. A true, deep, brilliant crimson. A sturdy grower and splendid for bedding. Height 1½ft. per pkt. 6d.

ROYAL ROSE (medium). Truly a regal variety, and a variety we can recommend with all confidence. The colour is almost impossible to describe, and must be seen to be fully appreciated. Even to say that it is the deepest and richest rose imaginable does not do it justice. There is apparent in every flower that quality of tone and velvet sheen that reminds one of the texture of the rose. The spike is dense, and the individual flowers are placed closely together. Height 1½ft. per pkt. 1/-

DOROTHY SILK (medium). Fiery terra-cotta, white throat. Most vivid colour in the Nanum section per pkt. 6d.

ROYAL PURPLE (new, medium). An attractive bright deep mauve per pkt. 6d.

GIANT MIXED (medium). A special strain resulting from the crossing of some of our largest flowered varieties. Attractive colours per pkt. 6d.

PINKIE (dwarf). Bright rosy pink, 8in. high per pkt. 6d.

CHOICE MIXED (dwarf). Mixture of all colours in this section. Fine for edging per pkt. 6d.

ROCK HYBRIDS (new). Distinct dwarf, compact habit. Ideal for rockeries. Mixed colours per pkt 1/-

NEW AMERICAN FLORISTS' ANTIRRHINUMS. All tall varieties, with long, strong stems, with the blooms closely set.

AFTERGLOW, golden bronze; **AUTUMN TINTS**, rich golden bronze; **CEYLON COURT**, canary yellow; **CHEVIOT MAID**, early bright pink; **ROSE QUEEN**, deep pink; **SUNTAN**, orange bronze Each per pkt. 1/-

AQUILEGIA.

DOBBIE'S IMPERIAL HYBRIDS. Very handsome, and exhibit many new and beautiful shades and combinations of colours. A mass of these plants in full flower is a charming sight. Invaluable for cutting. Our strain is unsurpassed. Height 3ft. per pkt. 6d.

COERULEA MRS. M. NICHOLLS. A very much improved Coerulea. Intense sky blue and white flowers, long spurred and large A.M., R.H.S. Height 2ft. H.P. per pkt. 1/-

LONGISSIMA (new). The longest spurred of all, often 4in. long. Light yellow flowers. Fine for exhibition. Award of Merit, R.H.S. . per pkt. 1/-

SIMPSON'S PRIZE EXHIBITION. A fine exhibition strain raised by a leading Victorian grower, and released for the first time, which has won more first prizes than any other strain of Aquilegias in Victoria. Very handsome and distinct, containing many new and beautiful shades and combinations of colour, including crimson. Very long spurs. A mass of these plants in full flower is a charming sight. Invaluable for cutting and exhibition. Height 3ft. per pkt. 1/-

PEARSON'S CRIMSON STAR. A.M., R.H.S. The Columbine for the exhibitor. This fine novelty possesses all the graceful charm of the ordinary Aquilegia, but is of far greater decorative value in the flower border. The flowers are very large, with sepals and spurs of richest crimson with contrasting white petals, and are carried very freely on robust flower stems per pkt. 1/-

CLEMATIS FLOWERED (new). A glorious Columbine. Quite distinct. The blooms resemble Clematis flowers. Height 2 to 3ft. Compact habit. The colour range includes delicate pastel shades of pink and blue per pkt. 1/-

SUNSET (new). Large flowers with long spurs, with sepals and spurs a rich cerise rose and corolla primrose yellow. Very handsome and showy, and a gem for cutting. 2½ft. per pkt. 1/-

BARR'S ROSE AND RED SHADES (new). Saved from a specialist's fine collection, this strain has large and long spurred flowers in colours of rose, pink, ruby red and crimson red. This is an exceptionally fine strain of Columbines. Splendid for cutting per pkt. 1/-

ARABIS.

ALPINA. This well known plant will be found ideal for rockery or edgings for it will grow anywhere and its culture is most simple. Early blooming single white flowers on plants 9in. high. Sow Autumn or Spring. Hardy perennial . per pkt. 6d.

BORDSLEY PINK (new). For early Spring flowering, rock work or edging, we strongly recommend this variety. It is very dwarf, and covered with bright pink flowers. It is often mistaken for an Aubrietia. Period of flower is long and will give every satisfaction. A splendid acquisition . . per pkt. 1/-

BLEPHAROPHYLLA (novelty). A most interesting introduction. Known as the Red Arabis, the trials of this new variety have been outstanding. It has flowers of a deep rosy pink, produced freely on plants about 1ft. in height . per pkt. 1/6

ARCTOTIS.

GRANDIS. A beautiful long stemmed species, flowers pure white with a blue eye. Sometimes known as the Blue-Eyed Daisy. A.M., R.H.S. Very useful for cutting. Hardy annual. Height 2ft. per pkt. 6d.

SCAPIGERA MIXED. A hardy dwarf herbaceous species from South Africa. Vigorous growth producing flowers 2½ to 3in. across of orange, terra-cotta red, yellow, cream, salmon, carmine, etc. Very showy and effective. Easily raised from seed. Award of Merit, R.H.S. Long stems, fine for cutting. Somewhat resemble Gerberas. Perennial. Height 1½ft. per pkt. 6d.

ARNEBIA.

CORNUTA. Yellow flowers with five black spots. Very showy pretty hardy annual. Height 1ft. per pkt. 6d.

ARISTOLOCHIA.

ELEGANS (The Dutchman's Pipe). A hardy climber with dark purple and white handsomely spotted flowers. Very pretty per pkt. 6d.

ARISTEA.

CYANEA (new). A fibrous-rooted evergreen plant with flowers of Lobelia blue. This little plant makes a good edging growing only 6in. high, but throwing up its flowers above the foliage. H.P. per pkt. 1/-

ARNICA.

MONTANA. A showy rock plant with large yellow heads of sweet scented flowers. Dwarf habit. H.P. per pkt. 1/-

ARMERIA.

BEE'S RUBY. This giant Thrift is very useful as a cut flower. The flowers are like the common Thrift though much larger and is long stemmed and lasts well in water. Deep rose coloured flowers. This variety is the best of all Thrifts. Hardy perennial. Height 2ft. per pkt. 6d.

ARTEMESIA.

SACROSUM VERIDIS (Summer Fir). Decorative foliage plant. It forms pyramidal bushes 3 to 5ft high. Foliage rich dark green . per pkt. 6d.

ASCLEPIAS.

TUBEROSA (new). A very useful Autumn and Winter flowering plant. Its flowers are orange scarlet in colour, produced in long, erect spikes. It is a good perennial, but if sown early it makes good plants the first season. Fine for cutting. Height 2ft. per pkt. 1/-

ASPARAGUS.

PLUMOSUS NANUS. An exceedingly graceful and useful plant with beautiful feathery foliage. For bouquets and sprays it is preferred by many to ferns. Very useful as a house plant. H.P. per pkt. 6d.

SPRENGERI. This variety is very fine for hanging baskets with its sprays of red berries. Its foliage is used largely for decoration. Makes a fine pot plant. Also H.P. per pkt. 6d.

ASPERULA.

AZUREA SETOSA. An attractive hardy annual producing a profusion of small Bouvardia-like pale blue sweetly scented flowers throughout the summer; useful for cutting. Very effective in bold groups, in a mixed border, or on the rockery. Fine bee flower per pkt. 6d.

ASPHODELUS.

LUTEUS (new). A hardy perennial liliaceous plant, throwing up spikes of yellow flowers. A native of Sicily, it is of neat habit with fine narrow leaves. Makes a fine border plant and is of easy culture. Height 2½ft. per pkt. 1/-

PERENNIAL ASTER.

FLORISTS' DELIGHT. A new giant-flowered type of dwarf early-flowering Aster. The blooms measuring more than 4 inches across are a shining lavender-blue with a yellow disc, borne on very long stems. Fine for cutting. Height 1ft. per pkt. 1/-

OREOPHILIS. A particularly fine perennial Aster growing to a height of 18 inches with flowers on long stems in numerous shades of sky-blue per pkt. 1/-

FARRERI. The individual flowers of this new variety are 2½ to 3 inches across and are of a lovely soft tone of violet-mauve greatly enhanced by the large golden orange disc. Vigorous growth. From seed there are slight variations of form, but all are good. Hardy perennial. Height 1½ft. per pkt. 1/-

YUNNANENSIS. A new species from China. The flowers carried on long stems about 15 inches high are clear blue with yellow centres. Fine for cutting. Hardy perennial. Height 15in. per pkt. 1/-

WARTBURG STAR (novelty). This is a new variety of Perennial Aster subcoccineus. It is extremely large-flowered and very early. The blooms measure more than four inches across and are of a clear blue colour, and are borne on long stems, making them most useful for cut flower purposes. It is quite hardy, and easily raised from seed. Most useful also for borders. Height 1ft. per pkt. 1/-

ANNUAL ASTER.

VESUVIUS. A very fine Aster. The brightest dark red Aster in existence. Height 1½ft. per pkt. 6d.

LOS ANGELES (new). The flowers are huge, larger by far than even Giants of California and rather earlier. When cut they are almost indistinguishable from Chrysanthemums. Colour is a pure shell-pink of a most attractive shade and should be grown by all market growers for cutting. Fine for exhibition per pkt. 6d.

EL MONTE. Clear tone of crimson. Very large and effective per pkt. 1/-

BLUE FLAME. Dark blue, large flowered, tall per pkt. 6d.

GIANTS OF CALIFORNIA. We can recommend this as a variety of the greatest excellence and supersedes all others for cut flower purposes. The plants attain a height of 2½ft. and are of vigorous growth, producing abundance of bloom. The individual flowers are large and massive without being coarse and are carried on long stout stems. Rapidly becoming the most popular of all Asters. We can supply in separate colours of deep rose, light blue, light purple, dark purple, peach blossom, white and mixed each colour, or mixed 1/6 ¼ oz., 2/6 ¼ oz., per pkt. 6d.

HEART OF FRANCE. A most unusual colour in Asters. Flowers ruby-red of excellent size and perfect formation on long strong stems. Fine for cutting ½ oz. 1/6, per pkt. 6d.

ECLIPSE, Salmon Bronze. (new). The wonderful colour effect is the outstanding feature of this splendid flower. The warm tone of salmon bronze is quite a unique shade among Asters. Medium early. Grows 2ft. high and bears numerous flowers on strong stems per pkt. 6d.

FLORISTS' FAVOURITE (novelty). A giant Aster with superb chamois pink flowers, very large and double, with upright stems. Tall growing, branching and vigorous. A first-class Aster, sure to be in demand. Gives quantities of superb flowers. Excellent for cutting. Height 3½ft. ½ oz. 4/6, per pkt. 1/-

ANNUAL ASTER (Continued).

GIANT GOLIATH MIXED (new). An extra large flowered class of Asters, not as flat as the Comet type, but deeper in form and more of a globe shape, of very bold and striking character, with the upper petals umbricated, and the lower ones more curled and twisted towards their circumference. This specialty mixture is saved only from selected plants, and contains a splendid assortment of fine clear colours. The sturdy plants grow about 2½ft. in height, and the flowers vary from 5 to 6 inches across. Recommended for cut bloom and exhibition per pkt. 1/-

WHITE WONDER (new). A sturdy Aster with immense blooms and stems. It is of the "Comet" class, and is the largest white Aster extant. Specially recommended for florists per pkt. 1/-

SUNRAY. A new florists' Aster, which is highly spoken of on the Continent. It is claimed to be the best yellow Aster for early Autumn bloom. The flowers are fully double, of true yellow, later turning to deep cream, with long curved petals. The blooms are large, and are carried on long stems, making them excellent for cutting, for gold is the coming colour per pkt. 1/-

TRIUMPH OF THE MARKET (novelty). An Aster which represents the beau ideal of its type. It is one which should appeal alike to the grower for the market and the keenest amateur. The immense flowers certainly represent the acme of perfection yet attained in the Ostrich Plume type, as they measure up to 6 and 7 inches across, are of almost globular form, with remarkably full centres, and are borne on very long and strong stems, often 18 inches and more in length. In size and beauty, this new Aster far exceeds the Californian Giants, and have the advantage over the latter of blooming much earlier, being a mid-season and not a late variety. This feature will be greatly appreciated by market growers, as the flowers are ready for cutting before the early Chrysanthemums are abundant on the market. For cutting, nothing finer has so far appeared, and for both indoor and outdoor decoration they are of superb effect. Colours in the mixture are rose white, crimson, lilac-blue and other attractive shades per pkt. 1/-

ENCHANTRESS (new). Wilt resistant. This is an entirely new colour in Asters—a luscious shade of lively salmon-rose, distinct from all other colours yet developed. Both florists and home gardeners will be delighted with it. Of Crego type, the flowers are large, of good substance, and are produced on free flowering branching wilt resistant plants which bloom early per pkt. 1/-

DREER'S SENSATION (new). For a rich and brilliant colour effect, Sensation takes first place, as no other Aster has such a rich and brilliant garnet red colour, which glistens and sparkles in bright sunlight. The plants are free branching wilt resistant, and about 2ft. high, with very double flowers, measuring 3½ inches across, with fine stems, 1ft. long per pkt. 1/-

PAGE'S NEW CACTUS (new). An extra special distinct selection of florists' Asters. The blooms are all large flowered, with slender, attractively quilled petals which stand rain well. The plants are of branching habit, growing about 2½ft. high. The mixture of colours includes rose, lavender, crimson, violet, bronze, terra-cotta, dark blue, light blue, lilac, salmon, white, copper-red, etc. per pkt. 1/-

ROSE FLOWERED (new). This new section of Asters will rapidly become popular. We ourselves were delighted with them last year. The flowers are of medium size, and the form is somewhat like that of a rose. The stems are long and the flowers last particularly well when cut. The colours in the mixture are scarlet, light blue, white, chamois, peach blossom, rose, salmon-rose, lilac. Height about 2ft. per pkt. 1/-

AUBRIETIA.

DELTOIDES. Hardy perennial for rock work and edging. Forms beautiful cushions of large blue flowers in Spring. **EYRII.** Rich violet-purple. **ROSE QUEEN.** Rose-pink, a charming new variety. **WHITEWELL GEM.** Glowing rose-purple with slight tinge of blue, the centre having a halo of white. Very fine, large flowered. Plant out seedlings in the Autumn. Hardy perennials. Height 9in. **BLOOD RED.** Very fine and distinct each, per pkt. 1/-

AUBRIETIA (Continued).

MONARCH MIXTURE (novelty). One of the finest introductions in perennials of recent years. This mixture contains flowers of almost every conceivable shade of deep red, rosy violet, rose, violet, lavender, pink, purple, slatey-blue, mauve, etc. The colours are of exceptional brightness, making a bed appear indescribably beautiful. The flowers are of perfect form, fully rounded, and of large size. The plants are of compact dwarf, neat habit, and of free flowering character. At the raiser's seed grounds last Spring these new hybrids presented a riotous picture of colour, and were likened by visitors to Persian carpets. If sown in late Summer or Autumn will produce plants which should flower the following Spring, and from that time onwards bloom every Spring with increasing freeness for many years. A brilliant galaxy of colour per pkt. 1/-

AURICULA.

TRIUMPH STRAIN. A mixture saved from an excellent strain and includes all the most showy and beautiful colours on long stalks ranging from dark crimson-scarlet through pink and terra-cotta shades to primrose and cream. Produce a fine effect in beds or masses. Should be transplanted to their flowering quarters in Autumn. Do not object to partial shade per pkt. 1/6

BALSALM.

CAMELLIA AND ROSE FLOWERED. A plant that is very much neglected. For sunny beds and borders our strains cannot be surpassed for variety and brilliancy of colouring. Do not sow seed too early in Spring as late sowings always produce much sturdier plants. Height 18in. . . . per pkt. 6d.

GARDENIA FLOWERED (new). Flowers are produced in clusters at top of the branches where they are in full view instead of being hidden on the side. Large double blooms resembling Gardenias. White and shades of red and rose. Bushy plants. 1½ft. high per pkt. 6d.

BARTONIA.

AUREA. Bright golden yellow flowers in great profusion. A very showy but hardy annual which deserves to be much more widely grown. Will thrive well even in partial shade. Height 18in. . . . per pkt. 3d.

BAPTISIA.

AUSTRALIS. One of the most charming blue flowered border plants. When once planted if left to establish itself it will produce a mass of fine foliage and bold spikes of Lupin-like blue flowers, on long spikes, making a most striking feature in the garden. H.P. Height 3ft. . . per pkt. 1/-

TUBEROUS BEGONIA.

SUPERB DOUBLE. Seed saved from named varieties. These plants are easily raised from seed and the bulbs are kept over the Winter in the same way as Dahlias. This strain usually produces over 75 per cent. of high class double flowers of the richest and most varied colours . . . per pkt. 2/6

HANGING BASKET VARIETIES. These are specially suited for hanging in the greenhouse, etc., as they are very light and graceful in appearance. We offer a splendid strain and many interesting varieties can be raised from it . . per pkt. 2/6

BEDDING BEGONIAS.

MARGINATA, ELEGANT (novelty). A very fine new fibrous rooted Begonia which is admirably adapted for bedding, and also makes an exquisite pot plant, of bushy habit and medium height, it bears large flowers of pure white with a vivid edging of a crimson, a most charming combination of colouring contrasting well with the fresh green foliage. Elegant is very free flowering and comes quite true from seed . . . per pkt. 1/-

GRUGA (new). A fine rose-pink coloured Begonia of compact habit and vigorous growth. Large flowers per pkt. 1/-

INDIAN MAID (new). Salmon-scarlet with dark foliage. Very fine per pkt. 1/-

BEDDING BEGONIAS (Continued).

SALMON BEAUTY. Very large flowers of salmon-pink shaded with coral-red. One of the best for bedding and makes a charming pot plant.

SORCERESS (new). A fine Begonia for bedding and bordering. The flowers are of limpid rose shading to carmine towards the centre. Plants grow about 12 inches high and form a free-flowering bush 10 to 12 inches across. Easily raised from seed. Light green foliage per pkt. 1/-

WINTER CHEER (new). The first real Winter-flowering hardy Begonia to be raised from seed. Plants should be pinched back once or twice for best results. The plants are covered with crimson-scarlet flowers. Particularly valuable for bedding and edging. Height about 9½in. per pkt. 1/-

Begonia seed is very small and should be sown evenly and thinly. Do not cover with soil but after sowing lightly press it in with a flat piece of wood, then dip the pans or boxes to their rims in water until the soil is moist. (Watering with the hose or water can, however fine the nozzle, would certainly wash out the seed). Do this until the seedlings are nicely rooted. After sowing cover the pan or box with a sheet of glass and let this remain until the plants are large enough to move. Prick off into pots or boxes as soon as large enough to handle. Begonias prefer a light but rich soil.

BELLIS PERENNIS.**(Double English Daisy.)**

MONSTROSA MIXED. Large double pink, red and white flowers. Most useful for edgings and bedding. Flower continuously. Sells well in lifted clumps per pkt. 6d.

MONSTROSA LILAC (new). A colour which until now has not been offered in the assortment of Double Daisies. Colour silvery lilac. Flowers are of giant size with flat plain petals . . . per pkt. 6d.

BEATALL (new). The largest flowering Double Daisy of all. It has very long stems about 10 to 12 inches long. Delightful as a cut flower and most valuable to the florist. Resembles a small Aster, sometimes spoken of as the Aster-flowered Daisy per pkt. 1/-

WASHINGTON (new). Choicest mixed, extra special selection of extra large and double flowers. Upright and strong stems . . . per pkt. 1/-

IDYL RADIATA (new). Peculiar novelty. Half of the flower petals are open and half are quilled. Colour red per pkt. 6d.

HELICHRYOIDES (new). Double red flowers with incurved petals like a Helichrysum . . . per pkt. 6d.

TUBULOSA ETNA (new). Extra large quilled, dark red. Fine per pkt. 6d.

TUBULOSA MONTEROSA (new). Giant pure rose grand in the mass per pkt. 6d.

TUBULOSA DAFFODIL (new). Large. A fine new break in colour. Quilled petals of light yellow, which is a rare shade in Bellis . . per pkt. 1/-

BERBERIS.

AQUIFOLIUM. This variety has large thick Holly-shaped leaves which though evergreen turn a beautiful colour in the Autumn. Large bunches of golden yellow flowers. H.P. Height 4ft. per pkt. 1/-

THUNBERGIA. A very choice plant with golden pendulous flowers. In Autumn the foliage turns to a beautiful crimson. H.P. . . . per pkt. 6d.

WILSONAE. Flowers pale yellow in bunches, and blooms in early Summer, followed by bright coral red berries. Foliage is small and turns to crimson and yellow tints in Autumn. This and the preceding varieties are easily raised from seed. Height 3ft. H.P. per pkt. 6d.

BIDENS.

HUMILIS (The Yellow Cosmos). An interesting plant from Peru. Easily grown from seed the flowers resemble a golden Cosmos. Hardy perennial per pkt. 6d.

DAHLOIDES (The Black Cosmos). An interesting plant from Mexico. Except for its colour, an unusual shade of rich deep brown maroon, the flower might be a Cosmos. Easily grown from seed, making a cluster of tuberous roots like a Dahlia per pkt. 6d.

BORONIA.

MEGASTIGMA. Sweet scented hardy West Australian plant with brown flowers with yellow centres. Makes a nice pot plant. Wonderful perfume. Fresh seed from W.A. Height 3ft.
2/6 ½ oz., per pkt. 6d.

BRACHYCOME.

BLUE STAR. Very free blooming annual. Dainty little plants covered with charming bright blue starry flowers. Suitable for beds, borders, or edgings. Height 1ft. . . 1/6 ½ oz., per pkt. 6d.

SUMMER BEAUTY (new). Erect little bushes covered with soft mauve coloured Cineraria-like flowers with dark centres. Excellent for edging or bedding. We recommend all our customers who do not know it to try this annual. It will undoubtedly become very popular as soon as its real merit is more generally known. Height 1ft. 2/6 ½ oz., per pkt. 6d.

ROSEA. Attractive pink shade. Free blooming
per pkt. 6d.

BROOM.

ANDREANA, Crimson and Gold. A fine improvement on the old type. A beautiful Broom. Fine for cutting. Flowers are very rich crimson and gold. Height 4ft. per pkt. 6d.

FIREFLY. A selection from Andreana, but with scarlet and gold flowers which make a fine show. Fine for cutting. Hardy shrub . . . per pkt. 1/-

NEW HYBRIDS (new). Wonderful mixture from many crossings per pkt. 1/-

DRAGONFLY (new). Crimson and old gold
per pkt. 6d.

MAYFLY (new). Copper and gold . . per pkt. 6d.

BUTTERFLY (new). Bronze and gold . . per pkt. 6d.

SPANISH. Tall growing Broom with rich yellow glowing flowers sweetly scented which are produced in terminal racemes on the last season's growth. Long blooming. Splendid for cutting and for the shrubbery. Height 10ft. per pkt. 6d.

PORTUGAL WHITE. A fine hardy shrub producing a wonderful profusion of white flowers on long sprays. Height 4ft. per pkt. 6d.

BUPHTHALMUM.

SALICIFOLIUM. Showy hardy herbaceous perennial, with flowers useful for cutting and also for the border. Large yellow solitary flowers
per pkt. 6d.

BROWALLIA.

ELATA. Very pretty hardy annual with glossy dark green foliage and deep blue flowers. Fine for bedding. A bed of this somewhat unknown annual was planted out at Central Park, Malvern, and greatly admired, many inquiries being made as to its name. When better known will be largely used for bedding for besides being perfectly hardy its telling blue flowers are produced over a long period. Height 18in.
1/6 ½ oz., per pkt. 6d.

VISCOZA (new). Like the foregoing, this is a useful bedding plant. Its flowers are salver shaped and are a bright violet-blue. The plants are best pinched back once or twice to make bushy plants. Height 1ft. per pkt. 6d.

SPECIOSA MAJOR. A valuable winter-flowering perennial of very easy culture and almost perpetual flowering. Flowers large and of a lovely bright blue relieved by a white throat. Neat habit. Makes a fine pot plant. Recommended to florists and market growers. Height 1½ft.
per pkt. 1/6

CACTUS.

(The most curious and interesting of all plants.) Succulent thick stemmed plants of grotesque form, and with the exception of one section of the family, entirely leafless, but generally furnished with spines and sticklers. If they never bloomed their oddity and ease of growth would make them favourites, but they bear beautiful and curious flowers also, some of them reckoned amongst the finest in the world. Fine for rockery or elevated beds where water cannot stand on the roots and rot them.

CHOICE MIXED SORTS per pkt. 1/6

CAJOPHORA.

LATERITIA (new). A hardy annual climber from Chili, flowering in the Summer and Autumn. It has orange red flowers, and grows to a height of 15 feet. Splendid for florists . . . per pkt. 6d.

CALCEOLARIA.

MONARCH STRAIN. An exceptionally fine strain of this favourite flower which is saved from the finest large flowered varieties. The plants are of robust and compact habit; flowers are of the finest form in almost every shade of colour, many being beautifully marbled and spotted, making a gorgeous effect. Height 15in. . . per pkt. 2/6

RUGOSA HYBRIDS. A very choice strain of shrubby varieties, remarkable for their beautiful colourings and their adaptability both for pot plants and for bedding purposes. In favourable situations they are practically hardy. Remember with Calceolarias, do not throw away the tiniest seedlings as these invariably prove to be the best colours. Height 18in. per pkt. 1/6

CALIFORNICA. A very pretty golden yellow hardy annual and an ideal bedding plant. It does not object to shade. Height 1ft. per pkt. 6d.

ECLIPSE. Hardy outdoor strain embracing great range of colours per pkt. 1/6

CALENDULA.

CAMPFIRE. Extra double flowers of deep orange, very bright, on long stems. Excellent florists' strain per pkt. 6d.

APRICOT QUEEN. A fine flat petalled variety of a bright apricot shade, deepening slightly towards the centre. It will be found excellent for all the purposes to which a Calendula can be put per pkt. 6d.

CHRYSANTHA. The Chrysanthemum-flowered Calendula. An entirely distinct development in the Calendula. It so strikingly resembles a yellow Chrysanthemum that visitors on approaching a bed growing for seed invariably exclaimed "Are they Chrysanthus?" Owing to its pleasing buttercup yellow colour, its remarkably distinct and informal shape, and great length of stem, Chrysantha will be found ideal for interior decoration. It is without shadow of doubt THE Calendula for cutting. Height 2ft. . 1/- ½ oz., per pkt. 6d.

ORANGE CHRYSANTHA (new). An orange counterpart of the famous Chrysantha Calendula. Splendid for cut blooms per pkt. 1/-

ORANGE KING IMPROVED. Large, dark-centred, double flowers up to 4 inches in diameter of an intense deep orange red per pkt. 6d.

DOUBLE ART SHADES. Containing many tones and shades not previously obtainable in Calendulas. Delicate apricot, beautiful picotees, orange and cream shades, in fact every tint that from soft cream through buff and yellow to deep orange. Exceedingly effective for indoor decoration. Height 2ft. 1/- ½ oz., per pkt. 6d.

RADIO. A comparatively new development which has already become popular. Its form is globular and very pleasing, the petals being quilled and not flat as in most other Calendulas. The colour is a warm deep orange. Fine for cutting
per pkt. 6d.

SUNGLEAM. The flowers of this variety are brilliant orange, the petals being lightly tipped with red. When fully open shows black or brown centres. Fine variety for cutting or bedding
per pkt. 6d.

CHOICE MIXED. Beautifully blended colours. Large flowers 1/- ½ oz., per pkt. 6d.

IMPROVED METEOR (new). Large double flowers, lemon yellow, with orange stripes. A great improvement on the old type. Height 1½ft.
per pkt. 6d.

ORANGE "FANTASY" (new). An outstanding break in Calendulas. The petals are long and very fringed, and each flower is crested in an irregular but very attractive manner. The colour is deep orange with a darker centre, which gives the flower almost a bi-colour effect. The stems are long and the plants vigorous. A novelty of 1939 per pkt. 6d.

CALLIOPSIS.

- DRUMMONDI.** Large yellow flowers with brown centres. Hardy annual fine for borders. Continuing long in bloom and very useful for cutting. Height 1½ ft. per pkt. 3d.
- DAZZLER.** Fine habit and large blooms. Colour a rich and very dark crimson centre with broad yellow border forming a sheaf of bloom. Dwarf compact variety. Height 1 ft. . . per pkt. 6d.
- CRIMSON KING.** Forms a perfect little bush covered with rich dark crimson flowers. Height 7 in. per pkt. 6d.
- LEMON QUEEN.** Tall lemon yellow, red zoned, for cutting and garden decoration . . . per pkt. 6d.

CAMPANULA.

- FRAGILIS.** Beautiful light blue, trailing, for baskets, etc. per pkt. 1/-
- MACRANTHA (new).** A very beautiful species, grand variety, with blue-violet pendulous bells. A very showy border plant for semi-shade. Very free bloomer. Height 3 ft. . . . per pkt. 1/-
- LACTIFLORA (new).** Large heads of lavender-blue flowers on long stalks. It makes a handsome, effective bush. Hardy perennial. Height 4 ft. . . per pkt. 1/-
- BRANTWOOD (new).** A latifolia variety with long trumpet-shaped flowers of a rich violet purple shade, 5 ft. per pkt. 1/-
- TELHAM BEAUTY.** Very large globular open flowers of a rich silvery lavender blue. Award of Merit. R.H.S. H. Per., 4 ft. . . per pkt. 1/-
- PYRAMIDALIS (The Chimney Bell-flower).** Magnificent spikes of blue flowers on stems five feet long. Pyramidal habit per pkt. 6d.
- TURBINATA.** Violet-blue. Height 3 ft. Erect cup-like flowers per pkt. 1/-
- PYRAVERSI.** Open bell-shaped flowers, lavender-blue, indigo-blue centre per pkt. 1/-

CAPSICUM.

- CHEMELEON (new).** A splendid ornamental Chili. The fruit stands erect on the plants, and is conical in shape, the colour changing from yellow to violet and scarlet. Makes a fine effect as a pot plant per pkt. 6d.

CATANANCHE.

- COERULEA.** Attractive hardy perennials which are very showy in the mixed border. They attain a height of 3 ft. and are exceedingly useful for cutting, lasting a long time in water. The flowers are blue with darker centres per pkt. 6d.

CARDINAL FLOWER.

- COCCINEA.** A charming climbing annual Convolvulus with beautiful fern-like laciniated foliage and literally covered with a blaze of fiery cardinal-red flowers from mid Summer to late Autumn. Flowers are about 1 inch in diameter and are borne in clusters of five to seven blooms. Likes sunny position and good rich soil. Soak seed in water a few hours before sowing. Sow in Spring per pkt. 6d.

CANARY BIRD VINE.

- A DAINTY ANNUAL CLIMBER,** with finely cut leaves and pretty delicate canary-yellow flowers. From the colour of its blossoms and also from a resemblance of their shape to a bird with wings extended, the plant obtained its common name. Does well in shade per pkt. 6d.

CANDYTUFT.

- GIANT SPIRAL.** A beautiful pure white variety producing very large pyramidal spikes of flower, often 9 inches long. To ensure best results give the plants plenty of room. Height 18 in. . . per pkt. 6d.
- ROSE QUEEN.** Deep rose-cardinal. A telling shade in the garden. Very effective in beds or masses. A splendid hardy annual which we can highly recommend 1/3 ¼ oz., per pkt. 6d.
- DWARF HYBRIDS.** A mixture of large flowered dwarf Candytuft, of very compact habit. Unlike the other varieties, flowers are flat, and make a grand show during Summer and Autumn even in wet weather. Give plants plenty of room to grow. Highly recommended. Height 10 in. per pkt. 6d.

CAMELLIA.

- JAPONICA.** A fine strain of this hardy showy shrub. Seed needs to be soaked in hot water before sowing. A mixture of large single varieties. Sow in Autumn per pkt. 6d.

CANNA.

- CROZY'S DWARF.** Hardy perennial plants remarkable for their brilliancy of flower and foliage. This is a splendid compact free flowering strain and very early. Height 2 ft. Sow in Autumn . . . per pkt. 6d.

CARNATIONS (Specialty).

- CHABAUD'S GIANT.** Probably the most generally useful Carnation of all. This new race is a great advance on the old types. Sown early in the year they will bloom in 6 months and will continue to produce large beautifully formed clove-perfumed flowers for a very long period. We recommend this type with every confidence. Produces 95 per cent. double flowers. We can supply in mixture or in the following separate colours: deep velvety crimson, pure white, terracotta carmine, pure yellow, lilac pink, pure violet, deep rose, salmon pink, brilliant scarlet. This strain is proving unusually attractive for market growers. Height 18 inches. Separate colours or mixed per pkt 1/-
- MALMAISON.** Very similar to Chabauds, but rather earlier to flower. A large flowered very double strain. Sow early per pkt. 1/-
- ALLWOOD'S PEDIGREE STRAIN.** An extra select strain saved from a first-class collection of the finest bush varieties. Can be relied upon to produce a large proportion of doubles and many novelties per pkt. 1/6
- PERPETUAL FL. MIXED.** A comparatively new race which combines all the good qualities of both the Border and Perpetual types. They are hardy, very free flowering, and of good form. All varieties of Carnations are excellent for cutting . . . per pkt. 1/6
- CHABAUD'S CHAMOIS PINK (new).** A new colour in this popular Carnation. Large and intense double frilled flowers with exquisite fragrance, borne on long stiff stems. Splendid for cutting and a lovely shade of pink . . . per pkt. 1/-
- PERFUMED GIANTS (new).** Enormous double-flowered clove-scented, with long strong stems making them excellent for market and cutting. The blooms are larger than the well-known Chabaud's Giants, so one can imagine their size. The colours include pink, crimson, white, salmon, violet, etc. Highly recommended as something special 3/6 ½ oz., per pkt. 1/-
- MALMAISON PERRIN'S STRAIN (new).** This is regarded as the finest strain of Malmaison Carnations ever introduced, and is the result of many years of assiduous work on the part of one of the best growers of this type of Carnation. Its distinctive features are the size of the blooms, broad foliage, its earliness and also the greater variety of colours. Highly recommended. Height 3 ft. per pkt. 1/-
- It is now generally recognised that seedling Carnations bloom with greater freedom than do plants propagated from layers or cuttings. As in many other flowers successful results depend to a great extent on strain; and we believe our strains of each variety to be the best that can be procured. It must not be forgotten that some of the above types can be flowered well, the same year as the seed is sown.

CANTERBURY BELLS.

- NEW ANNUAL MIXED.** A new single type blooming from seed within 6 months from sowing and obtaining a height of 2½ ft. Colours embrace light blue, dark blue, pink, rose and white. A most valuable introduction per pkt. 6d.
- STRAWBERRY RED.** A rather unique colour in the Cup and Saucer section of these showy biennials. Canterbury Bells should be in every garden. Height 2 ft. per pkt. 6d.
- BLUEBELL.** A new annual variety with beautiful Cambridge blue flowers with extra large flowers in trusses. Blooms the same year as sown . . . per pkt. 6d.

CANTERBURY BELLS (Continued).

- DOUBLE GODFREY'S STRAIN.** Quite unique, three or four corollas one inside the other in all the tints of Canterbury Bells (blue, mauve, pink, rose, white), over 50% true from seed. per pkt. 6d.
- SINGLE MIXED.** A good strain of these old favourites. Height 2ft. per pkt. 3d.
- DOUBLE MIXED.** Large semi-double flowers having the appearance of a cup and saucer. White rose, mauve, blue, in mixture per pkt. 6d.

CELOSIA.

- THOMPSONII MAGNIFICA.** Our seeds are saved from a very fine strain; the plumes are large, exceedingly graceful and very effective for bedding and cutting, continuing long in bloom. Each branch is covered by a large pointed silky flower head. The colours that can be expected are crimson, scarlet, rose, yellow, white, purple, and carmine in mixture. Do not sow Celosias too early as early sowing invariably produces coarse flowers. Half-hardy annual. Height 2½ft. . . per pkt. 6d. Separate colours: **JAUNE DE OR**, fine golden yellow. **DEEP CRIMSON**, dark foliage each, per pkt. 6d.
- CHILDSII.** A charming type of Celosia which differs slightly from the above variety, having large rounded woolly flower heads borne on long stems from mid Summer to late Autumn. The plants grow 2ft. high and are completely covered with flowers. Splendid for garden display and highly valued for cutting. Annual. Mixed colours, per pkt. 6d. Separate colours, pink, crimson, yellow, each per pkt. 6d.
- DWARF FIERY FEATHER (new).** A fine Celosia, with stately plumes of crimson-scarlet. Very dwarf per pkt. 6d.

CENTAUREA.

- AMERICANA.** This Centaurea is by far the largest of all the Annual Sweet Sultans. Plants grow to a height of 2½ft. and produce during the Summer a great display of mammoth blooms from 3 to 4 inches across, composed of long delicate lilac-blue tassels-petals. Its beauty deserves greater popularity as a cut flower. per pkt. 6d.
- DEALBATA.** A perennial variety growing to a height of 2ft., with silvery leaves and rose-pink blooms on long stems. Sweetly scented
- MACROCEPHALA (new).** The showiest of all perennial Cornflowers. Has great thistle-like golden-yellow flowers on stiff stems. They grow 3ft. tall, and bloom during Summer months . . . per pkt. 6d.
- IMPERIAL HYBRIDS.** This beautiful class is undoubtedly the finest of all Sweet Sultans for cut flower purposes. The beautiful sweet scented artistic shaped flowers are borne on long strong stems and their lasting qualities in water is astonishing. Pure white, rose, deep purple, lavender, delicate pink, in mixture. Hardy annual per pkt. 6d.

CERASTIUM.

- TOMENTOSUM.** Hardy perennial, invaluable edging plant with silvery-grey foliage, and smothered in white flowers, hence the name "Snow in Summer." Fine also for rock gardens. Height 6in. per pkt. 6d.
- BIEBERSTEINI.** Pure white, white cottony foliage. Very fine per pkt. 6d.

CERCIS.

- SILICUASTRUM (The Judas Tree).** This is a most interesting and ornamental shrub, literally covered in Spring with rosy-purple flowers followed by roundish blueish-green leaves, which are also attractive. This deciduous flowering shrub likes a sunny position for best results. Height, about 10ft. Soak seed in hot water overnight before sowing per pkt. 1/-

CHELONE.

- BARBATA.** An attractive hardy border plant, which produces neat masses of light green foliage and slender racemes of bright scarlet Pentstemon-like flowers on strong wiry stems. Hardy perennial per pkt. 6d.

CHRYSANTHEMUM. (Annual.)

- NIVELLII.** A new annual Marguerite with pure yellow flowers and handsome foliage. It flowers very freely and is splendid for cutting per pkt. 6d.
- DOUBLE FRINGED.** Double and semi-double flowers. This is our best strain of Annual Chrysanthemums, well worthy of a place in every garden for their bright and continuous display of bloom. They are extremely easy to grow and are quite useful for cutting. The colours range from white and yellow to richest purples and crimsons per pkt. 6d.
- YELLOWSTONE (new).** A new double annual Chrysanthemum, excellent for cutting and garden decoration. The flowers are very double of an intensive sulphur-yellow colour, and last a long time when cut. Height 1½ft. per pkt. 6d.
- TRICOLOR MIXED.** A specially selected bright and varied coloured mixture of Annual Chrysanthemums. These flowers are so easy to grow and so useful for cutting that they should be everybody's flower per pkt. 3d.

CHRYSANTHEMUM. (Perennial.)

- LARGE-FLOWERED SINGLE HYBRIDS.** By careful selection from the finest varieties of Autumn-flowering Chrysanthemums, a splendid strain has been obtained. The colours range from white and cream to deep yellow and bronze and exquisite pink and brown shades. They are extremely free flowering and invaluable for cutting. If sown early in Spring will bloom in Autumn. Height 3ft. per pkt. 1/-
- JAPONICUM FINEST MIXED.** The double Japanese varieties now so popular for garden decoration and cut bloom. Splendid colours and possibly a new variety or two may be expected in this mixture. Sown early in Spring will flower in Autumn and Winter. Height 3ft. . . per pkt. 1/-
- CASCADE.** A new race of hardy perennial Chrysanthemums which flower six months from sowing the seed. A fine cut flower and a showy pot plant. The colours include scarlet, crimson, bronze, orange, yellow, white, etc. This variety can be made an excellent subject, with a little training, falling in cascades of beautiful flowers . . . per pkt. 1/-
- MAWII.** This distinct variety has rich pink flowers their beauty being enhanced by their silvery foliage. The flowers are two inches across and the plants are literally covered with blooms, making it an ideal subject for the border or rockery. Highly recommended. Height 1ft. . per pkt. 1/-
- TUCKSWOOD.** Flowers large, with a double row of petals of purest white, borne on long wiry stems in sprays averaging 12 blooms, which all open at once. Hardy perennial, height 3ft.; will flower in six months from seed . . per pkt. 6d.

CHEIRANTHUS.

- ALLIONII (Siberian Wallflower).** A splendid plant either for the rock garden or herbaceous border. The flowers are the most brilliant orange-yellow. If sown in the Summer and the seedlings planted out in Autumn it will give a fine display all through the Spring. It may also be sown in Spring to flower late Summer and Autumn. Height 1ft. per pkt. 6d.
- LINIFOLIUM.** Produces a continuous succession of flowers of a bright, clear mauve, resembling somewhat in size, shape and colour those of Aubrietia Graeca. As a showy biennial to give a mass of bloom, about the beginning of late Spring and onwards it should be exceedingly useful in every garden. It is also charming in the rock garden, on walls, or against the face of a rock. A.M., R.H.S. Height 1ft. per pkt. 6d.

CELSIA.

- ARCTURUS (new).** A very decorative plant with flowers of a soft shade of yellow to which the red anthers form a delightful contrast. Easily raised from seed. The seedlings flower in five months from sowing and give a long season of bloom. Height 18in. per pkt. 1/-

CENTRANTHUS.

MACROSIPHON. A very attractive hardy annual, producing large heads of bright red flowers. Does well in a dry position or on poor soil. Height 1½ ft. per pkt. 6d.

CEPHALARIA.

ALPINA (new). A handsome border perennial with stout branching stems, bearing many large, well shaped pale yellow flowers, resembling a Scabious. Invaluable for cutting. 5ft. per pkt. 1/-

CICHORIUM.

INTYBUS ROSEA (new). A strong growing perennial with attractive foliage and a profusion of beautiful rose-coloured flowers. Blooms all Summer. A.M., R.H.S. per pkt. 1/-

CINERARIA.

CREMER'S PRIZE STRAIN (new). Raised by F. E. Cremer, Hanover, Pa., U.S.A. This is a splendid variety for pot work, as the petals are wide, numerous, and overlap well to form attractive heads. These are of multiflora type and the flowers are medium in size, with a wonderful selection of bright colours. Its habit of growth is ideal, and they make shapely specimens covered with masses of bloom per pkt. 1/-

MONSTROSA (new). This strain, which we introduced last season, is the largest of all existing Cinerarias. The plants are of sturdy habit and compact growth, the large, dense trusses of flower rising from the deep green foliage are in all the well-known shades with crimson and blue outstanding, but the individual blooms range from 5 to 6 inches across, making a gorgeous display in the garden. A particularly fine variety also for pots. This fine strain of Cinerarias was the subject in a picture of still life recently exhibited by a well known artist per pkt. 1/6

POTSDAM STRAIN (new). A little taller than Cremer's Prize, and has a wonderful colour range. Some say it is the materialisation of the florists' dream. It is of the multiflora type, and is excellent for competition. The colours are extra brilliant sky blue, dark blue, light blue, crimson, carmine, pink and rose, and many others per pkt. 1/6

SEMI-DWARF MIXED. We recommend our strain as the finest in cultivation; the plants are of beautiful habit and compact growth; the flowers of the finest form and splendid substance, embracing a great variety of showy, distinct, and attractive colours per pkt. 1/-

DOUBLE-FLOWERED, SUPERB MIXED. Flowers exquisitely double, colours very rich; when cut they last much longer than the singles per pkt. 1/6

CINERARIA (Foliage Variety).

MARITIMA DIAMOND. A much improved form superior to the old Candidissima. The broad foliage is snow white and very handsome. Half-hardy perennial, height 2ft. per pkt. 1/-

CLARKIA.

Popular hardy annuals of easy cultivation in any ordinary soil. They are very free flowering, and exceedingly showy when grown in beds or masses. Most useful for cutting. The flowers last well in water. Their average height is about 2 feet. The plants should be thinned out to 9 inches apart, they will then produce much finer flowers.

ALBATROSS. A new and very double pure white form of decidedly compact habit without the tendency to straggle which is a defect of some of the older varieties per pkt. 6d.

BRILLIANT. Very bright carmine-rose, exceedingly attractive and free flowering per pkt. 6d.

CHIEFTAIN. Pure mauve of a pleasing and delicate shade, quite distinct from any other variety. Flowers large, perfectly double per pkt. 6d.

CRIMSON QUEEN. Flowers very double and of a rich crimson red, quite distinct from Ruby King and much brighter per pkt. 6d.

DOROTHY. Brilliant rose, colour of the well-known Dorothy Perkins rose per pkt. 6d.

CLARKIA (Continued).

ENCHANTRESS. The flowers are large in size than those of any other Clarkia, and of a most attractive salmon-pink colour. Of the utmost value for cutting and admirable for bedding per pkt. 6d.

FIREBRAND. A double variety of great brilliance. Flowers copper-scarlet, quite a new colour in these popular plants, most effective in the mass when grown in the open, also splendid for pots per pkt. 6d.

ILLUMINATION. Ground colour is orange, which mingled with rose and terra-cotta, gives a beautiful effect. The large flowers are very double and in sunlight seem lighted with almost unnatural fire and life per pkt. 6d.

ORANGE KING. Very bright orange-scarlet, considerably brighter than Vesuvius, and very free blooming per pkt. 6d. and 1/-

PURPLE PRINCE. Fine rich purple double flowers, exceedingly showy per pkt. 6d. and 1/-

QUEEN MARY. A lovely rose-carmine, very double and free flowering. An indispensable variety, either for pot culture or garden decoration per pkt. 6d.

ROSY MORN. Beautiful rose-pink, very double per pkt. 6d.

ELEGANS, DOUBLE MIXED. A fine selection of colours, height 2ft. per pkt. 6d.

MRS. LANGTREE. Broad petalled flowers of rose, margined white, 18in. high. This variety is quite distinct from Elegans type per pkt. 6d.

CLIANTHUS.

DAMPIERI (The Glory Pea of Australia). A beautiful perennial with silvery grey leaves and drooping clusters of large red flowers with a purple blotch at the base of the upper petal. Sow the seed in gentle bottom heat. Height 2ft. per pkt. 1/-

PUNICEUS (Parrot's Bill). A climbing plant of great beauty, attaining a height of 6 to 10 feet, flowering in Summer. It is hardy enough to stand ordinary Winters, and grows well if trained on a wall. Half-hardy climber per pkt. 1/-

CLEMATIS.

CHRYSOCOMA (new). A fine dwarf species of these showy plants from China, with flowers white tinged pink; grows to a height of 3 to 5ft. per pkt. 1/-

LARGE FL. HYBRIDS. A fine collection of these showy climbers per pkt. 1/6

COBAEA.

SCANDENS. The blue climbing Cathedral Bell. A perennial climber of very easy and rapid growth bearing large bell-shaped bluish-purple flowers in abundance per pkt. 6d.

ALBA. A white form of the above per pkt. 6d.

COCKSCOMB.

EMPRESS. Dark foliage. Dark crimson heads.

GLASGOW PRIZE. Bright crimson.

CHOICEST MIXED. Finest dwarf mixed. Many beautiful colours. 9in. per pkt. 6d.

COLLOMIA.

GRANDIFLORA (new). A new and very interesting species which is quite distinct. The plants reach a height of from 2 to 2½ ft., and have finely cut attractive foliage. The flowers are rich chamois and are scented with the most delightful honeysuckle perfume per pkt. 1/-

COLEUS.

Highly ornamental foliage greenhouse plants. Our seed is saved from the finest varieties in cultivation, and gives a range of colour of unequalled brilliancy. Care should be taken when selecting seedlings, as the weakest and slowest growing often make the showiest plants; though a biennial, good plants may be had in a very short time from seed.

FINEST NEW HYBRIDS, MIXED per pkt. 1/-

COLLINSIA.

Very free-flowering favourite hardy annuals, well worthy of extensive cultivation; if sown in Autumn will stand the Winter, flowering end of Spring. Height 1ft.

BICOLOR per pkt. 6d.

SALMON BEAUTY. A pure salmon rose tone which is most effective when seen in the mass. A very fine addition to this popular group of hardy annuals per pkt. 6d.

COMMELINA.

COELESTIS. A fine perennial border plant, producing an abundance of bright sky-blue flowers. It is tuberous rooted, and should be lifted and stored in Autumn like Dahlias. Hardy perennial, height 1½ft. per pkt. 6d.

CONVOLVULUS.

CHOICEST MIXED. Very pretty climbers in many beautiful colours. Has few superiors for covering fences, trellises and verandahs . . per pkt. 3d.

MAURITANICUS. A trailing plant of great beauty for the rock garden. It also makes a useful plant for hanging baskets in a cool greenhouse, when its cascades of pale azure blue flowers will form an attractive feature for several months. Hardy perennial, trailer per pkt. 6d.

SETOSA (new). A rapid growing climber from Brazil with large clusters of rose-pink flowers. A most useful climber for covering unsightly objects per pkt. 1/-

CLARK'S MAMMOTH (new). An early flowering strain of "Morning Glory," which makes a sparse growth of foliage, and is extremely popular in the United States. A beautiful bright blue colour. When growing Ipomeas, particularly blue varieties, care should be taken to plant them in a dry, sandy position, and remember that fertiliser should never be applied or they run only to leaf. Hardy climber per pkt. 6d.

COSMOS.

NEW GIANT HYBRIDS. The flowers are much larger than the old type, more freely produced and earlier. The colours comprise crimson, deep rose, pale rose, blush, and white . . per pkt. 6d.

FAIRY QUEEN. A compact and free flowering variety. The sturdy bushy plants seldom exceed a height of 2½ feet, and are gay with large flowers of a bright carmine rose, and continue throughout the summer per pkt. 6d.

LADY LENNOX. An attractive variety with large flowers, 6 to 8 inches across, of a beautiful shell pink per pkt. 3d.

ORANGE FLARE (new). Grand Champion Gold Medal Winner, 1935. All American selections. The new bright vivid orange flowers are borne on long, wiry stems on very free flowering plants that grow three feet tall, with a sparse growth of light green fern-like foliage. The most valued and distinctive feature is its early blooming habit. It may be had in flower in less than four months from the time of sowing. Its long blooming season affords a wealth of excellent flowers for cutting as well as a rich colour display of great decorative value for the garden . . . per pkt. 6d.

SENSATION PINKIE (novelty). The Sensation type of Cosmos is to-day the favourite for cut flower use. Pinkie is a delightful rose-pink shade. The flowers are produced from 8 to 10 weeks from the time seed is sown. The large flowers (4 to 5 inches) are carried on long, strong stems and are freely produced on plants which reach a height of 3 to 4 feet, and have a fairly heavy growth of foliage per pkt. 6d.

SENSATION PURITY (novelty). A companion to the above, but the flowers are a glistening, pure white, with overlap, making a fine flower (4 to 5 inches) for cut flower use . . . per pkt. 6d.

SENSATION (novelty). A most outstanding new Cosmos. The flowers are of immense size, 4 to 5 inches in diameter, with broad, heavily fluted petals, on very long, strong stems. Very early—flowering within ten weeks of sowing. Height 4ft. While the flowers are unusually large at all times, plants may be disbudded for even larger flowers for the cut flower trade. Shades of rose, pink and white in mixture per pkt. 6d.

COSMOS (Continued).

DOUBLE PINK BEAUTY. Produces a large proportion of double flowers, and true to colour, but even the singles are most attractive . . per pkt. 6d.

DOUBLE MIXED. Early flowering, fine for cutting. A mixture of rose, pink, crimson and white shades per pkt. 6d.

CORNFLOWER.

DOUBLE BLUE. A very fine selection of this favourite Cornflower so much prized for cutting per pkt. 3d.

DOUBLE MAUVE QUEEN. A very pleasing shade of mauve, attractive per pkt. 3d.

DOUBLE ROSE. An exceedingly attractive variety, flowers deep rose, fine for cutting . . per pkt. 3d.

DOUBLE MIXED. Producing double and semi-double flowers per pkt. 3d.

MINIATA (new). An exceedingly attractive variety of Cornflower with fine double flowers of brick red. Splendid for cutting . . . per pkt. 6d.

JUBILEE GEM (new). A.M. Rich deep blue flowers on bushy plants. 12 inches in height per pkt. 6d.

COREOPSIS.

SUNBURST. Double perennial, brilliant golden yellow flowers on long strong stems. Very beautiful per pkt. 1/-

GRANDIFLORA. Single. Perennial. Golden yellow, fine for cutting per pkt. 6d.

LANCEOLATA. Single. Perennial. Narrow leaved type, golden yellow flowers per pkt. 6d.

SUPERBA. Single. Perennial. Brilliant golden yellow, crimson zone. Very attractive . . per pkt. 6d.

COSMIDIUM.

ORANGE CROWN. A fine hardy annual with flowers on long stems, deep golden yellow, with deep orange centre. Said to be a cross between a Coreopsis and a Cosmos. Fine for cutting. Height 2ft. per pkt. 6d.

COTULA.

BARBATA (new). An interesting South African annual. An abundance of small globular golden yellow flowers are borne on plants which are not more than 6 inches in height. Fine for rockery or border work per pkt. 1/-

CYCLAMEN.

SCARLET BEAUTY (new). A distinct Cyclamen with large scarlet flowers which are thrown up, above the leaves, on long stems, and make a dazzling display. Hardy bulbs. Scarce per pkt. 1/6

SWEET MEMORIES (new). The first sweet-scented Cyclamens from the nurseries of Stuart Low & Co., of Bush Hill Park, England. These beautiful flowers have a lovely scent which quite fills a room if a plant in flower is left therein. A splendid pot plant. Mixed colours . . . per pkt. 1/6

NEW ART SHADES. A splendid strain of these showy Winter flowering pot plants, and one we can highly recommend. All colours . . per pkt. 1/6

BUTTERFLY. A striking variety which shows a series of quite new colours; the flowers are borne on long stalks, the petals being finely curled and gracefully waved per pkt. 1/6

CHERRY RIPE. A beautiful and attractive colour, almost scarlet. Very free flowering per pkt. 1/- and 1/6

GIANT WHITE WONDER. The largest and most free flowering white variety. The broad petals measure from three to four inches and are of great substance. A.M., R.H.S. . . per pkt. 1/6

MAUVE QUEEN. A beautiful shade of pure mauve quite a new colour in Cyclamen, very free flowering, good stout stems per pkt. 1/6

PINK PEARL. A lovely shade of pale salmon; plants of good habit, one of the best . . per pkt. 1/6

MRS. BUCKSTON. A most exquisite, frilled salmon, good habit, and foliage beautifully marked per pkt. 1/6

VULCAN. The deepest crimson variety, colour very rich, makes, a fine contrast with the lighter shades per pkt. 1/6

CYNOGLOSSUM.

AMABLE. A Chinese species which does well in the open border. Its freedom of growth in almost any soil, and its masses of bright blue flowers, resembling *Anchusa Dropmore*, have made it one of the most popular plants. Although a biennial, it is usually treated as a half-hardy annual. Seeds sown in early Spring flower freely and make a wonderful display during Summer. Hardy biennial, height 2ft. per pkt. 6d.

• **NERVOSUM.** Deep blue, free flowering, very attractive. Hardy perennial, height 2ft. . per pkt. 6d.

DAFFODIL.

RED CUP MIXTURE (new). A splendid mixture, composed of a leading specialist's showy red-cupped varieties of *Incomparabilis* and *Barri* varieties. Every Daffodil enthusiast should sow a few seeds yearly, as results entirely unexpected may come your way, for there is always the chance to "find" a new Daffodil of merit
per pkt. 2/6

PRIZE MIXTURE (new). This is a specialist's fine mixture of yellow bi-color and white trumpets, *Incomparabilis*, *Barri*, *Leedsii*, *Campanelle Jonquils*, and *Poet's Narcissi*, including also many fine unnamed new varieties per pkt. 1/6

POETICUS MIXED (new). A fine strain of *Poet's Narcissi* saved from a famous English Collection of named varieties per pkt. 1/-

BULBOCODIUM CONSPICUOUS (new). The glorious yellow Hoop Petticoat Daffodil with unique flaring blossoms per pkt. 6d.

BULBOCODIUM CITRINUS (new). A sulphur-yellow form of the above Hoop Petticoat Daffodil
per pkt. 6d.

DAHLIA.

These old favourites are so well known as to require no description. We would only say that the seeds we offer have been saved from magnificent collections, and will produce very fine results.

COLLARETTE. Flowers single, in good colours, with a central collarette of another shade. For cut flower purposes this type is superior to ordinary singles, lasting nearly double the time in water. Sown in Spring and treat afterwards as Dahlias raised from cuttings. A large percentage comes true from seed per pkt. 1/-

COLTNESS HYBRIDS IMPROVED. A very fine re-selection of this favourite type. The habit of the plant is also improved, being dwarfer and more compact per pkt. 1/-

COLTNESS GEM SCARLET. Too well known to need description. Comes fairly true from seed
per pkt. 1/-

COLTNESS YELLOW. This variety is of a good clear yellow colour, coming 70 to 80 per cent. true from seed. The habit is the same as the well-known scarlet variety to which it makes an excellent companion per pkt. 1/-

DOUBLE DECORATIVE CHOICE MIXED. This is now a very popular type with very large double flowers, carried on stout, erect stems. When well grown, they make a most attractive effect in the garden. The flowers stand well when cut
per pkt. 6d., 1/- and 1/6

DOUBLE POMPONE. This is saved from the best named varieties, and the plants come remarkably true from seed per pkt. 1/-

PAEONY FLOWERED. Large double and semi-double flowers, very freely produced, effective for border decoration and cutting . . per pkt. 1/-

UNWIN'S DWARF HYBRIDS. These combine the dwarf habit of the *Coltness* type with the dainty semi-double form and wide range of exquisite colours of the *Charm Dahlias*. They may be planted 18 to 20 inches apart, and average between 18 and 24 inches in height, requiring no stakes. They are as easy to raise from seeds as *Asters* or *Stocks* per pkt. 1/-

UNWIN'S IDEAL BEDDING (new). A splendid strain of brightly mixed free flowering Dahlias with partially curled petals. These Dahlias bloom within 3½ months of the time of sowing, and provide a wealth of cutting material for florists
per pkt. 6d.

DAHLIA (Continued).

UNWIN'S CHARM (new). We can highly recommend this strain of Dahlias to the cut flower grower. Beds of these Dahlias were greatly admired in our trial garden last Autumn. The colours range from the palest lemon through yellow, all shades of pink, salmon, crimsons, cerise, etc., all with long stiff wiry stems. The plants flower from Summer through Autumn and right on to Winter. To prolong the flowering season it is essential to cut off all seed pods. The easiest of all flowers to raise from seed. When planting out space plants 2ft. apart per pkt. 1/-

MOORLAND QUEEN (novelty). An outstanding novelty from the home of one of the world's best Dahlia-raisers. The well-shaped double flowers in various colours amidst the dark glossy black foliage, creates a most wonderful effect. The plants grow about 18 inches high and are of compact growing habit. This is one of the finest strains for bedding, and one we can highly recommend. Seed sown in Spring will produce plants which will blossom from March until frosts per pkt. 1/-

DATURA.

WRIGHTII. A fine plant for bedding, large light violet trumpet-shaped flowers, sweet-scented. Foliage bluish-green, stems dark purple. May also be used for pots. Height 3ft. . per pkt. 6d.

DELPHINIUM.

CHOICE MIXED per pkt. 6d. and 1/-
These most attractive and easily grown perennials should have a place in every border of hardy plants. When in bloom their tall handsome spikes make a great display, and are very useful for cutting. The colours range from pale silvery blue through all shades to deep gentian blue. The seed we offer has been saved from all the very best new varieties. Sown in boxes or in the open ground in prepared soil. Height 4 to 6 feet.

BELLADONNA IMPROVED. One of the very best hardy perennials. The flowers are rich sky-blue in colour and the plants give a succession of bloom for months; excellent for cutting. Hardy perennial, height 3ft. per pkt. 1/-

CARDINALE. A fine border plant of branching habit, bearing bright scarlet flowers in summer. Hardy perennial, height 2½ft. . . per pkt. 1/-

ELATUM ICEBERG. This is the first white Delphinium which comes true from seed. The long spikes are thickly covered with pure white blooms and the plants are of strong, sturdy growth. In the second year when fully developed, it forms a fine contrast to the dark and pale blue varieties. Hardy perennial, height 4ft. per pkt. 1/-

FORMOSUM. Bright deep blue, fine border plant, good for cutting, height 3ft. per pkt. 1/-

HOLLYHOCK. A distinctive type with tapering and spire-like spikes of great length, which together with the large size of the flowers, creates a resemblance to the Hollyhock. The colours are very rich and varied. The flowering period is of long duration, many varieties bloom well into August. Hardy perennial, height 5 to 6ft.
per pkt. 1/-

NUDICAULE. A very fine species, bearing numerous orange-scarlet flowers, a splendid border plant, height 1½ft. per pkt. 1/-

LEMON GEM. A clear yellow self which makes an excellent companion to the old scarlet type, height 1½ft. per pkt. 1/-

AZURE FAIRY. This resembles *Blue Butterfly* in every way, but the colour is a lovely clear Cambridge blue; makes an excellent pot or border plant. Height 1ft. per pkt. 6d.

BLUE BUTTERFLY IMPROVED. A greatly improved form of this lovely annual; with much larger flowers of brighter colour and a better habit of plant than the original type, height 1ft. per pkt. 6d.

SULPHUREUM. A new variety from *Abysinnia* with long racemes of brilliant pure yellow. Very showy, but seed of slow germination per pkt. 1/6

DWARF APRICOT (new). Dwarf species from California. A distinct break, flowers beautiful apricot. Height 1½ft. Hardy perennial per pkt. 1/-

DELPHINIUM (Continued).

TATSIENSE (new). In this species is found a plant clothed in deep green leaves of characteristic shape which sends up 12 to 18-inch stems carrying a number of deep, velvety blue flowers. Here in Australia it blooms from December to March provided seed is not allowed to form, and if the plant does not suffer from lack of moisture. Dwarf branching habit. A plant you will like
per pkt. 1/-

PANICULATUM (new). A charming new annual Delphinium that forms freely branching plants from 2ft. in height, bearing a profusion of small violet-blue flowers. The finely divided graceful foliage makes an excellent foil for the dainty flower spikes. Ideal for cutting .. per pkt. 1/-

DIANTHUS.

Very beautiful half-hardy biennial border plants, which if sown early, flower the same season. They make a fine display, their large blooms being highly effective in borders or for cut blooms.

HEDDEWIGII FIREBALL. Plants form thickly branching bushes, resplendent with shining fiery red double flowers, of great effect, excellent for cutting, height 1ft. per pkt. 6d.

HEDDEWIGII SUPERBISSIMUS. Flowers very large, in many fine colours, with crested surface to petals, and white throated, most attractive, height 1ft. per pkt. 6d.

HEDDEWIGII SINGLE MIXED. One of the best of the group; flowers of large size and varying in colour from pure white to deep crimson, while many are beautifully laced or striped, height 1ft. A.M., R.H.S. per pkt. 6d.

HEDDEWIGII DOUBLE MIXED. A fine mixture in many brilliant colours, height 1ft. per pkt. 6d.

LACINIATUS SINGLE MIXED. Beautifully fringed flowers in a great variety of charming colours. As cut flowers for small vases they are of much value, height 1ft. per pkt. 6d.

PINK BEAUTY. A beautiful double pink, very fine per pkt. 6d.

SALMON QUEEN. A distinct shade of brilliant salmon changing to salmon-rose, flowers beautifully formed and fringed, plants of good habit, and very free flowering, height 10 to 12 inches
per pkt. 6d.

LOVELINESS. This new Dianthus, a hybrid from Dianthus Wimmerii, will create a sensation amongst flower lovers everywhere. The flowers have large lacerated petals of a most exquisite mauve tint, but most fascinating of all is its glorious scent—the most alluringly perfumed flower we know. For its scent alone millions will grow it per pkt. 1/6

DELTOIDES. A bright red compact growing Dianthus which is a most valuable plant for rockeries, stone walls, stone pavements, etc. Seed sown in Autumn will flower the same year .. per pkt. 1/-

CRIMSON BEDDER (new). Extremely pretty variety for beds and clumps. Brilliant crimson, both double and single flowers. Long period of bloom. Height 9 inches to 1 foot . per pkt. 1/-

GRANITICUS. A good rock garden species of neat branching dwarf habit with bright crimson carmine flowers .. per pkt. 6d.

LATIFOLIUS (new). A very strong growing variety with attractive bright crimson flowers. Intensely double .. per pkt. 6d.

SOUVENIR DE LA MALMAISON (new). Intensely double, large flowered variety. The colours include light rose and many unusual art shades
per pkt. 6d.

NEW BLUE (new). A most delightful Dianthus, found in the mountains of Japan. The colour is a bright lavender blue, with foliage of deep green and the flowers are in trusses about 9 inches high. Flowers in January, February, March. Hardy perennial. Introduced by the famous firm of Carnation growers, Allwood Bros. per pkt. 2/6

KNAPPI (new). The flowers of this Dianthus are a pleasing shade of clear lemon and are borne in terminal clusters on many spreading stems, over a period of two months. Fine for rockery. It is known as the Yellow Pink. It grows to a height of 18 inches, and is fully hardy. Rare
per pkt. 1/6

DIDISCUS.

COERULEUS (The Blue Lace Flower). A very pretty half-hardy annual. The plants attain a height of 2 to 3 feet and have graceful subdivided foliage. The lovely umbel-shaped flowers which are composed of a number of small florets, range from 2 to 3 inches across. The colour is a clear Coerulean blue and very beautiful. Give it a sunny position and a soil free from excessive moisture ... per pkt. 6d.

DIERAMA (The Wand Flower).

PULCHERRIMA (*Sparaxis pulcherrima*). A most beautiful hardy bulbous plant with wiry stems 4 to 5 feet high, bearing long panicles of drooping, bell-shaped, red flowers, which sway gracefully in the breeze. Easily raised from seed. As it is somewhat difficult to transplant it may be sown where it is intended to flower, thinning out the seedlings later on. Hardy perennial
per pkt. 6d.

DIMORPHOTHECA.**(Namaqualand Daisy.)**

A fine group of hardy annuals of which seeds may be sown in the open in a position exposed to full sun if possible.

AURANTIACA. Flowers glossy rich salmon-orange, the brilliant colouring is rendered the more conspicuous by the dark coloured disc surrounded by a black zone. Plants of neat branching habit, about 12 to 15 inches high, and extremely free flowering. Hardy annual, A.M., R.H.S.
per pkt. 6d.

AURANTIACA, NEW HYBRIDS. These resemble the foregoing in habit and size of flower, but range in colour from pure white through all shades of cream to bright golden yellow, light orange, and deep salmon shades. Hardy annual. Height 1ft. per pkt. 6d.

SALMON BEAUTY. Flowers of a lovely salmon-pink colour. It makes a wonderful display throughout the Summer and Autumn, one of the best of the group. Hardy annual, height 1ft.
per pkt. 6d.

DORONICUM.

GOLDEN BUNCH (new). An excellent new perennial which produces a profusion of long stemmed innumerable flowers of a brilliant canary yellow, like golden Gerberas. It makes large bunches of flower stalks from 24 to 32 inches high and is ideal for cut flowers, general decorative purposes, and perennial borders. Will thrive anywhere
per pkt. 1/6

DOLICHOS.

Quick growing climber, ten to fifteen feet high. Sow outdoors.

DAYLIGHT. Heart-shaped foliage, with clusters of white, pea-shaped blossoms, followed by ornamental seed pods ... per pkt. 6d.

DARKNESS. Similar to preceding, but colour is a rich purple-violet ... per pkt. 6d.

ECHIUM.

BLUE BEDDER. Sutton's new compact form, growing 12 to 15 inches high with deeper blue flowers than the original. Most useful for bedding and the flower border ... per pkt. 1/-

ECCREMOCARPUS.

SCABER. An attractive half-hardy perennial climber with racemes of orange-scarlet flowers. Very useful for covering trellis work, etc. Flowers the first season from seed if sown early per pkt. 6d.

ERIGERON.

AURANTIACUS (The Orange Daisy). An attractive summer flowering hardy perennial which forms close tufts of dark green foliage, flowers brilliant orange to orange-yellow, useful border and rock plant, height 6 inches .. per pkt. 1/-

ERIGERON (Continued).

DOUBLE AZURE BEAUTY. This was selected from Merstham Glory which is semi-double. Although Azure Beauty varies in form a little from seed, the average duplication is more intense than its parent. The plant attains a height of about 2½ feet and is so floriferous that it literally covers itself with flowers. It is an ideal plant for the herbaceous border, and an attractive cut flower. Hardy perennial per pkt. 1/-

ERYNGIUM.

ALPINUM (new). A beautiful hardy perennial border plant, with large, soft lavender-blue heads and glistening metallic-blue stems and bracts. In addition to its value for border decoration, it is much valued for house decoration, especially during the Winter months. For this purpose, the stems should be cut when at their best, hung upside down and slowly dried, after which they will last for an indefinite period. Height 2½ ft. per pkt. 1/-

ERYSIMUM.

LINIFOLIUM (Cheiranthus linifolius) (The Mauve Alpine Wallflower). Produces a continuous succulent succession of flowers of a bright, clear mauve, resembling somewhat in size, shape and colour those of *Aubrietia Groeca*. As a showy biennial to give a mass of bloom, from beginning of June and onwards it is exceedingly useful. It is also charming in the rock garden, on walls, or against the face of a rock. A.M., R.H.S. Height 1 ft. per pkt. 6d.

RUPESTRE (Pulchellum). (The Fairy Wallflower). A lovely Alpine plant producing pale yellow flowers abundantly in early Spring, likes a sunny position in the rock garden or old wall. Hardy perennial, height 6 in. per pkt. 6d.

RUPESTRE AURANTIACUM. A new variety of the Fairy Wallflower, colour bright orange and very striking. A fine rock plant. Hardy perennial, height 6 in. per pkt. 6d.

ESCHSCHOLTZIA. (California Poppy.)

Showy free flowering hardy annuals, suitable for beds, rockeries, etc. Within recent years many fine varieties have been added to the group which has now become exceedingly popular. Height 1 foot (except where otherwise stated).

CARMINE KING. Carmine-rose, most effective colour per pkt. 6d.

GOLDEN WEST. Yellow with orange centre per pkt. 6d.

MANDARIN. Deep orange-crimson, outside of petals bronzy-red per pkt. 3d. and 6d.

MIKADO. Bright orange-crimson, flowers large. This bright shade produces a most telling effect. A.M., R.H.S. per pkt. 6d.

MONARCH ART SHADES. This novelty is the result of many years of selection. Each flower is large, semi-double, and of beautiful form. The colours range through light rose to deep rose and carmine, and from deep golden yellow through all the varying tones to orange and scarlet. Their beauty is enhanced by an almost metallic sheen which gives a very brilliant effect. The plants are compact with neat feathered foliage per pkt. 1/-

ORANGE KING. A lovely variety, flowers large, rich deep orange in colour, glaucous foliage, very showy and handsome per pkt. 6d.

ROBERT GARDINER. Double flowers, vivid orange with fluted petals. One of the most distinct per pkt. 6d.

TREADOR. Golden bronze with rich orange crimson reverse of great intensity and brilliance. The flowers are semi-double, the petals loosely and artistically arranged. A.M., R.H.S. per pkt. 6d.

CROCEA DOUBLE. Very fine double orange-coloured flowers, almost like a Marechal Niel Rose; lovely per pkt. 6d.

DAINTY QUEEN. A distinct type of compact habit and upright growth with lovely pale rose flowers per pkt. 6d.

ENCHANTRESS. The outside of petals is soft rosy carmine, on the inside of a lighter tone, heavily suffused with cream. The flowers are double and of lovely form. It is very robust, and floriferous. A.M., R.H.S. per pkt. 6d.

ESCHSCHOLTZIA (Continued).

FIREFLAME. Habit erect and compact, flowers vivid orange-scarlet, showing to great advantage against the silvery foliage. One of the very best varieties. Highly Commended R.H.S., height 1½ feet per pkt. 6d.

CHOICE MIXED. Including many new and lovely colours per pkt. 6d.

EXACUM.

DEEP LILAC (novelty). A greenhouse plant with great possibilities, excellent for basket work, and may be used in pots like a *Primula* or a *Begonia*. Its numerous dark lilac flowers, measuring over half an inch across, have bright golden yellow stamens and a very delicate fragrance. Two plants should be planted together in one pot for best results per pkt. 1/6

EUCHARIDIUM.

BREWERI. A very fine hardy annual; elegant flowers of a beautiful light rose, sweetly scented. Charming for borders, edging, or rock work, height inches per pkt. 6d.

EUPATORIUM.

FRASERII (new). Strong growing border plants suitable for cutting, having pure white *Ageratum*-like flowers in dense heads. Any ordinary garden soil suits them. Does well in shade. Height 2 ft. per pkt. 6d.

EUPHORBIA.

HETROPHYLLA (new). The Mexican Fire Plant. A strong growing annual resembling in habit and colour the beautiful *Poinsettia*. About mid Summer the centre top leaves of each branch turn orange-scarlet per pkt. 6d.

VARIEGATA (new). Remarkably distinct plant, whose flowers are inconspicuous, but the foliage is exceedingly ornamental and showy, being edged white and green. Splendid for cutting and decoration. Known as "Snow on the Mountain." Height 2 ft. per pkt. 6d.

EUTOCA.

VISCIDA, MUSGRAVE STRAIN. The colour intense and bright deep blue, the general effect being enhanced by the white eye, which displaces the speckled rose markings of the older variety. The flowers are twice the size of the *Viscida*; the plant is taller, reaching a height of 2 feet, branching freely, and making a colourful display per pkt. 6d.

EUCALYPTUS (Flowering).

FICIFOLIA. The scarlet flowering Gum of Western Australia per pkt. 1/-

CAESIA. A really beautiful pink Gum. Flowers almost throughout the year per pkt. 1/-

STRICKLANDI. Intense golden yellow flowers per pkt. 1/-

TORQUATA. Deep salmon. Flowers even when young. Fine for decoration per pkt. 1/-

FELICIA (Kingfisher Daisy).

BERGERIANA (syn. Aster Bergerianus). A charming dwarf half-hardy annual, not more than six inches in height, the foliage making neat mats, almost turf-like, on the ground, and the flowers rise four inches above. The flower suggests a small *Agathaea coelestis*, but a far more beautiful blue. Sow indoors in boxes, and transfer the seedlings to the open at usual bedding-out season. It is a beautiful little plant, well worth growing; likes a position in full sun per pkt. 6d.

ROTUNDIFOLIA. Larger flowered than the preceding. Bears clear sky-blue flowers during Summer and Autumn till cut down by frost. Half-hardy annual. Height 6 in. per pkt. 6d.

ADFINIS (new). This is perhaps the most colourful of the *Felicias*. A charming variety bearing rich clear blue flowers with bright yellow centres. Excellent for pots and bedding per pkt. 1/-

FERNS.

Should be sown carefully in a gentle heat as soon as received.

CHOICE GREENHOUSE VARIETIES . per pkt. 1/-

CHOICE HARDY VARIETIES per pkt. 1/-

FOXGLOVE.

Among the popular herbaceous perennials, the stately Foxglove is unsurpassed. They are seen to best advantage in the back of the perennial border.

GIANT SHIRLEY. A new strain of giant Foxgloves raised by the late Rev. W. Wilks. They attain a height of five to seven feet, with spikes three to four feet long, carrying flowers of giant size, ranging in colour from white to dark rose and handsomely blotched and spotted maroon and chocolate. Mixed colours per pkt. 6d.

MONSTROSA. Spike is surmounted by a very large bell-shaped flower of the same colouring as the rest of the plant per pkt. 6d.

GLOXINOIDES. Flowers have spotted throats resembling Gloxinias. A greatly improved strain per pkt. 6d.

LUTZ HYBRID. Quite a new type. Golden salmon flowers with red spots. Long spikes. Height 2ft. . . . per pkt. 6d.

FREESIA.

REFRACTA ALBA. A well known bulbous plant, with beautiful and sweetly scented flowers; very popular for decoration and cutting, height 15in. . . . per pkt. 6d.

HYBRIDS. Flowers in different shades of pink, rose, purple, blue, violet, orange, sulphur-yellow, brown, etc.; often delicately spotted and veined. They can be grown and forced as easily as the white Freesias. The flowers when cut remain a long time fresh in water per pkt. 1/-

BRILLIANT (new). This fine variety has sweetly scented flowers of a good crimson shade. The stems are long and strong, making it good for cutting per pkt. 1/-

BUTTERCUP (new). Large flowers on long stems, colour deep yellow and strongly scented per pkt. 1/-

PRINCESS MARY (new). A fine Freesia for cutting, with long stems and large heads of bright red flowers. Special for florists per pkt. 1/-

PURITY (new). A pure white selection from Refracta Alba, which is not white at all. Long stems and sweetly scented per pkt. 1/-

RAGIONIERI. An Italian strain of great merit. Rich and varied colours, including many new shades. Sow in drills. Freesias may be flowered in six months of sowing, and provide a splendid source of cut flowers. The bulbs afterwards can be planted out again, or sold, thus showing a double profit. The seeds are as large as a radish seed, and can be handled very easily per oz. 5/-, per pkt. 6d.

FREMONTIA.

CALIFORNICA (new). A handsome ornamental semi-evergreen, Californian small tree, large cup-shaped rich golden-yellow flowers, freely produced during Summer. Thrives best on poor soil and in full sun per pkt. 1/-

FUCHSIA.

CHOICE MIXED. From a prize collection of named varieties per pkt. 1/6

GALEGA.

HARTLANDI. Lovely hardy herb perennial from Ireland, originating at the nurseries of W. P. Hartland & Sons, Ard Cain, Ireland. A true bicolour Wistaria-like flower, perfectly hardy, splendid foliage. Height 4ft. . . . per pkt. 1/-

DWARF DOUBLE-ROSE (new). A very hardy herbaceous perennial plant, covered in the Summer with lilac-shaped rose-pink flowers, which are useful for cutting per pkt. 6d.

GAILLARDIA.

Gaillardias are amongst the best of hardy border plants, they have large showy flowers of fine substance, and for cutting purposes cannot be too highly recommended; easily grown and may be flowered from seed the same season if sown early. *G. picta lorenziana* is a hardy annual.

GAILLARDIA (Continued).

PICTA LORENZIANA. Double flowers in various shades of red and yellow, a useful bedding plant. Half-hardy annual, height 1½ft. . . per pkt. 6d.

LADY GLORIA (new). A real treasure for the florist, this new Gaillardia is a robust grower and very free flowerer. It has long stems and the flowers are bright golden yellow self-coloured per pkt. 1/-

BURGUNDY (new). A companion strain to the above, with all its good qualities, but the flowers are self-coloured coppery scarlet. Splendid for cutting per pkt. 6d.

LARGE FLOWERED HYBRIDS, CHOICE MIXED. Hardy perennials, comprising many beautiful colours, saved from the choicest varieties, height 2ft. . . . per pkt. 6d.

TANGERINE. Brilliant tangerine-orange, self coloured flowers of splendid effect for the border or cutting. Hardy perennial. Height 2½ft. . . . per pkt. 6d.

GAMOLEPIS.

TAGETES (new). A very good edging plant. It is very dwarf, early flowering, and bears bright orange flowers, in quantities per pkt. 1/-

GARDENIA.

FLORIDA. Dwarf flowering shrub of great beauty, giving a wealth of double sweet scented white blossoms which are extremely valuable for floral purposes. Grows well from seed. This variety is one of the quickest to bloom—even small plants in pots being quickly covered with blossom per pkt. 1/-

GAURA.

LINDHEIMERI. A very fine hardy herbaceous border perennial, producing long graceful spikes of rosy white flowers. It may also be treated as an annual; from seed sown in heat in early Spring, plants flower in July; good for cutting, makes a nice pot plant, height 2½ft. . . . per pkt. 3d. and 6d.

GAZANIA.

We are pleased to observe that this old, and at one time very popular plant is again being seen more frequently in gardens. It likes a position in full sun, where its lovely flowers never fail to attract the eye.

NEW HYBRIDS. A very fine mixture containing many attractive shades, pure white, pale yellow, rich orange, etc. They are beautiful either for pots or bedding. Half-hardy perennial. Height 9 inches per pkt. 1/-

GENTIANA.

ACAULIS. The lovely dark blue trumpet flowered variety so much admired. Will only grow in cool spots per pkt. 1/-

GERANIUM.

Our seeds of the Zonale and Tricolor have been saved from the finest named varieties.

ZONALE, CHOICE MIXED per pkt. 1/-

TRICOLOR, CHOICE MIXED per pkt. 1/6

GERBERA.**(The Barberton Daisy.)**

NEW HYBRIDS. These distinct and beautiful hybrids embrace the most exquisite and delicate shades of yellow, rose, cherry red, salmon, terracotta, to crimson and white. The plants are most graceful and of easy cultivation in a cool greenhouse, excellent for cutting or table decoration. Greenhouse perennial, height 1½ft. . . per pkt. 1/-

GEUM.

BORISII. A hybrid of neat and compact growth; produces large well formed flowers of a vivid orange scarlet on branching stems in great profusion till late Autumn. One of the finest of this showy family; equally good in the herbaceous border or the rock garden. Hardy perennial, height 1ft. . . . per pkt. 1/-

GEUM (Continued).

- LADY STRATHEDEN.** Rich golden yellow, a counterpart in all other respects of the popular scarlet variety, Mrs. Bradshaw. Hardy perennial, height 1½ ft. per pkt. 6d.
- MRS. BRADSHAW.** A hardy border plant of the greatest merit. The intensely bright scarlet flowers are borne on strong stems, and measure 2½ to 3 inches across. They are nearly double with large waved petals of great substance, and retain their colour in the most brilliant sunshine; of special value for cut bloom. Hardy perennial, height 1½ ft. per pkt. 6d.

GILIA.

- CAPITATA (Queen Anne's Thimble).** An old but nevertheless very fine variety with fern-like foliage and dense heads (thimble-shaped) of azure blue flowers on thin wiry stems. Lovely for clumps and most attractive as a cut flower with its own foliage. Hardy annual, height 2ft. per pkt. 6d.
- CORONOPIFOLIA.** Height 3 to 4ft. Half-hardy biennial. Better treated as a hardy annual. A handsome plant for bedding, with brilliant brick-scarlet flowers and fine feathery foliage similar to that of the Larkspur. A. of M. . . per pkt. 1/-

GLADIOLUS.

- GANDAVENSIS FINEST MIXED.** Saved from the best varieties in cultivation, hardy perennial, height 3ft. per pkt. 6d.
- PRIMULINUS HYBRIDS.** These are now becoming exceedingly popular, they flower early and have a wide range of colours per pkt. 6d.

GLAUCIUM (Horned Poppy).

- TRICOLOR.** A very brightly coloured horned Poppy, flowers large, fiery orange scarlet, beautiful. Hardy biennial, height 15in. per pkt. 6d.

**GLOBE AMARANTH.
(Gomphrena globosa.)**

- AN ANNUAL,** well worth growing for its purple everlasting flowers, which are very useful for decoration in Winter. Plants from seed will give an abundant bloom in Summer. Height 1ft. per pkt. 3d.

GLOXINIA.

Our strain of Gloxinia contains the most gorgeous and free flowering varieties. The plants are of perfect habit with handsome foliage. Flowers erect, of large size in a wonderful range of colours and markings.

- CHOICE MIXED** per pkt. 1/6

GODETIA.

One of the finest groups of hardy annuals. There is a wide range of colour in their beautiful flowers which are produced in the greatest abundance, and make a great show in the garden. For cut flower purposes they are excellent. To obtain the best results, seeds should be sown in the open ground. Thin out the seedlings 6 to 9 inches apart as soon as they are fit to handle. The tall varieties are fine subjects.

Tall Varieties

which produce their flowers in long graceful spikes. Height 2 to 3 feet.

- DOUBLE BEAUTY.** The ground colour is a pleasing tone of light violet, each petal being shaded bright rosy magenta from the base to the outer margin. The habit of the plant is good and extremely free flowering per pkt. 6d.
- DOUBLE CHERRY RED.** A delightful and very rich colour. A.M., R.H.S. per pkt. 6d.
- DOUBLE CRIMSON.** A beautiful variety similar in habit to Schamini Double Rose, bright crimson, very showy, height 2ft. per pkt. 6d.
- DOUBLE MAUVE.** Very delicate clear pinkish mauve, attractive colour per pkt. 6d.
- DOUBLE RICH PINK.** A fine bit of colour, the flowers, carried on long graceful stems, are bright glowing pink, height 2 to 3ft. A.M., R.H.S. per pkt. 6d.

GODETIA (Continued).

- DOUBLE SHELL PINK.** Very attractive shade per pkt. 6d.
- SCHAMINI DOUBLE ROSE.** One of the most effective for bedding or pot culture. The double flowers, of a lovely bright rose colour, are produced in long sprays which are of much value for cutting. Height 2½ ft. A.M., R.H.S. . . per pkt. 6d.
- SCHAMINI ROSY MORN.** A lovely coral pink, the flowers are very double and excellent for cutting. Height 2ft. per pkt. 6d.
- TALL MIXED** per pkt. 6d.

Dwarfer Varieties.

- Flowers borne in terminal heads. Height 9 to 18in.
- AZALEA FLOWERED.** Double flowers of brilliant rose shading to crimson; they bear a resemblance in form to the Azalea, hence the name; height 1ft. per pkt. 6d.
- AZALEA FLOWERED REMBRANDT.** Double flowers of a rich rose with large crimson blotch at the base of petals, exceedingly attractive. Plants dwarf and compact. Height 15in. . . per pkt. 6d.
- JUBILEE.** A new distinct colour in the dwarf section. This variety grows only to a height of 1 foot, but its flowers are borne in terminal heads on short but strong stems. Its flowers almost cover the plant, and are a distinct shade of bright blue—a colour quite unusual in these plants. It is quite hardy, and suitable for bedding, being planted about 6 inches apart per pkt. 6d.
- SILVER BLUE.** Another new colour in these showy plants. Growing to a height of 15 inches, the plants are covered with silvery blue flowers. Should mix well with Godetia "Sybil Sherwood," and form an admirable contrast . . per pkt. 6d.
- SWEETHEART.** The flowers are very large, fully double and of the brightest cream pink without any markings. The habit of the plant is dwarf and compact. A mass of it in flower produces a wonderful effect. As a pot plant it is also excellent. Height 1ft. per pkt. 6d.
- SYBIL SHERWOOD.** A novelty of outstanding merit which we recommend and with every confidence. The colour is somewhat difficult to describe, but it may be defined as a most glorious shade of salmon pink, blended with orange, which is softened by the delicate white border. The plant, which is of robust growth, about 20 inches in height, is equally suitable for borders or pots, and as a cut flower it is very lasting. It received the Award of Merit of the Royal Horticultural Society per pkt. 6d.
- AZALEA SHOW (new).** This is a magnificent formula mixture of double Azalea flowered Godetias. Plants are compact and bushy, 16 to 18in. high and flower in great profusion. Pink, white, mauve, carmine, bright crimson and crimson scarlet are mixed with bi-colours to form a gaily coloured carpet of silky flowers. The effect over large spaces as well as in small beds and borders is unbelievably impressive. Can be sown where it is to flower or can be transplanted. Godetias are easy to grow and will grow anywhere. These double Godetias are splendid for wreath work. 3/6 ¼ oz., per pkt. 6d.
- FLAME (new).** May be described as a deep red salmon form of "Sybil Sherwood." It is a striking colour, easy to grow and strongly recommended per pkt. 1/-

GYPSOPHILA.

Pretty, free-flowering plants, yielding an abundance of fine flowers on elegant stems.

- ELEGANS.** A beautiful hardy annual variety, with delicately beautiful sprays of white flowers. Every garden should have some of this variety as it is unexcelled for mixing with Sweet Peas and other flowers and for table decoration. 1 oz. 2/6, ¼ oz. 1/-, per pkt. 3d.
- ROSEA ELEGANS.** This lovely pink form of the annual Baby's Breath is very beautiful and combines well with the white variety . . per pkt. 3d.
- PACIFICA.** This new form of Baby's Breath is a dainty light pink of free blooming habit and perfectly hardy. It grows four feet high and its lovely sprays mix beautifully with any cut flowers per pkt. 1/-

GYPSOPHILA (Continued).

PANICULATA. This beautiful herbaceous perennial variety forms an interesting plant about three feet high, which looks like a cloud of mist in the border. It bears long panicles of white bloom which are splendid for cutting for mixing with other flowers $\frac{1}{2}$ oz. 1/-, per pkt. 6d.

PANICULATA FL. PL. This is a double flowering form of the perennial Baby's Breath. The pure white flowers are borne in elegant panicles, and are splendid for cutting, as they last a long time in water. A good percentage of the seed will give double flowering plants per pkt. 1/-

REPENS. A dwarf, creeping form which is one of the most delightful rockery subjects we have. Pure white. Hardy perennial. Six inches . . . per pkt. 6d.

OLDHAMIANA. A new variety from Japan. This hardy perennial is similar to *Paniculata*, but is more erect growing, with larger flowers, and continues in bloom until late in the Autumn, when flowers from *Paniculata* have long since been over. The light, graceful, airy flowers are tinted flesh and pink. Splendid for cut flowers. Seed very scarce. A.M., R.H.S. per pkt. 1/-

HELENIUM.

HOOPESII. Large bright yellow flowers. Height 2ft., yielding an enormous crop of flowers in late Summer. Very valuable indeed for cutting purposes. H. Per. per pkt. 6d.

HELICHRYSUM.

Hardy everlasting flowers, admirably adapted for Winter bouquets, should be cut before the blooms fully expand. Height 2ft.

DOUBLE FIREBALL, SCARLET per pkt. 6d.

DOUBLE ROSE per pkt. 6d.

DOUBLE SALMON PINK per pkt. 6d.

DOUBLE YELLOW per pkt. 6d.

DOUBLE MIXED per pkt. 6d.

HELIOPHILA.

LINEARIFOLIA. A charming hardy annual from South Africa with light and graceful racemes of clear blue flowers. It is very attractive in the open border when grown in a mass, and is also useful as a pot plant for the cool greenhouse, height 1ft. Award of Merit R.H.S. . . . per pkt. 6d.

LEPTOPHYLLA. More compact in habit than the foregoing, with larger flowers, which are quite half an inch across and bright blue in colour with a clear white eye. It is very floriferous. An excellent annual both for pots and border decoration. In the latter case allow 9 to 12 inches between each plant per pkt. 6d.

HELIOPSIS.

PITCHERIANA (new). Flowers of this variety are bright golden yellow, resembling an almost double *Zinnia*. Blooms profusely during Summer and Autumn, yielding lots of cut flowers over 2 inches across. Sometimes known as the hardy *Zinnia*. Height 3ft. per pkt. 1/-

ZINNIAFLORA (new). A new double flowering form, bearing *Zinnia*-like flowers of a brilliant golden yellow colour. The plants grow 3 to 4ft. high, and give a fine display in the garden, besides yielding ample material for cutting. Perfectly hardy and easy to grow per pkt. 6d.

HELIOTROPE.

These popular plants with their delightfully fragrant flowers are easily raised from seed. When grown in pots will bloom continuously throughout the Winter.

LOUISE DELAUX. A strong growing free flowering Cherry Pie with masses of pretty pink scented flowers. A good bedding plant and excellent for single specimens per pkt. 1/-

VIOLET QUEEN (new). Everyone likes the delightful fragrance and beauty of *Heliotrope*, but not everyone knows that Autumn flowering plants are produced from Spring-sown seed, and will continue to flower through the Winter. "Violet Queen" produces large trusses of deep violet, sweet-scented flowers. Fine also as pot plants. Height 18in. Easily raised from seed per pkt. 1/-

HELIOTROPE (Continued).

OLYMPIA (new). A sturdy dwarf plant growing not more than 2ft. and very compact. Large heads of delicately perfumed deep violet blue flowers per pkt. 1/-

KING OF THE BLACKS. Similar to above, with large heads of deepest purple, almost black. Fine for bedding. Height 2ft. All are Winter blooming per pkt. 1/-

TRIUMPH OF LIEGE. Similar in habit and growth to above, but has large heads of light lilac flowers. Sweet scented. Easily raised from seed per pkt. 1/-

WHITE LADY. A rare colour in *Heliotropes*. Large flowering, pure white. Fine for bouquets. Sweet scented. Hardy perennial. 2ft. per pkt. 1/-

HESPERIS.

DWARF MAUVE (new). One of the most beautiful of all hardy herbaceous perennials. It is a fine garden plant with long stems of very fragrant mauve blossoms, and is particularly fragrant in the evening, a feature few plants possess. Height 2ft. per pkt. 6d.

HEUCHERA.

Handsome hardy perennial plants of fine compact habit, with deep green foliage. The flowers are borne on elegant spikes, and can be used with fine effect in cut flower decorations. They are easily raised from seed and should be in every garden. Height 18 inches.

SANGUINEA RED PIMPERNEL. A charming variety bearing bright scarlet flowers. It comes fairly true from seed. Hardy perennial, height 2ft. per pkt. 6d.

CHOICE HYBRIDS. A splendid strain which embraces every shade from white to glowing crimson per pkt. 1/-

HELIANTHEMUM.**(Rock Rose or Sun Rose.)**

FINEST MIXED. Dwarf evergreen plants, which are charming in the rock garden in full sun, on walls, or for clothing dry sunny banks. Also useful for edging in the herbaceous border. The colours are very varied and remarkably brilliant. Hardy perennial, height 12 inches per pkt. 6d.

HELIANTHUS.

MAXIMILLIANI (new). A fine early perennial Sunflower growing to a height of three feet. Fine for cutting per pkt. 6d.

AUTUMN GLORY (new). This lovely perennial flowers in late Autumn, when all others are done. Its bright, showy single golden yellow flowers have black centres. Grows about 5 feet high. Can highly recommend this for cutting per pkt. 1/-

HOLLYHOCK.

CHOICE DOUBLE, MIXED. Saved from Chater's original strain. This has for long been one of the most popular garden flowers, the tall massive spikes forming bold and attractive features in borders or shrubberies per pkt. 1/-

EXQUISITE. Very large double flowers, measuring 4 to 5 inches across, with beautifully curled and fringed white-margined petals. The range of colour includes rose, light rose, carmine rose, violet and dark purple per pkt. 6d.

PALLING BELLE. Lovely pale pink, full double flowers, comes very true from seed. A distinct variety, well worth growing per pkt. 6d.

QUEEN OF SHEBA. The very double and finely formed flowers of this variety are of a beautiful primrose buff with rosy reflection, a lovely and most effective colouring per pkt. 1/-

BEGONIA FLOWERED (new). Quite original. Plants stand bold and erect, with enormous spikes of flowers, fully 5 to 6 inches across, consisting of wide outer petals, elegantly frilled and deeply fringed. In the centre of which appears a very double rosette about two inches across, the whole suggesting a crested Begonia. The mixed colours of this variety contain many combinations of colour and of many shades. Give soil sulphate of iron for Hollyhock rust, and cow manure for giant blooms per pkt. 1/-

HOLLYHOCK (Continued).

ALLEGHENY MAMMOTH. The finest strain of single Hollyhocks, very robust branching habit and enormous flowers with splendid rich colours

per pkt. 6d.

ANNUAL DOUBLE "SCARLET BEAUTY." A fully double Hollyhock which will flower within six months of sowing of seed. The colour is pure intense scarlet per pkt. 1/-

HEDYSARUM.

CORONARIUM. Very showy hardy perennial plants, flowers produced in axillary racemes, height 3ft. Rich reddish crimson flowers per pkt. 6d.

HELLEBORUS.

NIGER. Attractive evergreen foliage with masses of snow white flowers which sometimes turn green, sometimes known as the Christmas Rose

NEW HYBRIDS (new). The flowers of these new so-called Christmas Roses are wonderfully effective for make-up work. Fine range of new colours. For cutting in Winter when flowers are scarce will be much sought after. Plants increase with age. Hardy perennial per pkt. 1/-

HIBISCUS.

These greatly improved forms are perfectly hardy perennials growing 5 to 8 feet high. The colours are fine and clear and the individual blooms measure 10 to 12 inches across.

GIANT HYBRIDS (new). A new race of large-flowered perennial Hibiscus. The colours to be found in the mixtures are reds, pinks, white, blush and clear rose. They grow to a height of 4ft. and are excellent for borders. In addition to the above mixture we can supply seed of Giant Pink and Red separately per pkt. 1/-

HONESTY.

This plant is usually grown for the sake of its silvery seed pouches which are dried and used in Winter bouquets in combination with Helichrysum, Acaelinum, Xeranthemum, and other Everlastings.

MIXED COLOURS. Hardy biennial, easily grown, containing nice shades of white, pink and purple. Height 2ft. per pkt. 6d.

HUNNEMANNIA.

FUMARIAEFOLIA (Perennial Eschscholtzia or Mexican Poppy). Bright yellow flowers which contrast well with the glaucous foliage. It is exceedingly showy and continues in bloom for a long time. Although a half-hardy perennial it will, if sown early, flower abundantly the first season. Height 2ft. per pkt. 6d.

IBERIS.

JUCUNDA. A very fine hardy perennial of dwarf compact habit which forms a dense carpet of foliage over which the flower stems rise to a height of about 12 inches. The colour is bright salmon rose, passing to rosy white as the flower ages. A first rate plant for the front of the mixed border and excellent in the rock garden

per pkt. 1/-

TENOREANA. A very pretty species of Perennial Candytuft with large heads of delicate lilac bloom. Flowers continuously for months. Fine for cutting per pkt. 1/-

GIBRALTICA. Fine lilac Perennial Candytuft for rockeries and edging. Free flowering per pkt 6d.

SEMPERVIRENS. A pure white Perennial Candytuft. Splendid for rockeries, etc per pkt. 6d.

IMPATIENS.

HOLSTII HYBRIDS. Bright vermilion red. The flowers are produced with the utmost freedom. Very fine for pot culture in greenhouse, or for Summer bedding. Height 1½ft. per pkt. 1/-

SULTANI HYBRIDS. A fine strain in many shades of scarlet, rosy salmon, pink and white mixed per pkt. 1/-

INCARVILLEA.

DELAVAYI. Shrubby perennial. It forms many-branched bushes, and produces rich rosy carmine flowers which somewhat resemble the Gloxinia. Height 1½ft. per pkt. 6d.

GRANDIFLORA. A beautiful Chinese species, dwarfier than the preceding; large Gloxinia-like crimson flowers with white throats. A grand dwarf border plant, also good for rockery. Hardy perennial, height 1ft. per pkt. 1/-

INULA.

ROYLEANA. A fine Himalayan species with deep golden yellow flowers. One of the best hardy border perennials. Height 2ft. per pkt. 6d.

GOLDEN BEAUTY. An attractive plant for the herbaceous border, flowers golden yellow, about 3 inches across, on slender stems. Fine for cutting. Hardy perennial, height 1½ft. per pkt. 6d.

IONOPSIDIUM.

ACAULE (The Violet Cross). A lovely miniature hardy annual, forming dense tufts of foliage smothered in tiny pale lilac flowers; it thrives best in damp or shady situations, such as the foot of rockwork, on old shady walls, rock steps, etc. Height 2in. per pkt. 6d.

IPOMOEA.

AUREUS SUPERBUS. A strong climber of rapid growth with abundant flowers of golden yellow. Very distinct. Fine for covering fences and stumps per pkt. 6d.

COCCINEA. A climbing Convolvulus which should be treated as a half-hardy annual; most useful for covering trellises, etc. Flowers brilliant scarlet and very effective per pkt. 6d.

MEXICANA GRANDIFLORA ALBA (Moon Flower) per pkt. 6d.

BONA NOX. Large blue flowers per pkt. 6d.

RUBRO-COERULEA (Heavenly Blue) per pkt. 6d.

CARDINALIS (The Cardinal Climber) per pkt. 6d.

LEARI. Perennial. Rich dark blue per pkt. 6d.

ROSE MARIE. Double, deep rose, early free flowering per pkt. 6d.

IPOMOPSIS.

ELEGANS. A fine biennial plant, throwing up long spikes of flowers delicately spotted, of brilliant orange and scarlet. Very showy and attractive, with graceful foliage. Succeeds best in light, rich soil. Height 3ft. per pkt. 6d.

GIANT RED (new). An annual that is "different." Quaint tubular flowers. Very dainty. Fern-like foliage. Long spikes of bloom, lasting a considerable time when cut per pkt. 6d.

ISATIS.

GLAUCA. This hardy perennial plant produces cloud-like masses of golden yellow flowers which are small individually, but most effective, and extremely useful for cutting. At a distance they have the appearance of golden Gypsophila. Allow a foot between each plant. Height 3ft. per pkt. 6d.

IRIS.

KAEMPFERI. A choice mixture of Japanese Iris from a fine collection per pkt 1/-

CALIFORNIAN MIXED. A fine range of colours. Very hardy and distinct per pkt. 1/6

TINGITANIA FONTANESII. Very fine form with blue flowers. Free blooming. A.M., R.H.S. per pkt. 1/6

WILSONII (new). A beautiful species from Western China, growing to a height of 3 feet, with large pale yellow flowers. Very fine for cutting per pkt. 1/-

JACOBAEA DOUBLE.

Very effective free flowering hardy annuals. Flowers double and of great substance. Very attractive, and stand the weather well. Good bedding plants and fine for cutting. Height 1½ft.

MIXED per pkt. 6d.

JACOBABEA SINGLE.

Free flowering hardy annuals of much value for bedding, and exceedingly useful for cut flower purposes. Height 2ft.

MIXED per pkt. 6d.

KALE.

ORNAMENTAL (new). The curly flower-like rosettes take on most gorgeous colourings and brilliant variegations in early Autumn, holding their brightness all Winter. Cream, pink, rose, and magenta will appear. For beds, edgings, or pot plants per pkt. 6d.

KNAUTIA.

LYROPHYLLA (new). A perpetual flowered plant with flowers resembling a Scabious, but of brilliant carmine colour, with a shade of purple per pkt. 1/-

KAULFUSSIA.

AMELLOIDES. Charming hardy annual from South Africa, with pretty blue Aster-like flowers. Very free blooming, for small beds, edgings, etc. Height 6 inches per pkt. 6d.

KOCHIA.

TRICHOPHYLLA. A beautiful hardy annual, the charm of which lies in its fern-like foliage, which is soft green in Summer and becomes a rich red in Autumn. It forms a very graceful plant, and is eminently suited for pot culture or open border. Height 2ft. per pkt. 6d.

CHILDSI. An improvement on the type, being more compact and hardier, will stand a few degrees of frost per pkt. 6d.

KALANCHOE.

COCCINEA. Succulent plant. Commences flowering in Autumn and continues throughout Winter for about eight weeks. Brilliant scarlet. Height 1ft. per pkt. 1/-

KUDZU VINE.

THUNBERGIANA. Extremely quick growing climber. Perennial. The flowers are purple and pea-shaped. The foliage large. Easily grown per pkt. 6d.

LACHENALIA.

25 Choice hardy named varieties. Ask for Special List.

LANTANA.

CHOICE DWARF HYBRIDS. Hardy perennials per pkt. 6d.

LARKSPUR.

These free-flowering annuals have gained a foremost position among cut flowers during the last few years, as they last well when cut. We specially recommend clients to grow them in separate colours.

Giant Imperial.

Originating from the Stock-flowered type, is valuable as a cut flower; while the upright Delphinium-like growth and base-branching habit are factors in garden decoration. Height 3ft.

BLUE SPIRE. Oxford blue per pkt. 6d.

LILAC SPIRE per pkt. 6d.

ROSE SPIRE. Deep rose-pink per pkt. 6d.

WHITE SPIRE. Pure white per pkt. 6d.

PEACH SPIRE. Light pink, without trace of salmon per pkt. 6d.

SALMON-ROSE SPIRE. Salmon-rose per pkt. 6d.

ROSY SCARLET. Very striking, tall handsome variety, superb colour, fine for table decoration per pkt. 6d.

EMPIRE GIANT STRAIN. Extra special per pkt. 6d.

ROSAMOND. Pure rose self, does not change with age. Early flowering per pkt. 6d.

LALLEMANTIA.

CANESCENS (new). A hardy herbaceous plant, with soft grey aromatic foliage, which grows to a height of 2ft. It has spikes of purple and white flowers. Splendid for a large rockery or the herbaceous border per pkt. 1/6

LAVENDER.

COMMON (*Lavandula spica*). A sweet-scented hardy perennial, very useful in mixed borders. Height 3ft. per pkt. 6d.

MUNSTEAD LARGE FLOWERED EARLY. Bears large spikes of bloom of a deeper shade than the common Lavender and several weeks earlier. Hardy perennial, height 1ft. per pkt. 1/-

LAVATERA.

Showy hardy annuals for large beds or borders. Most useful for cutting and last a long time in water.

LOVELINESS. A new, deep rose-pink variety that excels all others for size and free-blooming qualities. Annual. Height 2½ft. Award of Merit R.H.S. per pkt. 6d.

OLBIA. The finest of the hardy perennial Mallows, its large, cup-shaped flowers of soft pink are freely produced on strong branching stems during summer. A grand plant for the herbaceous border. Height 4 to 5ft. per pkt. 1/-

LAYIA.

Hardy annuals, remaining long in bloom.

ELEGANS. Profuse flowering plants with yellow flower bordered white and gold centre. Height 12in. per pkt. 6d.

LEPTOSIPHON.

Beautiful dwarf hardy annuals, particularly suitable for edgings or rockwork.

ROSEUS. A beautiful species of hardy annuals, particularly suitable for edgings or rock work, producing myriads of vivid deep rose coloured flowers. Height 6in. per pkt. 6d.

LEPTOSYNE.

Exceptionally good for cut bloom, and showy in borders.

MARITIMA. A very good half-hardy annual with large bright yellow Marguerite-like flowers on long stems, most useful for cutting. Height 2ft. per pkt. 6d.

STILLMANI. Golden yellow flowers, of elegant shape and over 1½ inches in diameter, forms bushy and compact plants, and comes into flower six weeks after sowing. Hardy annual. Height 18in. per pkt. 6d.

GOLDEN ROSETTE (new). A beautiful variety for the florist, with double and semi-double bright yellow flowers suitable for cutting per pkt. 1/-

LEUCOCORYNE.

IXIOIDES ODORATA ("Glory of the Sun"). This lovely bulbous plant was introduced from Chile. It has heads of large, fragrant flowers, which are a delightful shade of blue with white centres. They are carried gracefully on wiry 18-inch stems, and last well when cut. The culture is the same as for Freesias. The bulbs show no tendency to throw offsets. The only means of increase is from seed per pkt. 1/6

LIATRIS.

PYCNOSTACHYA (new). A handsome and effective perennial border plant with long spikes of flowers which open from the summit of the spike downwards in succession. It likes a light, sandy soil and plenty of water. Its flowers are a rich mauve. One of the finest perennials. Height 4ft. per pkt. 1/-

LINDELLOFIA.

NERVOSA. Excellent border plant with terminal heads of rich gentian blue. Very free flowering. Height 2ft. per pkt. 1/-

LILIUMS.

25 Varieties. Ask for Special List.

LIMNANTHES.

DOUGLASI. Hardy annual of delicious fragrance bearing masses of yellow and white flowers. Does well in shade. Height 6in. per pkt. 6d.

LINARIA.

Lovely hardy annuals with flowers like miniature Antirrhinums. When grown in masses or clumps they produce an extremely fine effect in the mixed border. They are all very good for cutting and keep fresh in water for a long time. Height 1 to 1½ ft.

FAIRY BOUQUET. This variety will without doubt enhance the popularity of this popular group of hardy annuals. The plants are not more than 8 inches high, very compact in habit and bear much larger flowers than the type, in many distinct colours, such as rose, yellow, pink, lavender, carmine, red, violet, white and salmon. It is wonderfully free flowering and excellent either for bedding or for pots per pkt. 1/-

CARMINE. A lovely colour per pkt. 6d.
MAROCCANA EXCELSIOR. A most beautiful strain exhibiting many new colours. Makes a fine show in the border and is good as a pot plant per pkt. 6d.

RETICULATA AUREA PURPUREA. Yellow and dark violet, very effective per pkt. 3d.

CYMBALARIA (Kenilworth Ivy). A very pretty trailing plant for old walls or rock work, producing its dainty mauve coloured flowers in profusion. Grows with great freedom once it is established. Hardy perennial per pkt. 6d.

MACEDONICA SPECIOSA. A free flowering border plant, which has glaucous green foliage, and long spikes of lemon yellow flowers, with orange yellow spot on lower lip, continues long in bloom, excellent for cutting. Hardy perennial, height 3ft. per pkt. 6d.

PANCICI. A fine perennial variety with large canary yellow flowers resembling small Antirrhinums. Extra free per pkt. 6d.

LINUM.

NARBONENSE. A very graceful hardy perennial flax, glaucous foliage, charming azure blue flowers. Height 1ft. per pkt. 6d.

FLAVUM. Beautiful hardy perennial for the rock garden, forms neat compact bushes producing masses of yellow flowers. Height 1ft. per pkt. 1/-

LOBELIA.

A grand class of half-hardy annual bedding plants. The seedlings should be pricked out into boxes as soon as possible, giving them sufficient space, and pinching out the flowers until the plants are bedded.

CRYSTAL PALACE COMPACTA. Plants of most beautiful compact even habit, covered with dark blue flowers, the finest of all bedding Lobelias, comes perfectly true from seed per pkt. 6d.

BLUE GOWN. Compact in habit, the foliage becoming practically hidden by a sheet of bloom, of a lovely clear sky blue. A very fine type, either for bedding purposes or pot work per pkt. 6d. and 1/-

GOLDEN QUEEN. A golden foliaged variety, flowers rich dark blue, very effective per pkt. 6d. and 1/-

MRS. CLIBRAN, IMPROVED. Dwarf compact variety, deep blue with white eye, very distinct. The strain we offer is much superior to the original per pkt. 6d. and 1/-

KIMBRIDGE STRAIN (new). An entirely new strain of herbaceous perennial Lobelias, the colours of which, beside the original brilliant scarlet, embrace varied vivid shades of crimson, cerise, carmine, purple, deep lilac and mauve. The flowers are larger than the original Cardinalis. Splendid plants for the hardy perennial border. Height 4ft. per pkt. 1/6

CARDINALIS, THE BISHOP. A remarkably vigorous variety, which attains a height of 4½ to 5 feet, and produces fine spikes of large flowers of a glistening vermilion scarlet colour. The main spikes bear flowers for 12 to 15 inches of their length, open at one time. When these are finishing a sheaf of lateral spikes is developed, which continue the display for over two months. Half-hardy perennial per pkt. 1/6

LOBELIA (Continued).

SAPPHIRE. A trailing Lobelia of great merit. The flowers are unusually large, of a deep sapphire blue, enhanced by a clearly defined pure white eye, displayed in long graceful sprays, often attaining a length of 2 feet. A splendid plant for baskets or balcony decoration per pkt. 6d.

RAMOSA ROSEA (new). A fine variety with large rosy pink flowers which grows to a height of 9 inches. Planted at the back of the Lobelia Crystal Palace, would make a good contrast. Pink edging flowers are scarce per pkt. 6d.

DUPLEX ROSE (new). A beautiful dwarf compact Lobelia which smothers itself with semi-double pink flowers. Fine for edging. Height 3in. per pkt. 6d.

DUPLEX BLUE (new). A companion plant to the above, but with semi-double blue flowers. Fine for edging. Height 3in. per pkt. 6d.

BELLE DE MORAY (new). A fine Lobelia of dwarf compact habit with large, deep blue flowers with white eye. New to Australia. Fine for edging per pkt. 6d.

LUPINS.

This group of hardy annual plants well deserves large cultivation; *L. nanus*, and *L. subcarneus* are most useful dwarf varieties, the latter being a beautiful ultramarine blue; all are good for cut bloom.

BLUE PEARL per pkt. 6d.

ROSE PEARL per pkt. 6d.

MIXED per pkt. 6d.

ALBO-COCCINEUS. Large handsome rose-carmine and white spikes of flowers, height 2 feet. A.M., R.H.S. per pkt. 6d.

IGRESCENS. Flowers blue, rich and very effective. Fine for cutting, height 2ft. per pkt. 6d.

MENZIESII. Handsome plants with silky foliage and spikes of brilliant yellow flowers, height 18 inches per pkt. 3d. and 6d.

ATTRACTION (new). This very pleasing annual has flowers of a very soft and attractive shade of pure rose pink. The blooms are sweetly scented. Should soon become a firm favourite. Height 3ft. per pkt. 6d.

GIANT MIXED. A splendid mixture of Annual Lupins. Showy colours. Fine for cutting per pkt. 6d.

ROMULUS. A very fine golden yellow Annual Lupin per pkt. 6d.

LUPINUS POLYPHYLLUS.

The Garden Lupin. A fine race of hardy perennial plants producing a wealth of long spikes of bloom from Spring onwards. They do not always come absolutely true from seed, but even although some variations occur, they are all beautiful, height 3 to 4 feet.

We also include in this section a few varieties which have been obtained by crossing *L. arboreus* and *L. polyphyllus*, combining the characteristics of each, and continuing long in flower.

ARBORUS (Sweet Lavender). This new variety is a novelty in practically two senses of that word—it is a new colour and amazingly sweetly scented, with a perfume incomparably better than the original. The colour is in itself a sufficient advance on existing varieties. It is bright lavender merging to white and so free flowering that even a one-year-old plant is liberally covered with blossom. 3 to 4ft. high. Selected for trial by R.H.S. at Wisley per pkt. 1/-

CHOCOLATE SOLDIER. A lovely Lupin with strong long spikes of yellow with violet bronze, the two colourings making a beautiful contrast. Height 3ft. 6in. per pkt. 6d.

GOLD CREST. A striking perennial Lupin with long spikes of pea-like flowers of rich gold with bronze shading, and deep yellow wings. Lupins like a sunny position per pkt. 6d.

GOLDEN SPIRE. Handsome plants with finely cut foliage and huge spikes of buttercup yellow flowers. Height 4ft. A.M., R.H.S. per pkt. 6d.

BRIGHTEST AND BEST (new). An extra bright red variety with long spikes per pkt. 6d.

SUNSHINE (new). A wonderful perennial Lupin with huge spikes of rich butter yellow. Very noticeable in the border, and flowers over a long period. A.M., R.H.S. per pkt. 6d.

LUPINUS POLYPHYLLUS (Continued).

CROSS ROADS (new). A lovely Lupin with flowers on long spikes. A beautiful pleasing shell pink colour per pkt. 6d.

KINGDOM (new). Lovely combination of buff with yellow and a very distinct orange flag per pkt. 6d.

TANGERINE (new). Fine spikes of golden yellow with orange terra-cotta per pkt. 6d.

PAYNEI ROSEUS (new). A very rare distinct perennial Lupin from California, producing massive silvery green foliage and stately branched spikes of scented rosy pink flowers. Height 6ft. per pkt. 1/6

APRICOT STRAIN (new). A splendid strain of perennial Lupins, from a celebrated collection, consisting of shades of apricot, apricot-yellow, apricot-pink, orange-buff, etc. Gold Medal, R.H.S. per pkt. 1/-

RUSSELL LUPINS (novelty). The most outstanding introduction for many years. The long, closely-furnished spikes flower a great variety of rich colours; deep yellows, oranges, reds and brilliant bi-colours never before seen in Lupins. The florets are large, with flat fan-like back standards, and large heels, large enough to cover half-a-crown, and unlike all other Lupins, most of the spikes retain their florets throughout the whole period of development. These Wonder Lupins are the outcome of 23 years work of George Russell, an 80-year-old gardener of York, England, and have been the attraction wherever shown, being visited by 80,000 people at the nursery where they were grown. Awarded the Royal Horticultural Society's Gold Medal, June, 1937, causing a sensation in the horticultural world. The plants are hardy, unusually vigorous and floriferous. Sow Autumn, Spring and Summer per pkt. 1/-

LYCHNIS.

ARKWRIGHTII. A beautiful hybrid of *L. Chalcidonia* x *L. Haageana*, producing an abundance of large brilliantly coloured flowers, ranging from crimson and scarlet to salmon and other shades, hardy perennial. Height 1½ft. per pkt. 6d.

HAAGEANA HYBRIDA (new). A fine bedding plant with flowers somewhat resembling a *Salvia*. Although a perennial, it is best treated as an annual. Sow in the Spring. Many colours, including scarlet, orange red, white, etc. Particularly fine for Sydney climate. Try some this year. Height 1ft. 1/16th oz. 1/6, per pkt. 6d.

CHALCEDONICA. A desirable flower bearing bright orange-scarlet flower heads. It blooms all summer, and the long stemmed flowers are good for cutting per pkt. 6d.

MALOPE.

HURST'S CRIMSON. Enormous flowers. Fine for massing. Re-selected strain. Height 3ft per pkt. 6d.

MACHAERANTHERA.

TANACETIFOLIA, The Tahoka Daisy (new). The plants bear large lavender blue daisy-like flowers with yellow centres, carried one on a stem. It commences to flower in December and continues for about five months. The foliage is finely cut and fern-like, and the height 24 inches. It therefore has promise of being a very good cut flower, and border subject per pkt. 1/-

MALVA.

Hardy perennial, flowers large, trumpet-shaped, musk-scented, first-class border plant, and excellent for cut bloom; generally flowers from seed the first season. Height 2½ feet.

SETOSA. About six feet high, deep rosy mauve, 5-6 inches across per pkt. 6d.

MANDEVILLEA.

SUAVEOLENS. A beautiful deciduous creeper bearing quantities of lovely white flowers in clusters. Delicious perfume. Splendid foliage per pkt. 6d.

MARIGOLD.

CALIFORNIAN MOONBEAM (new). In the Californian type of Marigold the petals are decidedly wavy, almost fringed, giving a unique appearance to the flower. They are fully double and average 3 to 3½ inches across, while the plants grow about 3 feet high. The stems are of good length, making this a fine cut flower type. "Moonbeam" is a lovely clear lemon yellow per pkt. 6d.

CALIFORNIAN GOLDEN DAWN (new). This is similar in habit to "Moonbeam," but the flowers are a lovely soft, light golden orange per pkt. 6d.

DWARF GUINEA GOLD (new). The Marigold every gardener has been waiting for. Everyone knows Marigold Guinea Gold, which we introduced to Australia in 1929. The present introduction is a dwarf form, about 10in. high, possessing all the merits of its parent. The bright golden yellow flowers flushed with orange, larger and of the same elegant shape and fine substance, are produced in great abundance, often to the number of 25 to 30 on a full grown plant. Being practically all double, the value of Dwarf Guinea Gold for the front row of a border can hardly be over-rated. Sow January-February-March for Winter flowers . . . 1/16th oz. 3/6, per pkt. 1/-

GIGANTEA, SUNSET GIANTS (new). This new strain has immense flowers, averaging from 5 to 7½ inches across. Instead of the usual Marigold odour the flowers have a definitely sweet fragrance. They are loosely formed, very full centred, with broad, heavy petals gracefully overlapping to make a flower of great depth. The mixture ranges from deep orange through golden orange, deep golden, light yellow, lemon and primrose. The strain comes from 60 to 65 per cent. double. The plants are normally 3½ to 4ft. high, but under favourable conditions grow as much as 7ft. high. Seed sown January-February will bloom through the Winter. A first-class money-maker for florists . . . ¼ oz. 5/-, 1 oz. 15/-, per pkt. 6d.

SUNSHINE MIXTURE (new). A special mixture for the florist of the new loosely-ruffled types such as Yellow Supreme, Guinea Gold, Sunbeam, Golden Dawn and Moonbeam. Extra special for cutting, as they include all the "wanted" shades per pkt. 6d.

YELLOW SUPREME (new). A striking new variety which has already proved its worth. On vigorous, freely-branching plants about 2½ft. high, it produces large, fluffy, well rounded flowers with broad, loose, full petals of a rich creamy lemon yellow colour and having a delicately mild honey-like fragrance. A notable feature is that the foliage is practically free from what to many is an objectionable odour. Besides being a splendid garden plant, Yellow Supreme is excellent as a cut flower, easily lasting a week or more in water per pkt. 6d.

CROWN OF GOLD (new). An entirely new type of Marigold developed in California. The crown or top part of the flower resembles a *Chrysanthemum* in formation, and is made up of long disc petals that beautifully inter-lace. The crown and the collarette of big, broad petals which surround it are of a bright, pleasing shade of clear golden orange. The colour holds even when the flowers are old. The flowers of this new Marigold are slightly sweet-scented, and the foliage is entirely free of that usual Marigold odour so objectionable to many. This is the first Marigold in cultivation with entirely odourless foliage. Plants grow about 2 feet, bloom early, and are very free flowering. Will bloom through Winter if sown January-February-March per pkt. 6d.

SUNBEAM. A fine addition to the same class of African Marigold as "Guinea Gold," although somewhat larger-flowered, and if anything more robust, growing 2½ feet tall and measuring often as much as 2 feet through. The plants are vigorous in growth and extremely free flowering, bearing blossoms of a very pleasing clear lemon colour. "Sunbeam" comes practically 100 per cent. free from seed, and will make a great showing in the mid, late Summer and Autumn border. It is also excellent for cutting per pkt. 6d.

GUINEA GOLD. A very distinct type of Marigold producing flowers of a brilliant shade of orange flushed with gold. Unlike the ordinary African Marigold, this variety produces no single flowers, but practically 100 per cent. semi-double, and makes a fine bit of colour in the mixed border. To obtain best results it should be sown early per pkt. 6d.

MARIGOLD (Continued).

MEXICAN DWARF ORANGE. This handsome new type grows 15 to 18 inches high, and bears large double flowers of a bright orange. A native of Mexico, it is different in character from the old African Marigold, being more branching than the latter and extremely free flowering. It will give a fine display of bloom and will be found an excellent subject for the mixed summer border.
per pkt. 6d.

MEXICAN HARVEST GOLD (new). Elegant semi-globular shaped flowers of bright orange gold. Height 2ft Each plant bears over 25 blooms
per pkt. 6d.

LIEB'S WINTER FLOWERING (new). This is a tall-growing late flowering double and semi-double French Marigold, with maroon and golden yellow flowers. Excellent for Winter cut flowers. Very popular with American flower growers
per pkt. 1/-

FRENCH STRIPED, EXHIBITION STRAIN. Produces the finest striped flowers when grown on comparatively poor soil. Height 1½ft. . . . per pkt. 6d.

FIRE CROSS. In habit this dwarf single variety is very similar to the popular Legion of Honour, but much more effective and attractive. The ground colour is a deep orange yellow, whilst each of the eight petals carries a large crimson maroon blotch.
per pkt. 6d.

HARMONY. Graceful, soft effect. Centre of flower deeply-cut golden-orange disc florets, making a Scabiosa-like centre. Several rows of reddish-brown outer florets surround this centre in collar fashion, presenting a quaint flower form . . . per pkt. 6d.

AUSTRALIAN TREE. Fine branching habit. Late blooming, grows to 6ft., and requires staking. Masses of gold and brown flowers in Autumn and Winter per pkt. 6d.

MATRICARIA.

There is no shadow of doubt that these Matricarias deserve far greater popularity. We find that they are, comparatively speaking, little known. They are of bushy, compact habit and exceedingly free-flowering, most valuable for both edging and bedding purposes. If you have not previously grown them we do most strongly advise you to try them.

CULTURE.—Though a hardy perennial, it is best given the ordinary treatment of a half-hardy annual, sowing in Spring for Summer blooming.

GOLDEN BALL. Small very double golden-yellow flowers, produced with exceeding freedom on compact, bushy plants. 12 to 15in. . . per pkt. 6d.

SILVER BALL. Milk-white flowers, otherwise identical with Golden Ball. 12 to 15in. . per pkt. 6d.

MARTYNIA.

FRAGRANS. A sweetly scented half-hardy annual with woolly foliage, and large reddish violet flowers. Useful as a bedding plant and fine for pots. Height 2ft. per pkt. 6d.

MATTHIOLA.

BICORNIS. If for nothing but its perfume, this should be in every garden. Its lilac coloured flowers expand in the evening and emit a delightful fragrance. Hardy annual. Height 1ft.
per pkt. 6d.

MECONOPSIS.

BAILEYII. Produces leafy stems 2 to 3 feet high, furnished with broad sea-green leaves and bearing large four-petalled blooms of a glorious sky-blue colour, enhanced by a central zone of golden yellow anthers. Sow in pans or boxes in a cold frame, transfer to pots when large enough, and when well established plant out into deep loam and leaf soil in a moist, well drained, half shady position. First Class Certificate and A.M., R.H.S. Hardy perennial, height 2½ft. . . per pkt. 1/-

QUINTUPLINERVA (new). The lovely Harebell Poppy. A rare variety from Northern Tibet. The flowers are a beautiful pale lavender blue, borne on stems from 10 to 12 inches in height, with dense, hairy foliage, and is possibly the best perennial of this genus. Likes moisture and partial shade, and is of very easy cultivation
per pkt. 1/6

MECONOPSIS (Continued).

WALLICHII. A lovely blue Poppy from the Himalayas, the foliage of which is ornamental long before the plants flower. The inflorescence is a giant pyramid of soft porcelain blue flowers with golden stamens. When in bloom it is a plant of rare beauty. It delights in a cool half-shady situation. Easily raised from seed. Hardy biennial. Height 4 to 5ft. per pkt. 1/-

CAMBRICA DOUBLE. A charming new double form of the Welsh Poppy, with rather silvery leaves and varying yellow and orange flowers. Lasts in flower a long time. Some of our customers think this one of the best of our new introductions. Height 1ft. per pkt. 1/-

MESEMBRYANTHEMUM.

Exceedingly useful for edgings and small beds, luxuriating in sunny situations.

CRINIFLORUM (Livingstone Daisy). A very distinct and beautiful new half-hardy annual of the easiest cultivation. The plants, 3 inches high, are of slightly spreading habit, literally covered with flowers, measuring 1½ inches across, of the most delightful shades imaginable. An ideal carpet or rockery plant and a gem for edging. Will succeed admirably in crevices of crazy paving or old walls, and thrives in poor soils per pkt. 1/-

MIGNONETTE.

Sow early in moderately rich soil, thoroughly well prepared and made fairly firm; the addition of lime is often found to be of advantage. If large spikes are desired, the plants should have plenty of room to develop; thin out the seedlings 6 to 9 inches apart.

BISMARCK. A very robust and compact variety with extra large sized spikes of reddish flowers
per pkt. 6d.

GOLDEN QUEEN. A distinct and beautiful variety with fine spikes of golden yellow flowers
per pkt. 6d.

GOLIATH. Very large spikes of double red flowers, plants of dwarf compact habit, good alike for pots or borders per pkt. 6d.

GOLDEN GOLIATH. Rich golden yellow; the spikes of great size, surpassing both in colour and substance many other varieties. The plants are very compact, and so free flowering that almost no foliage is visible per pkt. 6d.

MACHET. Plants vigorous and of pyramidal growth, carrying very large spikes of deliciously scented reddish flowers. It does well in the open border, and is one of the best for pots . . . per pkt. 6d.

RED MONARCH. The habit is ideal; for although the plant is compact, the foliage is strong and of good substance. The flower spikes are broad and of perfect form, and the colour is the deepest red of any yet introduced. The individual flowers are so closely knit that they have the appearance of doubleness. Red Monarch is equally good in the garden or as a pot plant. Its perfume is exceptionally strong per pkt. 6d.

MIMULUS.

QUEEN'S PRIZE. A beautiful dwarf hardy perennial luxuriating in a moist situation, valuable for greenhouse and window decoration, as well as for masses and edgings. Our strain is very fine, the flowers being spotted and marked in a wonderful variety of colourings. Height 1ft. . . per pkt. 6d.

GIANT EMPEROR. A new variety with enormous flowers of Petunia shape in shades of orange crimson, crimson scarlet, vermilion, deep and pale rose, all splendidly marked and figured. For shady side or full sun. Height 6 to 9in. . . per pkt. 1/-

MINA.

LOBATA. A most attractive hardy annual climber. The buds are dark red in long racemes. Flowers become orange and finally yellowish-white when fully expanded per pkt. 6d.

MORINA.

LONGIFOLIA. A hardy herbaceous perennial plant from the Himalayas with fine decorative foliage and showy rose carmine flowers. Sometimes known as the Whorl flower. Summer flowering. Height 2½ft. per pkt. 1/-

MUSCARI.

ARMENAICUM (new). A very dainty Grape Hyacinth with bold spikes of the richest cobalt blue flowers, which are long stemmed and fragrant. Very early flowering. Fine for ribbon borders. Height 9in. per pkt. 1/-

MYOSOTIS (Forget-Me-Not).

The Forget-Me-Nots are favourites with everyone. They may be sown on a warm border in Spring to produce plants to flower the following Spring. Most effective when planted in large masses and now much used as a ground-work for bulbs in Spring. Some varieties make fine pot plants. Hardy perennials.

EXPRESS (new). An extremely early flowering Forget-Me-Not with fine heads of light blue flowers. For beds, borders, rock gardens, pots and cutting, this early large flowered variety will be found invaluable per pkt. 6d.

PALUSTRIS SEMPERFLORENS. (The true Water Forget-Me-Not). This variety is remarkable for its long period of flowering, from early Spring till Autumn; large bright blue flowers, very attractive. Height 9in. per pkt. 6d.

PERFECTA. For Winter flowering there is no Forget-Me-Not to surpass this. It may be sown in the open ground Spring and Autumn. A batch of this in flower is sure to be appreciated per pkt. 6d.

ROYAL BLUE. Flowers of the deepest indigo blue produced in long sprays, excellent for cutting, height 12 inches per pkt. 6d.

FAIR MAIDEN. Large flowering pillar Forget-Me-Not. The blooms are exceedingly large and of a vivid pink colour, unique amongst Myosotis. It flowers early and lasts a long time in bloom. Height 1ft. per pkt. 6d.

NASTURTIIUM.

Tom Thumb Varieties.

A valuable class of hardy bedding annuals. When planted in poor soil, they vie in richness of colours and display with Geraniums and Calceolarias; in rich soil they run to foliage, and are of little account; 1 foot high.

EMPRESS OF INDIA. Dark scarlet, an attractive dark-foliaged variety per pkt. 3d.

FELTHAM BEAUTY. Rich brilliant scarlet; the plants are of compact habit and very free flowering; very showy per pkt. 3d.

FIREBALL. Deep orange-scarlet, showing well above the small dark green foliage; distinct per pkt. 3d.

ROSY MORN. A remarkably bright shade of rosy-scarlet, the flowers are carried well above the foliage and produce a very effective display per pkt. 3d. and 6d.

SELF COLOURED, EXTRA FINE MIXED. This mixture is composed exclusively from self coloured sorts (no spotted or speckled) and has the advantage of letting the variety of colours come out more effectively. A very showy mixture.

Gleam Varieties (Semi-Double).

ORANGE GLEAM. The finest Nasturtium since the introduction of "Golden Gleam." The flowers are large uniformly double, and very free flowering. The colour is entirely new, being deep glowing orange with a deeper shading towards the centre. Semi-dwarf, bearing flowers well above the foliage, on long, wiry stems per pkt. 6d.

SALMON GLEAM. Identical to the above, but the flowers are a distinct double salmon per pkt. 6d.

ALL DOUBLE FIRE GLEAM. This new Nasturtium produces 100 per cent. double flowers, which is not the case with Scarlet Gleam. Colour bright scarlet. We consider it to be in every way superior to Scarlet Gleam. Splendid for bedding and dry banks per pkt. 6d.

GLEAM HYBRIDS, DOUBLE. These new hybrids are a great advance by reason of the fact that in this Double Annual Nasturtium we now have many new colours such as salmon, golden yellow, orange-scarlet, cerise, cream-yellow, orange, crimson, gold flushed scarlet and other shades which should ensure the popularity of this new introduction. The plants are semi-trailing and the flowers are borne well above the foliage. Novelty per pkt. 6d.

NASTURTIIUM (Continued).

GOLDEN GLEAM. This double flowered, sweet scented, annual Nasturtium has already proved to be a valuable addition to this popular race of hardy annuals, the demand was so great last Spring that the available stock of seeds was sold out very early. The large golden yellow flowers average 2½ to 3 inches across and are borne on stiff stems, 6 inches in length, consequently they stand well above the foliage and add much to the effectiveness of the plant which is of semi-trailing habit. It is as hardy and easily grown as other Tom Thumb Nasturtiums per pkt. 6d.

DWARF DOUBLE GLOBE HYBRIDS (new). A splendid mixture of double Nasturtiums. Dwarf and compact. Does not run like Gleam hybrids per pkt. 6d.

SUPREME. A new double salmon cerise variety. Sweetly scented, it is of semi-dwarf habit, and as profuse in bloom as Golden Gleam per pkt. 6d.

TALL MIXED. Extra special mixture of all colours in this section 9d. oz., per pkt. 3d.

LILLIPUT NEW HYBRIDS. A mixture of new shades of colour, many of them quite unique. Compact bushy plants with immense number of small blooms per pkt. 6d.

NEMESIA.

No wonder Nemesis are so popular, they have so many good points. Great diversity of beautiful colourings, extraordinary freedom over a lengthy period, combined with a charming form have endeared them to all flower lovers. Few flowers are capable of producing such a glorious bedding display. The strains we offer are quite dependable and represent the highest stage of perfection Nemesis have reached.

STRUMOSA SUTTONI, GRANDIFLORA, MIXED. A very fine strain, large-flowered with a wide and beautiful colour range. 1ft. 3/6 ¼ oz., per pkt. 6d.

STRUMOSA SUTTONI GRANDIFLORA, BRIGHT SCARLET. 1 ft. per pkt. 6d.

SUTTON'S BLUE. 1ft. per pkt. 6d.

SUTTON'S RETICULATA. The flowers of this new introduction are striped and mottled. Many new colours make this an exceedingly showy mixture per pkt. 6d.

ROSY PINK. A distinct colour in these showy annuals. Large flowers of rosy pink per pkt. 6d.

BRONZE PINK SHADES (new). An attractive blend of bronze salmon and chamois pink tones which have never before been seen in these plants. The flowers are large and the plants grow about 12in. high per pkt. 1/-

FIRE KING. Vivid scarlet, neat habit, fine bedder. Height 9in. per pkt. 6d.

ORANGE PRINCE. Vivid orange flowers most freely produced. Height 9in. per pkt. 6d.

BLUE GEM (compacta). Flowers are a delightful soft azure blue. Excellent for edgings, window boxes, small beds, or for massing along the front of borders. We have seen some beautiful effects when bedded round Iceland Poppies. 6in. high per pkt. 6d., 1/16th oz. 2/6, ½ oz. 3/6, ¼ oz. 5/-

TRIUMPH. Dwarf, compact, large flowered strain. Many new very fine colours 5/- ¼ oz., per pkt. 6d.

SUPERBISSIMA (new). An extra large flowered strain of the dwarf compact type. This mixture features all the bright shades, and makes a dazzling display per pkt. 1/-

NEMOPHILA.

A well known class of very early flowering hardy annuals, equally effective for bedding and edging purposes; sown in Autumn, will flower early in Spring. Height 6 inches.

HOLBORN BLUE BELL. Very pretty variety with blue limb and darker eye. Perhaps the best of these showy annuals. Fine for bedding, edging and window boxes. Sow in drills where it is to remain 1/3 ¼ oz., per pkt. 6d.

INSIGNIS RE-SELECTED. Quick grower, early bloomer. A profusion of lovely cup shaped sky blue flowers with white centres. Charming for edgings, etc. 1/3 ¼ oz., per pkt. 6d.

MACULATA. Very attractive and distinct. Violet spots on the tips of pale blue petals. Fine for edging per pkt. 6d.

NEPETA.

MUSSINI. An invaluable border or rock plant always in flower, freely branched, neat habit; the leaves are small, greyish and toothed, the spike mint-like, colour lavender violet, and very freely produced; fine for edging. Hardy perennial, height 1ft. per pkt. 6d.

NERVOSA. A splendid plant for the large rock garden or edging, and much superior for this purpose than N. Mussini. The flowers are of a clear light blue, and have a brighter and more attractive effect than the latter. The plant continues in bloom from mid Summer until the early Autumn. A.M., R.H.S. per pkt. 1/-

NICOTIANA.

AFFINIS. Valuable for decoration or open border during Summer, pure white, large tube-shaped flowers, sweet-scented. Height 2ft. . . per pkt. 6d.

CRIMSON BEDDER. This is quite a new "break," and will be found more suitable for general bedding purposes than the older varieties. It is of dwarf and pyramidal habit, not exceeding about 15 inches in height. The flowers are rich deep crimson in colour and very freely produced, making a most striking effect when seen in mass. It may also be added that "Crimson Bedder" comes fairly true from seed per pkt. 1/-

AFFINIS CHOICE HYBRIDS. Sweetly-scented flowers, embracing a large variety of colours per pkt. 6d.

NICANDRA.

PHYSALOIDES (new). A hardy annual with many upright blossom chalice of bright blue bell-like flowers. Very free flowering. Height 3ft. per pkt. 6d.

NIEREMBERGIA.

HIPPOMANICA. A beautiful little hardy Solanaceous plant, not more than 4 to 6 inches high, it forms a cushion of elegant light green foliage from which emerge corymbs of salver-shaped flowers 1 to 1½ inches across, of a delicate lavender hue, with a clear yellow eye, most effective per pkt. 1/6

NOLANA.

ATRIPLICIFOLIA. A good annual for seaside gardens, delighting in an open, well drained soil in a sunny position. Prostrate growth. Flowers lavender blue. Habit and flowers somewhat like *Convolvulus Mauranticus*. Height 4in. per pkt. 6d.

NIGELLA.

Lovely hardy annuals, growing in beautiful bushes, 12 to 18 inches high. The large double flowers nestle in the finely cut fernlike green foliage and produce the charming effect which gives the plant its popular name of "Love-in-a-Mist."

MISS JEKYLL. One of our choicest hardy annuals, giving an abundance of long stemmed flowers, which are of a clear, Cornflower blue, prettily set in slender elegant foliage per pkt. 6d.

NYCTERINIA.

BLUE GEM. A pretty sweet-scented annual with pale blue and white flowers. Little known but good. Height 6in. per pkt. 6d.

OSTRONSKYA.

MAGNIFICIA (new). A lovely, hardy perennial of the Campanula family, producing immense silvery lilac bell-shaped flowers, often 6 inches across. In full glory of bloom a magnificent spectacle. Seed is slow germinating. The plants will not tolerate excess moisture. If possible, establish where tree roots will keep soil on dry side, but where branches do not shade too much. Worth extra effort. Height 3ft. per pkt. 1/-

OENOTHERA.**(Evening Primrose.)**

Popular hardy plants which are splendid for borders and shrubberies.

AFTERGLOW. A very fine Evening Primrose with large yellow flowers, the brilliant red calyces of which give an added beauty to this old-fashioned border plant. Hardy biennial, height 3ft. per pkt. 6d.

TRICHOCLALYX. The most beautiful of all the Evening Primroses. The flowers are large and of the purest white, with golden anthers and remain open all day. Plants are compact and branching. If sown early in the year and the seedlings transferred to the open ground they will flower in about six weeks. Hardy biennial, height 1½ft. per pkt. 6d.

PAEONY.

FINEST DOUBLE. Hardy perennials, sow in the Autumn in pots or boxes of sandy soil and plant out in Spring. Seeds saved from fine collection per pkt. 6d.

PANSY.

Showy and beautiful border plants easily produced from seed.

It is not necessary for us to tell you what Pansies are, but we should like to say something about our own strains of this most popular flower. As with many other floral subjects, success rests largely on the merit of the particular strain concerned. Careful re-selection we believe has brought these strains to the highest stage of perfection; in other words, you may sow them in the assurance that with ordinary care, they will give every satisfaction. Always sow thinly and remember when planting out doors, that the Pansy succeeds best in a fairly rich, but well drained soil and if the position is partially shaded so much the better. The different strains vary between 6-8 inches in height.

The finest large flowered varieties are invariably very shy seeders, hence really good seed is always more expensive. Those desiring the very finest in Pansies will do well to order the higher priced packets.

ULLSWATER. This new Pansy is of unusual and attractive colouring—a solid Wedgwood blue with blue black centre. In size form and substance it is equal to our well-known Royal Exhibition Strain per pkt. 1/-

MASTERPIECE. Exhibits a rich combination of colours, the margins of the petals are elegantly crimped and frilled, free flowering, and good for bedding per pkt. 1/-

GIANT EMPIRE STRAIN. This is one of the best strains of Pansy in cultivation, and can be relied upon to produce large, perfectly formed flowers in a wonderful variety of colour and marking. For bedding it is unequalled, and many of the plants will give flowers fit for exhibition per pkt. 1/6

ROGGI'S SWISS GIANTS. Re-selected strain. A very robust type, with flowers of great size in a wonderful range of new and effective colours per pkt. 1/-

CULLEN'S EXHIBITION. This fine strain of exhibition Pansies has been brought to a high state of perfection by the noted seed-raisers, Thomas Cullen & Sons, Witham, Essex, England. We have secured seed of this choice, large flowering strain, and can with confidence recommend it to Australian garden-lovers. Colours and markings are of the best. A trial will bring many first prizes per pkt. 1/6 and 5/-

ENGELMANN'S SUPER GIANTS. This wonderful Pansy is re-selected from the old famous Scottish Show type—immense flowers; mostly bronze and reddish shades, with some yellow-edged ones, vigorous growing strain, producing flowers (with feeding) from 4 to 6 inches across. Compact and early flowering. Shown with success at the great Chelsea Flower Show per pkt. 2/- & 5/-

PANSY (Continued).

GLASGOW PRIZE. A grand strain of giant Pansies new to Australia from an eminent Scotch raiser with extra large flowers of great substance and very brilliant colours which have made it famous in the Scottish Flower Shows. This new strain can be relied upon to produce large, well formed flowers in a wonderful variety of colours and markings. It is the result of many years of careful selection for size, texture, colouring, and length of stem, and includes the most richly coloured of the blotched varieties

per pkt. 2/- & 5/-

GOLIATH. A mixture of the very latest shades, of huge size and exhibition form. The plants are very robust, with large green leaves and compact habit. The colour of the flowers leaves nothing to be desired. From one of the best Continental seed growers. A Pansy of outstanding attractiveness per pkt. 1/6

INTERNATIONAL PRIZE. A superb mixture of exceptional merit from the famous firm of Carter's, Raynes Park, England, containing a very wide range in all the richest colourings and shades. The individual blooms are of large size and possess exceptional substance. This strain has been selected for perfect outline characteristic of the choice Pansies so admired by the old florists

per pkt. 2/-

FELTHAM TRIUMPH (novelty). This new Pansy was the result of crosses between Pansy Matchless and the giant flowered Roggli, extending over a period of seven years, and resulting in the fixing of an entirely new type which has the giant size of the Roggli Pansies combined with the more solid flowers of the Matchless type, with its upright and compact habit of growth. The flowers have a square base lower petal, which enhances their beauty. The colours are well-balanced, with blues and reds prominent. The perfect Pansy

per pkt. 1/6

SUPERBISSIMA (new). A Continental strain of very fine giant Pansies. It is a splendid mixture of very giant sort with extra large flowers with slightly curled edges. Lovers of Pansies should try this outstanding new strain. The colours are rich, varied and bright, and the plants are strong growing and compact. Flowers are over 3 inches across with thick and resistant petals

per pkt. 1/6

CORONATION GOLD (new). This new giant golden Pansy is of special merit. The flowers are large and of a fine texture. The plants are free blooming but compact; the colour a pleasing shade of pure deep yellow suffused golden orange and without eye. The best of all yellow Pansies

per pkt. 1/-

GIANT ORCHID FLOWERED MIXED (new). This beautiful strain includes all the delicate and pretty colour combinations to be found in Orchid Flowered Pansies, but its outstanding feature is however the giant size and wavy form of the flowers. An attractive and admirable introduction

per pkt. 1/6

ROGGLI'S CHARMING (novelty). A new colour in these giant Swiss Pansies, being a lovely rose colour. Flowers are large and of good substance. Very striking. Seed is extremely scarce, so we are only able to distribute a limited number of packets this season per pkt. 1/6

ROYAL EXHIBITION MIXED. This superb selection is our finest mixture, and will produce enormous blooms in all the richest colourings and markings. We prepare this assortment ourselves, and it contains the largest and best types only. It is the result of many years of careful selecting for size, texture, colouring and length of stem. The blooms are truly gigantic, finely curled, and include the most richly coloured of the blotched varieties

per pkt. 2/-

BATH'S EMPRESS. A specially selected stock of this large flowering strain per pkt. 1/6

WINTER FLOWERING MIXED. This comparatively new race is remarkable for its earliness. It commences blooming in Winter and continues over a long period. The colours are quite good and the flowers large per pkt. 6d.

CELESTIAL QUEEN. A Winter flowering Pansy we can highly recommend for bedding or edging. Large solid flowers of light bright blue

per pkt. 6d.

WINTER CLARET. A new colour in Winter bedding Pansies. Wine red. Early flowering

per pkt. 6d.

PANSY (Continued).

HELIOS. A beautiful pure yellow Winter Pansy. A fine companion to our Celestial Queen. For bedding and edging, unsurpassed per pkt. 6d.

ORANGE KING. An attractive and an arresting bedding variety of decided distinct colouring lower petals of vivid orange, upper petals shaded apricot per pkt. 6d.

PEAS (Everlasting).

Very good hardy perennial climbers. They are easily grown and have a long season of bloom. For covering trellises, low walls, banks, etc., they are exceedingly useful; height 6 feet.

LATIFOLIUS. Red per pkt. 6d.

LATIFOLIUS PINK BEAUTY. Very beautiful per pkt. 6d.

LATIFOLIUS WHITE PEARL. A great improvement upon the old white per pkt. 6d.

PUBESCENS. A splendid new perennial variety from the Argentine. Large sprays of beautiful blue pea-shaped flowers resembling Wistaria. Does best in positions facing east. Fine for cutting per pkt. 6d.

SWEET PEAS (Winter).

FLORIST'S BLUE. This is the best clear blue Winter Sweet Pea. The colour is clear pure blue, and the stems are longer, and the plant is extremely vigorous. Four huge blooms to a stem

per pkt. 1/-

EMBLEM. Award of Merit Dutch Horticultural Society. This Pea is outstanding for its unusually long stems, on which are borne three or four bright salmon, cream, pink flowers. Makes a beautiful bunch because of the beautiful salmon pink borne on the cream ground per pkt. 1/-

FLORIST'S ROSE. This Sweet Pea is claimed to have the longest stems of any. The colour is pure rose pink, richer and deeper than the popular Annie Laurie. The blooms are immense

per pkt. 1/-

JOSIE. One of the largest and longest stemmed Winter Sweet Peas ever sent out. A fine variety for florists, making robust growth, with deep rose pink blooms on a white base, producing mostly fours and fives, and is just the type for which flower growers are looking per pkt. 1/-

MONTEREY. A charming combination of Geranium pink flushed with salmon. A strong grower with long stems and large blooms per pkt. 1/-

ORANGE SUPREME. The flowers have wings of salmon cerise and the standard is orange. Large flowers on good stems. Excellent market variety per pkt. 1/-

ORDINARY MIXTURE . . 3/- oz., per pkt. 6d.

NOVELTY MIXTURE (new). Blended by us from all the most recent introductions and novelties. Well-balanced combination of colours

4/6 oz., per pkt. 1/-

SWEET PEAS (Spring).

For Exhibition or Cutting.

HOLLYBERRY (new). Rich scarlet, with orange flushing, a very bright and distinct shade. Well formed flowers on long stems. The best and brightest scarlet, and distinct from all others. A.M., R.H.S. per pkt. 6d.

ANGLO (new). Yellow in the bud stage, but as the flower opens, it becomes a somewhat subdued yellow, with a beautiful edging of pink. A very vigorous grower, flowers large, always duplexed, and carried on long stems. A.M., N.S.P.S. per pkt. 6d.

CELEBRITY (new). A very fine orange, which is uniform in standard and wings, and bright rather than dark; flowers unusually large. O.M., S.N.S.P.S. per pkt. 6d.

BLUE CHARM. A very fine clear blue, flowers very large, and four bloom sprays are freely produced; almost every blossom is duplex; an exceptional variety for the exhibitor per pkt. 6d.

WARRIOR (new). Rich bronzy maroon, with little or no trace of purple in the keel or wings per pkt. 6d.

PURPLE MONARCH (new). Richest purple, deeper and purer in tone than "Royal Purple" and decidedly larger. Vigorous grower per pkt. 6d.

SWEET PEAS (Continued).

DELIGHTFUL (new). Charming rich terra cotta, cerise suffused orange. A very robust grower. Flowers very large, bold, nicely waved and beautifully placed on long stems . . . per pkt. 6d.

CRESTED CROWN (new). A good, deep cerise, but infinitely better in consequence of subtle undercurrent of cherry . . . per pkt. 6d.

AMETHYST (new). A lovely colour, clear amethyst blue. Very vigorous. Long and stout flower stems bear four to five immense flowers . . . per pkt. 6d.

MASTER CREAM (new). A large, vigorous growing, long-stemmed black-seeded cream. The flowers are mostly duplexed, beautifully frilled and of great size and depth of colour. Excellent for all purposes . . . per pkt. 6d.

MISCHIEF (new). A highly-scented variety, named after the celebrated scent of that name. Very large and richly coloured, salmon rose. Good for exhibition and garden. A.M., N.S.P.S. . . . per pkt. 6d.

ROYAL PINK (new). A real florists' flower, and a "best seller." Pure pink, illuminated with rich shrimp and further enriched with a veining of rose. A very fine variety. A.M., R.H.S. . . . 1/6 1/2 oz., per pkt. 6d.

NOVELTY MIXTURE. Blended by us from all the most recent introductions and novelties. Well balanced combination of colours . . . 4/6 oz., per pkt. 1/-

ORDINARY MIXTURE . . . 3/- oz., per pkt. 6d.

FANTASY MIXTURE. Every flower in Fantasy Mixture is beautifully veined and watered, but the backs of the standards are self-coloured. All the best Sweet Pea colours are represented in flakes and splashes of contrast totally different from the old "striped" varieties. They are of the large-flowered Spencer type but have the exceptionally strong fragrance of the old varieties. . . per pkt. 6d.

PENTSTEMON.

The Pentstemon is yet another flower which we consider deserving of greater popularity. It is useful both in pots and borders, but should always be planted in little colonies, rather than singly, to obtain the best effect. Though a hardy perennial, the treatment should be that of a half-hardy annual in order to obtain plants which will flower well the first season.

CHOICE MIXED. A magnificent strain which will produce flowers of the very finest quality in a wonderful range of attractive colours . . . per pkt. 6d & 1/-

HETEROPHYLLUS. Of neat compact habit, producing abundantly rich blue, sometimes red tinted tubular flowers on elegant spikes. A little gem for the rock garden or margin of herbaceous border. Hardy perennial, height 1ft. . . per pkt. 1/-

WHITE BEDDER (new). A very valuable variety, being the first pure white large flowered bedding Pentstemon. Makes a splendid show in the mass, and is excellent for cutting. H.P. Height 2 1/2 ft. . . per pkt. 6d.

OVATUS (new). An attractive hardy species with pretty blue flowers. Plants grow to a height of 3 feet. It is excellent for cutting. . . per pkt. 1/-

PELARGONIUM.

LADY WASHINGTON. A fine strain of these showy hardy plants. A mixture of colours, with very large flowers beautifully blotched. . . per pkt. 2/6

PETUNIA.

Very valuable plants, either for bedding or greenhouse decoration. The colours are very rich and varied, flowers of beautiful form. Our strain is very fine.

The first problem of the flower gardener is to keep the flower-beds bright with bloom through the season. The Petunia is one of the most useful flowers for this purpose, as they keep up a constant succession of bloom from early summer till frost. They are quite easy to grow, and endure drought exceptionally well. Seeds may be sown directly in the open ground. Give a sunny position and good soil.

ROSE OF HEAVEN. A splendid new bedding Petunia of fiery rose which is very effective. Bright clear colour . . . per pkt. 6d.

PETUNIA (Continued).

TYRIAN ROSE. A very attractive new Petunia in the Nana Compacta class, growing to a height of 8 inches. Its flowers are large and make a dazzling display. Colour is a bright tint of Tyrian Rose with creamy throat. A splendid Petunia for bedding . . . per pkt. 6d.

FLAMING VELVET (new). This fine Petunia received the Gold Medal in the All-American trials last season and is now in great demand. The colour is an attractive ruby red . . . per pkt. 1/-

ALDERMAN. Deep velvety violet, a wonderful colour. It also is very compact . . . per pkt. 6d.

BLUE BEE. Clear violet blue. An outstanding colour in bedding Petunias . . . per pkt. 6d.

HEAVENLY BLUE. A beautiful silvery blue. Free flowering. Makes a fine contrast to "pinks," and excellent for cutting . . . per pkt. 6d.

BEDDING MIXED. A mixture of all the dwarf types suitable for bedding. Will make a brilliant show . . . 2/6 1/2 oz., per pkt. 6d.

Balcony or Pendula Types.

CORNFLOWER BLUE. Large flowers of rich clear blue . . . per pkt. 6d.

CRIMSON. Fine quality flowers of rich velvet crimson . . . per pkt. 1/-

WHITE. Large blooms of pure white. Extra fine . . . per pkt. 6d.

Giant Flowered.

SETTING SUN. Beautiful fringed blossoms of brilliant rose-pink about 3 inches across, excellent for bedding and borders . . . per pkt. 1/6

GIANTS OF CALIFORNIA. Flowers very large finely fringed and of the richest colours, very hardy and robust . . . per pkt. 1/6

IDEAL. Dwarf strain of large flowered Petunias, growing 1ft. to 15in. in height. Great varieties of colours . . . per pkt. 1/6

GIANT FRINGED GLAMOUR. A large flowered fringed Petunia with giant flowers of brilliant crimson speckled with white spots. . . per pkt. 1/6

GERMAN EMPRESS. An extra large flowered Petunia of Giant of California type. The plant is vigorous, and the flowers are rosy lilac, with violet blue throats . . . per pkt. 1/6

TRIUMPHANT. Prior to the introduction of this super strain of double Petunias which we have great pleasure in offering, the older strains were looked upon as quite satisfactory if they yielded 25 per cent. double flowers. The new strain we now offer produces 100 per cent. large double fringed flowers of various colours. A really remarkable achievement in Petunia culture . . . per pkt. 2/6

PHACELIA.

The two varieties we offer are very different in nature, both exceedingly valuable in their own spheres. Campanularia should be found in every garden, not only is it free-flowering and easily grown, but the colour is a most wonderful true blue, certainly one of the finest blue flowers in cultivation.

CAMPANULARIA. Bell-shaped flowers of a most exquisite rich true blue colour. Should be grown by all. Height 9in. . . per pkt. 6d.

CILIATA (new). Sweetly scented flowers of a clear lavender-blue colour. Very early and free, blooming ten weeks from sowing, and if cut back as the season advances will continue to flower profusely. Height 1ft. . . per pkt. 6d.

PHLOX DRUMMONDI.**OUR GREAT SPECIALTY.**

Annual Phloxes are most certainly among the foremost of the half-hardies for bedding purposes. Though they are comparatively well known and popular, it is astonishing that they are not utilised to a much greater extent. The varieties we offer have been carefully chosen and we recommend them with every confidence that they will please.

The great advance recently made in both the size and colourings of this popular annual should ensure it becoming a favourite for growth in beds and borders. It makes a most effective edging if the growths of the taller types are kept pegged down. Another point of importance in the culture of this

PHLOX DRUMMONDI (Continued).

pretty flower is the fact that it does not like being watered with cold pipe water, especially overhead; it spoils the foliage and ruins the truss.

GRANDIFLORA CHAMOIS ROSE . . . per pkt. 6d.

GRANDIFLORA DELICATE FLESH COLOUR

per pkt. 6d.

GRANDIFLORA DEEP ROSE per pkt. 6d.

GRANDIFLORA SCARLET per pkt. 6d.

GRANDIFLORA SPLENDENS. Dazzling scarlet, white eye per pkt. 6d.

GRANDIFLORA WHITE per pkt. 6d.

GRANDIFLORA YELLOW per pkt. 6d.

SUTTON'S VIOLET. This lovely shade of Phlox Drummondii was much admired at the Chelsea Show this year. Large heads of deep violet blooms. Splendid for bedding alone or as a cut flower. A bowl of these Phlox arranged with our new Phlox Light Blue with white eye was acclaimed "Exquisite" when shown by us early this year $\frac{1}{4}$ oz. 3/6, per pkt. 6d.

GIGANTEA. A new strain of Phlox Drummondii with flowers an inch and a quarter in diameter. In addition to its large flowers it has a wonderful range of soft art shades. There is a complete absence of harsh colours, and it should appeal to those who are looking for soft colour effects in their garden $\frac{1}{4}$ oz. 3/6, per pkt. 1/-

OCULATA MIXED. A bright mixture of these popular bedding plants in which all the flowers have a distinct eye, in the manner of some Verbenas $\frac{1}{4}$ oz. 3/6, per pkt. 6d.

PAGE'S CHOICE MIXED. An especially fine strain of annual Phlox. It contains every known shade in the Grandiflora section. Many are distinctly marked with contrasting eyes in the centre of the flower. We consider this strain unexcelled for producing rich masses of brilliant bloom oz. 6/-, $\frac{1}{4}$ oz. 1/9, per pkt. 6d.

DWARF PHLOX.

These annual Nana Compacta varieties are preferred by many on account of their neat and compact habit and large heads of bloom. They grow six to eight inches high and are ideal for bedding.

APRICOT QUEEN. Pretty colour . . . per pkt. 6d.

BLUE BIRD. Delicate blue per pkt. 6d.

BRILLIANT. An effective cinnabar-scarlet per pkt. 6d.

CHAMOIS ROSE. Very charming pink . . . per pkt. 6d.

SKY BLUE. With white eye. Very effective per pkt. 6d.

MIRIBILIS. Salmon pink, with white eye per pkt. 6d.

FIREBALL. Intense scarlet per pkt. 6d.

METEOR. Charming salmon-rose . . . per pkt. 6d.

NANA COMPACTA GRANDIFLORA, CECILY MIXED. A remarkably fine strain in great variety of colour 10/- oz., per pkt. 6d.

HORTENSIAEFLORE. A semi dwarf strain valuable for edgings and bedding. Flowers large and beautiful with large umbels of bloom. Choice mixed 7/6 oz., per pkt. 6d.

PERENNIAL PHLOX.

Herbaceous perennials, flowering in late Summer when other flowers are fading. Sometimes takes several months to germinate.

MIXED. An especially fine strain, saved from exhibition varieties per pkt. 6d.

PHYSOSTEGIA.

One of the finest hardy perennials, which is gaining in popularity as it becomes better known.

VIRGINICA ROSEA COMPACTA. Dense, compact bushes, bearing spikes of delicate pink, tubular flowers resembling a gigantic heather. Easily grown from seed, and blooms freely. Height 3ft per pkt 6d.

PHYSALIS.

FRANCHETTI. A fine variety of the showy Winter Cherry, so useful for Winter decorations. The fruit is bright red, enclosed in a semi-transparent bright orange-scarlet pod about 3 inches in length. In Spring, and if planted out, the plants grow about 1½ feet in height per pkt. 6d.

PLATYCODON.

GRANDIFLORA. A hardy perennial tuberous-rooted plant from Japan with enormous deep blue cup-shaped Campanula-like flowers. When in bud has an unusual appearance, the buds being inflated like a balloon. Height 18in. per pkt. 1/-

PLATYSTEMON.

CALIFORNICUM. A very showy and dwarf hardy annual with sulphur yellow Poppy-like flowers, which form a pleasant contrast with the greyish-green foliage. It may be sown either in Autumn or Spring, and is attractive in mixed border or rockery. Height 6in. per pkt. 6d.

POINCIANA.

GILLESII (The Bird of Paradise Tree). A hardy, lovely shrub with delightful ferny foliage. Racemes of flowers orange-yellow-red. Height 8ft. per pkt. 1/-

REGIA (The Royal Peacock Flower). A magnificent plant with bright scarlet flowers in racemes per pkt. 6d.

POLEMONIUM.

Popular herbaceous perennial, valuable for its early flowering.

COERULEUM GRANDIFLORUM. This variety has blooms nearly an inch across. Long spikes of blue flowers per pkt. 6d.

POPPIES (Annual & Perennial).

No garden should be without some of the varieties of Poppy. A considerable amount of attention has been devoted to them during recent years, with the result that many new and charming sorts have been introduced. Few plants are so easily cultivated, and give such a gorgeous display with so little care; many are admirably adapted for cutting, for which they are now in great request.

HARDY ANNUAL VARIETIES.

MIKADO. Striped Japanese Poppy. Flowers large, double; pure white, edges fringed with brilliant crimson scarlet. Height 2ft. . . per pkt. 3d. & 6d.

THE SHIRLEY. A splendid re-selected strain. This is the most popular of Poppies. The flowers are exceedingly graceful and elegant, and have a delicate silky appearance; they exhibit a wonderful variety of colours and are very valuable for general and table decoration, as the blooms, if cut young, will last for several days in water. Height 2½ft. per pkt. 3d. & 6d.

SUTTON'S QUEEN (new). A lovely strain of annual Poppies of the Shirley type, but the flowers are double and semi-double of delicate and brilliant colours, all showing yellow anthers. Hardy annual, 2½ft. high. Highly recommended. R.H.S. per pkt. 6d.

BEGONIA FLOWERED. Perhaps the best of the Shirley Poppies. Double flowers very large and yet dainty and beautifully fringed with a great range of many colours per pkt. 6d.

HARDY PERENNIAL VARIETIES.

RUPIFRAGUM. A beautiful new species of Poppy from Morocco. The orange-red flowers are thrown up from the plant on long stems, three or four blooms on a stem which open one after the other, resembling in appearance and habit of flowering Geums. Fine for rockeries and beds. Height 1 to 2ft. per pkt. 6d.

LATERITUM (new). A rare American Poppy, with enormous flowers of deep orange, tinted with roseate salmon. It blooms in December and January, is 12 inches high, and will grow in very dry places. Perennial . . . per pkt. 1/-

ORIENTAL POPPY HYBRID ART SHADES (new). An extra fine mixture of this popular perennial, including many shades of colour hitherto unknown, deepest purple to almost white, scarlet salmon rose, etc. Immense flowers . . . per pkt. 1/-

ICELAND POPPIES.

(SPECIALTY.)

The Nudicaule or Iceland Poppy Section is one of the finest. They are alike suitable for beds, masses or rockwork, are quite hardy, come into flower early, and give a great quantity of bloom throughout the whole season. For cutting they are invaluable. Although perennial, if sown early, will flower freely the first season. Height 1½ to 2½ft.

Our Strains are Unsurpassed.

ARTISTIC MIXED. The result of a cross between Sunbeam and Coonara. Most of the flowers have two or three rows of petals and the colours include many shades not seen before in this Poppy. Clear pink, cherry-red, deep rose, and numerous art tints impossible to describe .. per pkt. 6d.

BOLTON'S GIANT MIXED. Everything that is commonplace is eliminated in this strain (the ordinary yellows and whites are not included) but there is a range of new and hitherto unknown shades of blush, flesh and porcelain pinks, salmon, shrimp and radiant cerise, from terra-cotta, apricot, buff and amber and many subtle suffusions of transcending loveliness. The great size of flower and length of stem have been maintained, despite the wonderful colours per pkt. 6d.

UNWIN'S COONARA HYBRIDS (new). A glorified form of the popular Coonara and we believe the last word in Poppies of the Iceland class. Contains the same exquisite range of colours as the Coonara, but in the main the plants are far more vigorous, giving altogether longer, stouter stems and larger flowers. Embrace all shades—pink, salmon, biscuit, salmon-saffron, orange, scarlet, old gold, etc. per pkt. 6d.

SUNBEAM IMPROVED. A splendid strain, large beautiful flowers, borne on long stems, pure white, yellow, and glowing orange, with new tints of salmon, pink, and apricot, etc.; strong vigorous growers, h.b., 15in. Award of Merit, R.H.S. per pkt. 6d.

IMPERIAL JEWELS (new). A most lovely strain of Iceland Poppies, producing satiny crinkled flowers of delicate shades of pink with orange or salmon glow, salmon shaded blush, orange shaded cream, rose shaded pink, etc. 1ft. per pkt. 1/-

MUNSTEAD NEW ART SHADES. A fine extra selected strain of Papaver nudicaule producing graceful satiny flowers of beautiful delicate art shades, shell-pink, coral-rose, salmon, buff, pale lemon, yellow, orange and orange-red, 1ft. As cut flowers they are greatly prized. per pkt. 1/-

COONARA PINK. A charming strain of the Iceland Poppy raised by an amateur in Australia, producing lovely flowers in shades of rose and pink. 1ft. per pkt. 6d.

THE EMPEROR (new). Brilliant tangerine orange. Extra large flowers on long stiff stems. Excellent per pkt. 1/-

DOUBLE MIXED. A choice mixture of double and semi double sorts of these showy cut flowers per pkt. 6d.

GARTFORD GIANTS (1939 strain). Australia's outstanding Poppy. A further re-selection gives a still wider colour range, larger blooms and an increased stamina. As a cut flower this strain holds its place in competition with all others. In two-colour blendings, ART TONES: pinks, creams, lime, apricot gold, old gold, bronze, salmon, etc., with edgings and zonal shadings; DAFFODIL TONES: parchment, lime, cream, lemon, chrome and buff, both in two-toned effects and self colours, and CHOICEST MIXED. A well-proportioned blending of the above with tango shades included. Each variety, per pkt. 1/-

GIANT APRICOT (new). This choice mixture of apricot shades has caused great pleasure to our friends who grew it last year. Very large blooms. Sturdy, wilt-resisting plants. Specially selected seed per pkt. 1/-

GOLDEN WONDER (new). This new, very large flowered Poppy is an excellent mate to the "Empress," which it closely resembles in all but colour. The stems are unusually long and wiry, 24 to 26 inches in length, and the flowers will keep as long as 10 days when cut. It is somewhat later blooming than other varieties, much more heat and drought resistant, and comes 100 per cent. true to colour. The flowers are produced freely, making it a very showy subject in the garden, as well as a profitable variety for the cut flower trade. Special mention all American flower selections per pkt. 1/-

ICELAND POPPIES (Continued).

LAVENDER TINTS (new). A distinct break in colour from the famous Fakenham Hybrid Iceland Poppy. Extra large blooms on long strong stems. The colours are all Pinky Lavender shades, ranging from pale to deep. These shades we now offer have never before been seen in Iceland Poppies, and will soon become great favourites with lovers of this useful and graceful flower. Particularly effective in warm districts. per pkt. 1/-

ORANGE GIANT (new). Probably the largest orange Iceland Poppy offered to date. Flowers are huge and can be grown easily up to 7 inches. Fine for exhibition and cut flower. per pkt. 1/-

THE EMPRESS (new). This Poppy is exceptionally fine, and stands out quite in a class by itself. It is the finest strain of salmon rose and pink shades yet produced, with large flowers composed of broad overlapping fluted petals, many blooms having extra petals. The colours are all shades of salmon, rose and pink. Stems are very wiry, 18 to 22 inches in length, making the flowers very suitable for cutting. The strain is very true and early flowering. 1/16th oz. 3/6, per pkt. 1/-

WATSON'S GIANT RED (new). A Victorian-raised strain for the flower-grower. Strong sturdy habit, blooming for months. Large flowers on strong, sturdy stems, a telling shade of tangerine red. Fine for market per pkt. 1/-

POLYANTHUS.

Few plants are more useful for Spring and early Summer blooming than the Polyanthus; they make a very fine display in beds or used as edgings, whilst for cutting they are invaluable, and can be raised from seed with but little trouble. Sow in early Summer in prepared seed beds in the open, lining out the seedlings when strong enough to handle, afterwards planting where they are intended to flower. Hardy perennial; height 9 inches.

GOLD LACED. Flowers of good form with distinct golden margins per pkt. 1/-

LARGE FLOWERED, FINEST MIXED. Plants of good habit, flowers large, splendid range of attractive colours per pkt. 1/-

LARGE FLOWERED BLUE. Very select strain per pkt. 1/-

LARGE FLOWERED CRIMSON. Very select strain per pkt. 1/-

LARGE FLOWERED WHITE. Very select strain per pkt. 1/-

LARGE FLOWERED YELLOW. Very select strain per pkt. 1/-

BRIGHT EYES. A new giant flowered variety in which the colour of the flowers varies from yellow to orange; a large proportion have a distinct scarlet eye and fluted petals. Foliage is strong and mostly a grey-green colour. A very fine strain per pkt. 1/-

SPETCHLEY STRAIN (novelty). One of England's finest strains. Of robust growth, with very large flowers ranging through a great variety of shades of beautiful colours and art shades. Extra selected strain. Award of Merit, R.H.S. Height 6in. per pkt. 1/-

PORTULACA.

Lovely half-hardy annuals, which produce a brilliant carpet of colour. They delight in sunny positions and light soils. Charming for front of flower borders or on rockwork, height 6 inches.

SINGLE VARIETIES. Finest mixed .. per pkt. 3d.

DOUBLE VARIETIES. Finest mixed .. per pkt. 6d.

SUNBURST. Double golden yellow .. per pkt. 6d.

THE TULIP. Double crimson .. per pkt. 6d.

GOOD CHEER. Double rose .. per pkt. 6d.

BEAUTY. Double salmon .. per pkt. 6d.
(The above four special varieties make an exquisite show when massed or as edgings.)

BUSH DOUBLE. A new variety of Double Portulaca with double flowers in all the popular shades, but instead of a creeping habit the stems stand upright. Mixed colours per pkt. 6d.

POTENTILLA.

Very useful and showy hardy plants for the herbaceous border, continuing in flower for a long period. Hardy perennial Height 1 to 2 feet.

MISS WILLMOTT. A beautiful and very free flowering variety with bright carmine rose flowers per pkt. 6d.

FIREFLAME. A splendid rockery plant with rich scarlet flowers. Height 18in. per pkt. 1/-

THURBERII. Rich crimson flowers and attractive silvery foliage per pkt. 1/-

WARRENSII. A plant of special merit with bright yellow flowers. Height 2ft. per pkt. 6d.

PODRANEA.

BRYCEI (new). A pretty creeper from Africa with large rose-pink tubular flowers. A welcome addition to our not so numerous list of climbing plants per pkt. 1/-

PRIMROSE.

Amongst early Spring flowering hardy perennial plants the hybrid Primroses occupy a prominent place; they make a grand display in the mixed border, wild garden or rockery.

CHOICE HYBRIDS, MIXED. A fine strain of rich and varied colours per pkt. 1/-

HYBRID BLUE. Shades vary from lavender to deep violet. The flowers are produced abundantly, well above the foliage, and are fully equal in size, substance, and duration to any other Primroses per pkt. 1/6

COMMON YELLOW. A well-known charming variety. Height 6in. per pkt. 6d.

PRIMULA.

SINENSIS, CRIMSON KING (new). One of the darkest crimson Primulas in existence. Comes into bloom early in the season, and maintains a continuous display during Winter months. A fine pot plant per pkt. 1/6

SINENSIS, SUPERB MIXED. A fine strain of fringed Chinese Primula with a splendid range of bright colours. Splendid for pots. Winter blooming. per pkt. 1/6

SINENSIS, DOUBLE MIXED. Very large flowered strain of fringed Double Chinese Primulas in all the latest colours per pkt. 1/6

STELLATA. A favourite form of Primula Sinensis, and still increasing in popularity each succeeding year. All the plants possess that graceful loose habit which has made this class of Primula so highly prized in the house and conservatory, as well as for table decoration. Mixed colours per pkt. 1/6

STELLATA, SAMUEL RYDER (novelty). The buds of this beautiful novelty are in unfolding of a bright orange scarlet, developing into a bewitching shade of pure orange salmon, with a canary yellow eye. The colouring is maintained until the flower drops. The latter are larger and more fringed than in the ordinary Stellatas, and the plant has the same habit of bearing them in successive whorls. Fine for semi-shade per pkt. 1/6

STELLATA, PRINCESS MARINA (new). A valuable and easily grown variety of the Star Primula. The colour is beautiful pale rose. Quite hardy, and will do outside in shady position. For cut blooms it is unequalled, producing an abundance of flowers per pkt. 1/6

OBCONICA GIGANTEA MIXED. Flowers are of large size nearly 1½ inches across and produced in large umbels in the greatest profusion. The leaves are round, thick and leathery with crimped margins per pkt. 1/6

OBCONICA APPLE BLOSSOM. A charming colour per pkt. 1/6

VEITCHII. A charming species from China with large lobed leaves, large heads of bright rose purple flowers, very showy, hardy perennial, height 1 foot. Should be afforded some light protection in Winter per pkt. 1/6

FLORINDAE (new). A giant Cowslip from Tibet, with large heart-shaped foliage and large trusses of very fragrant sulphur yellow flowers. First-Class Certificate, R.H.S. Hardy perennial. Height 3 to 4ft. per pkt. 1/-

PRIMULA MALACOIDES.

This new race of Primroses from the mountains of China has proven most profuse-flowering for pot culture. The plants form rosettes of light green leaves, from which numerous wiry stems—8 to 10 inches in height—gracefully carry whorls of flowers ½ to ¾ of an inch across. They are easily grown from seed and commence flowering in about four months from sowing and continue to bloom in increasing profusion for many weeks. A cool situation or in the conservatory suits them to perfection.

TRUE ROSE. The name truly describes the colour of this popular and showy flower. A fine true rose pink with masses of bloom, and robust habit. Makes a splendid show as an edging round the Cineraria bed per pkt. 1/-

DAWKINS' CARMINE PINK. This new variety is absolutely distinct from all others in the Malacoides Section. The habit of the plant is perfect, and it flowers with the utmost freedom. The colour is deep and rich glowing carmine pink per pkt. 1/-

BRIGHTNESS (new). A welcome addition to this popular flower. For shady spots it cannot be excelled. Covered with flowers of deep glistening rose in large racemes per pkt. 1/-

DAWN (new). Quite distinct from "Brightness" this free flowering Primula has flowers of clear bright salmon pink without trace of rose or lilac. Splendid for window boxes and edgings per pkt. 1/-

MALACOIDES (TYPE). Flowers of a delicate shade of lavender, produced in whorls on tall graceful spikes in great profusion per pkt. 6d.

DOUBLE CRIMSON (new). A fine double crimson form of the well-known easily grown Primula Malacoides. Makes an excellent edging to the flower bed per pkt. 1/-

SPLENDOR (new). This new variety is unequalled as regards its intensity of colour, and makes a delightful display. It is an entirely new shade, being a deep reddish purple. The plants are of compact habit and flower very freely. The seed offered is the original imported from the raiser, and can be confidently recommended per pkt. 1/-

PYRETHRUM.

ORNAMENTAL FOLIAGED VARIETIES.

Although these are hardy perennials, they are usually treated as half-hardy annuals, and the finest coloured foliage is always produced from seedlings.

AUREUM (GOLDEN FEATHER). Yellow foliage per pkt. 3d.

AUREUM GOLDEN MOSS. The plants form small round mossy bushes, of a bright golden yellow, 4 to 8 inches across and 2 to 3 inches high, the leaves are small and finely cut; this variety has the great advantage that it does not flower at all the first year per pkt. 6d.

FLOWERING VARIETIES.

Handsome plants for mixed borders, greatly in demand for cut bloom. Sow in Spring, grow on the seedlings and transplant to flowering quarters in early Autumn. Height 2 feet.

DOUBLE MIXED. Our seed is saved from the best double named varieties, but a proportion will come single per pkt. 1/-

SINGLE MIXED. Choicest colours per pkt. 6d.

JAMES KELWAY. Beautiful deep scarlet, single, fine for cutting per pkt. 1/-

LANGPORT SCARLET. Extra, large single, bright vermilion red, magnificent flower for decoration per pkt. 1/-

ROSEUM. An intense rose pink on extra long stems, very good for cutting per pkt. 6d.

RANUNCULUS.

GIANT FLORENTINE. These new hybrids are quite distinct from any other Ranunculus both in size of flower and variety of colour. They attain a height of 18 inches to 2 feet and are of strong and vigorous habit. Sow thinly in good turfy loam with a little well rotted stable manure; water carefully; protect from frost, and keep free from weeds. Seedlings will generally bloom the first year, but are at their best the second year, grown out of doors from roots formed the first year per pkt. 1/-

RANUNCULUS (Continued).

TELECOTE GIANTS (novelty). The largest and most magnificent strain ever offered. Giant double and semi-double Peony-like flowers. Yellow from straw through all shades to deep golden yellow; reds, including dark crimson, scarlet, orange red, and all other shades of red; orange, pink—in fact, every desired shade is included in this mixture. A very fine race. The plants are particularly robust and floriferous. Extra fine for cutting. Secure a few packets of this new strain per pkt. 1/—

GIANT MASSEY STRAIN (novelty). A new strain of this lovely Spring flower. Wonderful colours of apricot, tangerines, oranges—in fact, almost every colour—is now included in this mixture. Easily grown. The large flowers are borne on splendid long stems up to 24 inches long. Superb for cutting and the garden $\frac{1}{2}$ oz. 3/6, per pkt. 1/—

REHMANNIA ANGULATA.

A very fine hardy herbaceous perennial from Central China, which makes a good subject for greenhouse or conservatory decoration. The flowers are bright rosy purple with yellow throat spotted deep purple, produced in loose spikes. The plant is of easy cultivation and continues to bloom for months. Height 4ft. per pkt. 1/6

RIVINA.

HUMILIS. An ornamental greenhouse perennial which, if sown early, will flower the first year from seed. It produces racemes of white flowers, succeeded by small bright red berries, like red currants, height 18 inches. Sow in Spring, thin out the seedlings and pot on. As the plants increase in size they should be gradually hardened per pkt. 1/—

RUDBECKIA.

KELVEDON STAR. A new hardy annual with a perfect long-stemmed flower for cutting. The flowers vary both in form and colouring, but all have dark brown central discs, surrounded by shining mahogany zones, on petals of deep orange. It should be sown in Spring, and the seedlings planted about November. It is a strong grower, reaching 3 feet in height, and should be planted 18 inches to 2 feet apart. It will continue in bloom till cut down by frost per pkt. 6d.

HIRTA HYBRIDS (new). For a hardy, easy-to-grow cut flower, the new Hirta Hybrids are excellent. The flowers are all large and single in a mixture of attractive shades, ranging from deep mahogany through lighter bronze, deep and light shades of orange to yellow. None of the flowers have a centre zone, but are a pure solid colour. The plants are 1½ to 2 feet in height, and have several stems of flowers coming on throughout the Summer. These Hybrids are annuals, and grow easily from seed sown in Spring, flowering in about five months from sowing. Excellent for the warmer States per pkt. 1/—

MONPLAISIR. Deep chrome yellow. Large flowers, fine for cutting. Long wiry stems . . per pkt. 6d.

ROMNEYA.

TRICHOCALYX. A fine variety of the Giant White Californian or Matilija Bush Poppy, a most lovely plant for warm situations out of doors, producing in Summer very large fragrant snowy white crinkled flowers, with golden-yellow stamens; foliage deeply cut and glaucous, freer blooming than R. Coulteri. Hardy perennial. Height 4ft. per pkt. 1/—

COULTERI (Giant White Californian Bush Poppy). Very large snowy white flowers, with golden stamens. Height 4ft. per pkt. 6d.

ROSE.

HYBRID PERPETUAL MIXED (new). This strain is saved from splendid named sorts of hybrid perpetual varieties. Colour range will be from white, bluish-pink, rose, red, crimson, maroon, salmon, etc. Will throw 75 per cent. of double flowers. Some should be worth naming. Growing garden Roses from seed is not difficult. Seed germinates in two months and plants begin to flower six months later, coming to maturity in two or three years per pkt. 1/—

RUMEX.

FLEXUOSUS. A most ornamental and effective low growing perennial plant for borders, etc. It gives a continued and unbroken display of foliage in a pure burnished coppery red colour per pkt. 1/—

ROCK PLANTS.

FINEST PERENNIAL MIXED. Mixture composed of all the different varieties suitable for rock gardens per pkt. 1/—

ROSCOEIA.

CAULTIOIDES (new). A rare and pretty plant from China, producing soft, yellow orchid-like flowers in early Summer. A hardy perennial, growing to the height of 1ft. Can be used also for rockery per pkt. 1/—

SAINTPAULIA.

IONANTHA. A very interesting greenhouse perennial, about 4 inches in height, easily raised from seed. Its deep violet-blue flowers are produced with great freedom throughout the Winter, per pkt. 1/6

SALPIGLOSSIS.

Autumn flowering half-hardy annuals, of easy culture and splendid for cutting. Every season finds them more popular.

EMPEROR. This variety produces extra large flowers, all richly veined with gold, and with wide open throat. A great improvement on the older types per pkt. 6d.

EMPEROR "BLUE AND GOLD" (new). A lovely large flowered Salpiglossis with light blue flowers, beautifully veined with gold. Makes a splendid bedding subject, and is excellent for cutting. Height 3 feet per pkt. 6d.

GLOXINIAFLORA (new). A special selection of the Painted Tube Tongue made by a French hybridiser. The flowers are large and fancifully veined in contrasting shades. Flowers last in water better than on the plants . . per pkt. 6d.

TOM THUMB (new). A bright mixture of this orchid of hardy annuals. Not tall, like ordinary strains, but dwarf, growing a foot high. A fine addition to our list of edging plants. Fine for edging a bed of Phlox, Stocks, the taller Salpiglossis, or Zinnias. . . . ½-oz. 2/—; per pkt. 6d.

SCILLA.

SIBIRICA (new). A dainty Bluebell from Siberia. Very hardy. The color of the flowers is a vivid and distinctive coerulean indigo . . per pkt. 1/—

SALVIA.

Valuable half-hardy perennial plants. The Splendens varieties are exceedingly useful plants for garden decoration.

SPLENDENS BONFIRE. Invaluable for decoration, the intense glowing scarlet flowers produce a magnificent effect per pkt. 6d.

SPLENDENS FIREBALL. Forms dwarf compact bushes, covered with long spikes of brilliant scarlet flowers, splendid bedder per pkt. 6d.

SPLENDENS HARBINGER. One of the outstanding attractions of this fine variety is the fact that it flowers so much earlier than all others. From seed, the plants commence to produce a profusion of their long spikes of dazzling bright scarlet flowers early. The plants are dwarf and compact in habit, and the strong dark foliage forms an effective foil to the vivid colour of the flowers. It makes a fine pot plant, A.M., R.H.S. per pkt. 1/—

HIANS A rare perennial Salvia of dwarf habit not generally exceeding 15 inches in height. It branches very freely and forms a compact bush. The flowers are very large, quite exceeding those of Salvia Patens in size, and are a rich deep blue with distinct white lip. It is a native of Cashmere, India, and should do well in Australia. Quite hardy and makes a wonderful pot plant as well as a splendid bedder per pkt. 1/—

SALVIA (Continued).

FARINACEA. This well deserves to be extensively used in the flower garden, where it will produce a most attractive display during late Summer. It is of erect branching habit, and is most effective when planted in fairly large groups. The flowers of a light lavender blue are produced on long elegant spikes and are most useful for cutting. Hardy annual, height 3 feet .. per pkt. 6d.

FARINACEA BLUE BEDDER. A more compact form of the preceding with deeper blue flowers, very fine. Half-hardy annual, height 2 feet. A.M., R.H.S. per pkt. 1/-

DICHROA MAGNIFICA. A new and vastly improved form of the preceding. A handsome stately plant, some 3 feet in height, and bears long, elegant spikes of flowers of a pure deep lavender, well set off by the white mid-lobes. We strongly recommend this splendid introduction as a choice hardy perennial for the herbaceous border .. per pkt. 1/-

PATENS. A large brilliant Gentian-blue flowers. A well-known and most beautiful half-hardy perennial; flowers the same season from seed. It produces tuberous roots, height 2 feet per pkt. 1/-

PRATENSIS ROSEA IMPROVED (new). An improved rose coloured form of this very fine perennial Salvia, which flowers in December and freely produces spikes of bloom about 1 to 1½ feet long .. per pkt. 1/-

SPLENDENS "PLUMOSA" (new). Known as the feathered Salvia on account of its plume habit, it produces 10 to 15 small and large spikelets of scarlet bloom which are about 2 feet high. Very fine and distinct .. per pkt. 1/-

SPLENDENS "ROCKET." A new extra early flowering variety, blooms about four weeks earlier than "Bonfire." It is a fine bedding sort of dwarf, compact growing habit, and blooms very freely. Colour is bright vermilion scarlet per pkt 1/-

SPLENDENS "SALMON PLUME" (new). The colour is a nice shade of salmon, dwarf strong grower, does not turn colour in the sun. A grand variety for border and pots .. per pkt. 1/-

GLOBOSA (new). A white Salvia growing about 2 feet 6 inches high .. per pkt. 6d.

JURISICI A splendid perennial species with large flowers of violet blue, a very rich shade. It has pinnate foliage of deep green, and is quite unlike other Salvias .. per pkt. 1/-

TURKESTANICA. A handsome hardy border plant, with bright pink flowers and bracts, strikingly effective. Hardy biennial, height 3ft. per pkt. 6d.

SANVITALIA.

PROCUMBENS, DOUBLE. A charming dwarf hardy annual, of trailing habit, very suitable for edgings or rock work. Flowers yellow with dark centre, most attractive, height 4 inches .. per pkt. 6d.

SAPONARIA.

Most valuable free flowering hardy annuals for massing, edgings, etc., continuing long in bloom. Thrive best in poor soil, height 6 inches.

VACCARIA Pretty pink gypsophila-like flowers, fine for cutting, indeed, may be used for mixing with other flowers in the same way as the annual Gypsophila. An annual which is most certainly worth a trial by those who do not know it, height 2 feet .. per pkt. 6d.

SCABIOSA.

The beauty of the Caucasian Scabious as a border perennial is much appreciated; will bloom first year if sown early, is splendid for cutting; thrives well in almost all soils, height 2 feet.

CAUCASICA. Lilac .. per pkt. 6d.

PERFECTA A semi-double variety, flowers borne on long stalks, and vary in colour from light to deep azure blue, valuable for cut bloom per pkt. 1/-

CAUCASICA, HOUSE'S STRAIN. The flowers exhibit many new shades of this favourite Scabious. The raiser has made a feature of it at most of the principal flower shows during the past few years, and it has been greatly admired. The seed we offer is saved from named varieties .. per pkt. 1/-

SCABIOSA (Continued).

FISCHERI (new) A fine new border plant from Manchuria, hardy and truly perennial, growing about 20in. high, with handsome divided leaves and flowering well in to the Autumn. The flowers are about 2½in. in diameter, borne on long stiff stems, and are a rich deep violet blue shade, unlike that of any other Scabious. This handsome plant, which grows about 2½ft. high, will make an excellent addition to the herbaceous border, and furnish first-rate material for cutting. A.M., R.H.S., 1935 .. per pkt. 1/-

SCABIOUS.

Most attractive hardy plants; flowers produced in great profusion; invaluable for cut bloom. They are usually treated as hardy annuals and flower freely the first season, height 2½ feet, unless otherwise stated.

LARGE FLOWERED, MIXED. Flowers very large and of finest form and colours, plants of compact habit .. per pkt. 6d.

AZURE FAIRY. A very lovely colour, rich pale blue; almost the same shade as the perennial S. Caucasica, one of the best. A.M., R.H.S., .. per pkt., 3d. and 6d.

BLUE COCKADE. This very fine new variety is deeper in colour than Azure Fairy, but the flowers are entirely devoid of any suggestion of rose. They are, in fact, the purest deep azure blue that can be found in any annual. The flowers are of fine form, and carried on strong stems, which make them of the greatest usefulness for cutting. Award of Merit, R.H.S. per pkt. 6d.

CHERRY RED. Glowing shades of red per pkt. 6d.

ROSETTE (new). As a result of many years selection and painstaking care, a glorious new colour in Annual Scabious has been created. "Rosette" is a beautiful shade of deep rose, heavily suffused with salmon. The flowers are extra large and long and stiff. This glorious new colour will undoubtedly make it a most popular flower for the garden and also with the florist for cutting .. per pkt. 6d.

SHASTA DAISY.

MARION COLLIER (new). A fine English variety of Chrysanthemum Maximum. Instead of the usual plain petals, the flowers bear three rows of pure white fringed petals, making the flowers extremely attractive. Many English flower growers consider it among the best of Summer flowers, as it blooms over a long period Hardy perennial .. per pkt. 1/-

DIENER'S GIANT DOUBLE (new). This seed is saved from giant double flowers, and will produce a large percentage of double and semi-double blooms of pure white and creamy white. The singles produced have curled and quilled florets .. per pkt. 1/-

BALL'S RESELECTED. Very large single flowers with very small disc .. per pkt. 6d.

SCHIZANTHUS.

This group of annuals has been greatly improved in recent years, not only in size of flower and richness of colour, but in habit of plant as well. They are exceedingly popular and are grown in almost every garden for greenhouse decoration in Spring and early Summer. The flowers are charming when cut, and last well in water.

DR. BADGER'S HYBRIDS. The plants of this fine strain are more robust and the flowers much larger than any other variety; the blooms, which are of great substance, measure from 1½ to 2in. across and display an endless variety of colour, whilst the foliage is bright green, fern-like, and very handsome .. per pkt. 1/-

WISETONENSIS EXCELSIOR. A wonderfully fine strain of compact growth; the plants flower most profusely, the colouring varies from almost white with a yellow eye to a full rose with a bronzy brown centre. Very effective and lasting when cut .. per pkt. 1/-

SUTTON'S PANSY FLOWERED. The latest sensation of the hybridist, this new creation of Sutton's is extremely large flowered and very floriferous, the flowers being borne in big spikes. As its name suggests, the flowers have quite a resemblance to a pansy, and the strain includes a great variety of brilliant colouring. Compact habit. Fine for pots and exhibition per pkt. 1/6

SESBANIA.

TRIPETII. A hardy perennial small shrub with striking flowers in sprays, pea-shaped. Delightful shade of orange scarlet or tango. Known as the Brazilian Glory Pea. Sow Autumn or Spring. 8ft. per pkt. 1/-

SENECIO.

CLIVORUM, ORANGE QUEEN. This hardy Senecio grows four feet high and bears brilliant orange flowers over a long season per pkt. 6d.

ARENARIUS, MIXED RE-SELECTED (new). Sometimes called the Annual Cineraria and it is a close relative of the florists' Cineraria, and very like it in effect. The blossoms are in vivid rose, lilac, lavender, violet and purple, and blooms for many months. This mixture embraces many new and vivid colours. Height about 18in. per pkt. 1/-

SHORTIA.

CALIFORNICA. Makes a most attractive edging plant. The small golden, daisy-like flowers are produced in the greatest profusion. Also fine for the rockery. Height 9in. per pkt. 6d.

SIDALCEA.

NEW HYBRIDS. A much improved strain of these fine perennials which received a Certificate of appreciation from the Royal Horticultural Society. The range of colours is remarkable, embracing shades of clear satin pink, deep rose, salmon, lilac, heliotrope, to deep mahogany red. The plants commence flowering early and give a fine display Height 3 to 5 feet per pkt. 6d.

SILENE.

SCHAFTA. A beautiful species of trailing habit which flowers at a season when most alpine are over. It is most effective when massed, and should be planted in a warm sunny position. The bright purplish rose flowers are produced with the utmost freedom. It is easily raised from seed. A fine rock garden plant, and beautiful on the top of a dry wall; also useful in the flower border. Hardy perennial, height 6 to 8 in. per pkt. 6d.

SEDUM.

ASSORTED VARIETIES. A splendid mixture of these indispensable rock and border perennials of the easiest culture, thriving where other plants refuse to grow without care and attention. Charming foliage and flowers in many bright colours, height 3 to 6in. per pkt. 1/-

SOLANUM.

CAPSASTRUM. Small white flowers followed by pretty red cherry-like fruits. Makes a fine Winter pot plant per pkt. 6d.

FRA DIAVOLO (new). Forms a many-branched, compact, round bush with light green foliage. Its beautiful scarlet red fruit are freely produced over a long period. Fruits are somewhat smaller than Solanum Capsastrum, but are produced in larger quantities. Makes also a very ornamental Winter pot plant per pkt. 1/-

SMILAX.

Smilax is everywhere recognised as one of the most graceful twining plants in cultivation. It is indispensable to florists for table and house decoration. If planted in Spring, it makes a fine pot plant for the Autumn and Winter.

MYRISPHYLLUM ASPARAGOIDES. Glossy, dark green foliage, used largely with cut flowers in wreaths, vases, and fancy baskets. The long delicate sprays of foliage will keep without wilting for days after being cut per pkt. 6d.

STATICE (Sea Lavender).

Hardy annuals now so popular for cutting purposes. The flowers are valuable when dried for Winter decoration. They are also showy for borders, Height 12 to 18 inches.

ARTISTIC (novelty). A splendid mixture of Art shades in the popular Statice Sinuata, embracing very many shades not previously seen in Statice, the colours being salmon, buff, cherry, lavender, orange, apricot, crushed strawberry, etc., etc. per pkt. 1/-

STATICE (Continued).

MARKET GROWER'S BLUE. The ideal blue, deep, but rich intense colour, large heads of flower per pkt. 6d.

SINUATA ROSEA SUPERBA. Branching stems covered with bright rose flowers. Biennial, but should be grown as a hardy annual per pkt. 6d.

BONDUELLI. A free blooming annual variety in bright lemon yellow, ideal for mixing in decorative bouquets per pkt. 6d.

Perennial Varieties.

LATIFOLIA. Splendid hardy perennial variety, of clear deep lavender-blue. The flowers when dried by hanging with heads down are useful for Winter bouquets per pkt. 6d.

CASPIA. A new hardy perennial variety of graceful pyramidal habit. The colour is a delightful lavender blue and its graceful form renders it an ideal filler for bouquets and will be extensively used by florists for all cut flower work per pkt. 6d.

STRELITZIA.

REGINAE. A tall growing plant and extremely hardy, growing to a height of 4 feet. It makes a great show in the sunny border with its quaintly shaped blue and orange flowers, in form somewhat like the head of a giant bird, borne on stems about 3 feet. Fine for cutting. Individual flowers bring good prices, and last weeks in water per pkt. 1/-

STEPHANOTIS.

FLORIBUNDA. The Madagascar Jasmine. A climber requiring a warm position. Flowers of the purest white, highly fragrant, borne freely in large bunches. Highly valuable for cutting purposes per pkt. 1/-

STEVIA.

SERRATA. Free blooming plants bearing a multitude of fragrant pure white blossoms, suitable for Autumn and Winter blooming. Fine to mix with other cut flowers. Height 2ft. H. perennial per pkt. 6d.

STOKESIA.

Hardy perennials of easy culture. Blooms quickly from seed. Plants grow from sixteen to twenty-four inches high.

CYANEA. Beautiful large flowers of a fine cornflower blue, of great value for cutting per pkt. 6d.

STOCKS.

The stocks represent all the desirable qualities of a flower. The plants have good habit, fine dull or glossy leaves. The flowers appear on long stiff stalks like small rosettes, are exceedingly fragrant and range through a most complete scale of all the soft and distinct shades.

Winter Beauty or "Giant Nice."

The plants are of fine symmetrical habit, bushy, and in flower stand about 1½ to 2 feet in height. The numerous side branches each carry a tall strong spike well furnished with unusually large and very double deliciously clove-scented flowers. As cut flowers "Beauty" Stocks are unsurpassable; their splendid trusses of bloom lend themselves to table and other floral decorations.

Finest Mixed, a well blended mixture 2/6 ½ oz.

per pkt. 6d.

Abundance, rosy-lilac per pkt. 6d.

Almond Blossom, white, shaded carmine per pkt. 6d.

Aurora, buff suffused rose per pkt. 6d.

Beauty of Nice, a delicate shade of flesh-pink per pkt. 6d.

Beauty of Naples, old rose colour per pkt. 6d.

Crimson King, brilliant crimson per pkt. 6d.

Heatham Beauty, bright rose per pkt. 6d.

La Brillante, crimson, dwarf and very early per pkt. 6d.

Light Violet, beautiful colour per pkt. 6d.

Lloyd George, blood-red per pkt. 6d.

Nuit d'ete (Summer Night), dark blue per pkt. 6d.

Parma Violet, a very delicate colour per pkt. 6d.

President Wilson, dark lilac or slate-blue per pkt. 6d.

STOCKS (Continued).

Queen Alexandra, rosy-lilac per pkt. 6d.
 Rose of Nice, carmine-rose per pkt. 6d.
 Rose Queen, brilliant rose per pkt. 6d.
 Salmon King, bright salmon-rose . . per pkt. 6d.
 Snowdrift, very early, pure white . . per pkt. 6d.
 Yellow of Nice per pkt. 6d.

Giant Excelsior Column.

In this fine new race, each plant produces one magnificent flowering spike only, about 2 to 2½ ft. high. The individual flowers are very large. They present a truly magnificent appearance growing as specimens or when massed. Useful to the exhibitor and market grower.

Blood Red . . 1/- White . . 1/-
 Rose 1/- Mixed . . 1/-

GOLDEN WONDER This novelty is really golden yellow, and must not be confused with the yellow Stocks already existing. The habit of the plant is ideal in its compactness, forming symmetrical bushes 9 inches in height per pkt. 1/-

SILVER PINK (new). This is a beautiful silvery pink Stock with handsome spikes. A new colour in the Winter Beauty class per pkt. 1/-

LILAC ROSE (new). An exceptionally pretty colour in the double Winter Stocks. Fine for cutting, sweet scented per pkt. 1/-

SUNSET OF NICE (new). Plants are pyramidal in shape and come into flower as early as the Ten Week Varieties. Colour is rosy carmine, shaded gold per pkt. 1/-

HERMOSA (new). A cut and come again variety, very early blooming. The colour is a lovely old rose, a new colour in this class, and a fine addition to the group per pkt. 1/-

BROMPTON "DAWN OF DAY" (new). A novel and distinct shade of colour in this class. A very soft and pleasing lilac pink. An additional attraction is the fact that the few single flowers are exceptionally attractive. Highly perfumed per pkt. 1/-

STREPTOCARPUS.

KEWENSIS GIANT MIXED (new). Fine greenhouse and decorative subjects, producing a continuous succession of trumpet shaped flowers in colours ranging from pure white through lavender, purple violet, pink, rose and red to rich rosy purple. These plants are as easily raised from seed as Primulas or Cinerarias, and bloom for practically 9 months of the year per pkt. 1/6

STRAWBERRY (Runnerless).

BARON SOLEMACHER (new). This new variety has gained remarkable popularity in Germany, and is a decided improvement on hitherto existing sorts. The following description is to hand from an American grower. He says: "Were it not for the fact that it is offered by seed houses of the highest standing, a description of the new Bush Strawberry, "Baron Solemacher," would read like the advertisement of an old-time seed fakir. Strawberries that fruit the first year from seed, sound too fantastic to be true. Yet I have actually seen plants only twelve weeks old bearing fruit in quantity. This new variety bears fruit about as large as those of the average everbearing Strawberry, but of such superb flavour that only the true wild Alpine species can equal them. This new Strawberry makes no runners, and when renewal is necessary it must be obtained from seed, which comes about 90 per cent. true to type. Its value, however, does not end with its fruiting qualities. I have discovered that it is perfectly at home in the flower garden as well, where it serves as a novel and beautiful edging. The bright shining red fruits gleam like rubies among the deep green leaves, and make a picture that would grace any garden" per pkt. 1/-

BARON SOLEMACHER YELLOW-FRUITED (novelty). A yellow-fruited counterpart of the above, except that the fruit is of even more attractive flavour per pkt. 1/-

SUNFLOWER.

These improved types of Sunflower are really gorgeous, and many of the smaller flowering varieties are excellent for cutting. Annuals.

DOUBLE CALIFORNIAN. Produces magnificent heads of golden yellow flowers. Blooms quickly and flowers till frost per pkt. 6d.

MINIATURE STARLIGHT. Sulphur-yellow flowers, twisted like a Cactus-Dahlia. Ideal for cutting per pkt. 6d.

STELLA (Improved Miniature Sunflower). This fine single variety grows only three feet high, and bears a profusion of fine blooms three inches across. Flowers are rich, golden yellow. Splendid for cutting per pkt. 6d.

PRIMROSE OR SULPHUR GEM. A distinct and beautiful variety of free-blooming habit. The ray florets are primrose coloured, while those of the disc are dark per pkt. 3d.

NEW RED SUNFLOWER. This bears numerous, handsome, dark-centred flowers, banded with bright chestnut-red, merging to yellow at the tips of the petals. They are easily grown, and bloom in about eight weeks from seed per pkt. 6d.

MAMMOTH RUSSIAN GIANT. This is the largest of all Sunflowers, producing numerous heads of large bold flowers. They grow from ten to twelve feet high per pkt. 3d.

SWEET WILLIAM.

These old and well-known Hardy Biennials make a striking display in the garden in early Summer and continue in bloom for a considerable time. Our strains of Pink Beauty and Scarlet Beauty are specially fine. For a bed of mixed colours, Perfection will give excellent results. Height 1½ feet.

PERFECTION. A superb variety, the flowers of which are richly marked; the range of colours is very varied and beautiful per pkt. 6d.

DARK CRIMSON. Very deep crimson flowers with dark coloured foliage, distinct per pkt. 6d.

PHEASANT'S EYE. Fine heads of dark crimson flowers, each with a clear white eye, very showy per pkt. 6d.

PINK BEAUTY. Deep salmon-pink. A most pleasing and highly popular variety, the plants remain in perfect condition for a long time per pkt. 6d.

SCARLET BEAUTY. An intensely rich deep scarlet selection out of Pink Beauty. Almost identical in colour with the Grenadin Carnation per pkt. 6d.

NEWPORT PINK (new). A fine strain and distinct colour—water melon pink. A wonderful bedder or edging plant per pkt. 6d.

ANNUAL MIXED. This class grows about 9 inches in height with flowers of good size, well marked. Seed sown in early Spring or Autumn, will bloom first year per pkt. 6d.

SUTERA.

GRANDIFLORA (novelty). The Wonder Shrub. Makes fine sturdy bushes about 3ft. high, covered with light blue flowers resembling phlox. Plants raised from seed have been in flower in six months, continuing in bloom all Autumn, Winter, Spring. Wonderful for cutting. Perennial per pkt. 2/6

SWEET WIVELSFIELD.

A hardy annual obtained by crossing Dianthus Allwoodii and Sweet William. It is distinct in habit of growth, exceedingly free flowering, in great variety of colours. Award of Merit, Royal Horticultural Society per pkt. 6d.

DOUBLE. In this new form the flowers are larger than the single and very double. The habit of growth is very bushy and uniform, about 15 inches high, like a Sweet William but more branching. There is a varied and most beautiful range of colours, from white to richest crimson, with shades of pink and fancy colours. Plants flower continuously per pkt. 6d.

TACSONIA.

VAN VOLXEMII. A very fine climber with showy deep crimson flowers, quick growing per pkt. 1/—

MOLLISSIMA. A rapid growing hardy climber with long tubular flowers, sharply foliage. The fruit is edible. Commonly called the Bannana flavoured passionfruit per pkt. 6d.

EDULUS. The black Passion fruit so well known. A nice climber for covering fences, etc. Blue and white flowers and edible fruit, much used for salads, etc. per pkt. 6d.

TAGETES.

Half-hardy annuals; compact dwarf Marigolds, of great value for beds, marginal lines, etc., producing a mass of bright flowers of long duration.

GOLDEN GEM. Much improved, very free flowering, dwarf and compact throwing the flower well above the foliage per pkt. 6d.

GNOME (new). A very neat dwarf, really compact strain of minitature Marigolds, with large single golden yellow flowers in multitudes. Grows only 6 inches high, and blooms all season. Excellent for edgings per pkt. 6d.

TECOMA.

SMITHII. A splendid shrub growing about 10 feet high. Golden tubular flowers in bunches per pkt. 1/—

RADICANS. The North American Trumpet Flower. A fine hardy climber which clings like ivy, producing in summer large clusters of orange-red flowers. Easily raised from seed . . per pkt. 6d.

THUNBERGIA.

Very elegant climbers. Make elegant trailing plants for edges of staging etc., height 6 feet.

GIBSONII. A wonderful climbing plant producing a wealth of vivid clear orange blooms practically the whole year, and in that respect unequalled. A grand creeper for fences, trellis or old stumps. Particularly good grower in New South Wales, Queensland, and the warmer States per pkt. 1/—

TITHONIA.

FIREBALL (novelty). Dazzling as a ball of fire poised high above other flowers. "Fireball" is undoubtedly the last word in brilliance of colour in an Autumn blooming plant. "Fireball" is a very brilliant shade of scarlet orange, the petals in dazzling contrast to the clear yellow centre. The gaily coloured flowers are single, very large, 4½ to 5 inches in diameter, and are carried on fine long stems. It is a tender annual (sow same time as Zinnias), flowering late in the season, but is not subject to plant diseases. It is extremely showy in the garden, and an excellent new cut flower variety. The flowers will keep five to six days when cut. Height 8ft. per pkt 1/—

SPECIOSA (Mexican Sunflower). A very fine half-hardy annual, producing very freely its large orange red flowers, which have a very striking effect in the back row of a mixed border. Height 5 to 6 feet per pkt. 6d.

TAGETAFLORA (novelty). The plants do not grow as tall, and the size of the flower is slightly less than Tithonia Speciosa, the Mexican Sunflower, but the blooming period is a month to six weeks earlier, and the blooms are true orange rather than range scarlet per pkt. 1/—

TORENIA.

FOURNIERI. A very free flowering and beautiful annual with violet blue flowers, spotted indigo; desirable as a pot plant or for hanging baskets and for bedding. Sow in early Spring in pans of light soil, prick off and pot on. Height 9in. . . pkt. 1/—

BAILLONI. Similar in habit to the preceding, but has yellow flowers with red throats. Height 1 foot per pkt. 1/—

TRACHELIUM.

COERULEUM (new). A free-flowering hardy annual or biennial having large cloud-like heads of tiny blue flowers resembling Gypsophila. Lasts a long time in flower, makes a fine pot plant, a splendid bedder, and should be largely planted for its colour alone. Height 18 inches . . per pkt. 1/—

TRITOMA.

EARLY FLOWERING HYBRIDS. A very free flowering strain, attractive colours ranging from yellow to salmon and deep crimson. They make effective border plants. May be flowered the same year from seeds. Hardy perennial. Height 3 feet per pkt. 1/—

TROLLIUS.

CHOICE HYBRIDS. Very showy plants, producing a profusion of large globular flowers, colours varying from bright yellow to glowing orange. They thrive equally well in half-shady or sunny positions, and are also charming subjects for water-side planting. Hardy perennial. Height 2 to 2½ feet per pkt. 6d. and 1/—

LEDEBOURI GOLDEN QUEEN. One of the finest hardy plants introduced for a number of years. It is very vigorous, grows from three to four feet in height, but is specially noteworthy for the size of its flowers and the intense orange colour, its great floriferousness, and the constancy with which it flowers in Autumn as well as early Summer. It is very easily raised from seed, and comes practically true. A.M., R.H.S. Hardy perennial per pkt. 6d. and 1/—

THALICTRUM.

ADIANTIFOLIUM. A beautiful hardy plant easily grown, with foliage like a maidenhairfern, most useful for cutting and decoration, hardy perennial. Height 3 feet per pkt. 6d.

DIPTEROCARPUM. A very fine tall-growing herbaceous plant of light and graceful habit, producing loose sprays of rose-purple flowers with yellow stamens; exceedingly attractive, requires rich soil. Height 4 to 6 feet per pkt. 6d.

THYMUS.

SERPILLUM. A beautiful indigenous plant of creeping habit with sweetly scented foliage, which is covered in Summer by a sheet of rose purple flowers, fine for carpeting in the rock garden or filling crevices in crazy paving. Hardy perennial. Height 3 inches per pkt. 6d. and 1/—

TUNICA.

SAXIFRAGA. A very dainty little plant, like a dwarf Gypsophila; masses of rose-tinted and white flowers, charming for rock garden, dry walls or edgings. Hardy perennial. Height 6 inches per pkt. 6d.

THERMOPSIS.

LANCEOLATA (new). A fine species from North America. Very pretty and distinct. Covered in summer with close spikes of yellow Laburnum-like flowers. Likes light rich soil. H.P. Height 2½ feet per pkt. 1/—

TROXICUM.

GRANDIFLORA (new). A most interesting species, flowering from November to March. The large golden yellow flowers are produced in terminal stems. Hardy perennial. Height 2½ feet per pkt. 1/—

TRIPTERIS

CONFUSA (new). A very attractive new yellow annual which grows to a height of 2½ feet. Each plant carries an immense quantity of butter yellow flowers, approximately 2½ inches across per pkt. 1/—

TROPAEOLUM.

SPECIOSUM (new). Seed of this choice hardy climber has been unprocurable for many years, but is now available. Known as the Chilean Flame Flower, this is one of the most brilliant of all flowering plants. It likes a cool moist position, and bears a profusion of bright scarlet bird like flowers and is a very rapid grower. Perennial per pkt. 1/—

URSINIA.

ANETHOIDES. A most attractive and useful annual from South Africa. The plants form large tufts of leaves, from which spring up long wiry stems bearing flowers of a rich chrome yellow, enlivened at the base by a ring of deep purple with spots of a darker shade. It is exceedingly showy and excellent alike for cutting and garden decoration. A.M., R.H.S. Hardy annual. Height 1 foot per pkt. 6d.

VALERIAN.

Old-fashioned sweet scented hardy plants, showy in mixed border, wild garden or shrubbery Hardy perennial. Height 2 feet.

RED per pkt. 3d.

VENIDIUM.

FASTUOSUM. This is one of the finest annuals, easy to grow and in the mass magnificent. Flowers brilliant orange with dark centre, 4 to 5 inches across. Excellent for Summer bedding. If done well, it will produce flower stems 2½ to 3 feet high. The soil should be made firm, this checks the growth a little, and assists it to flower better. It may also be treated as a hardy annual. It likes a sunny position. Height 3 feet per pkt. 6d.

VERBASCUM.

PHOENICEUM NEW HYBRIDS. Fine border plants with elegant spikes of bloom, ranging from purple and violet to rose, buff, white, etc. Hardy perennial. Height 3 feet per pkt. 6d.

VERBENA.

ERINOIDES. Small violet coloured flowers, exceedingly free flowering, useful for bedding, or using as a ground work. Hardy annual. Height 9 inches per pkt. 6d.

VENOSA. Hardy perennial variety with violet purple flowers. A border plant which makes a fine display for a long period. Flowers the first year from seed. It is usually treated as a hardy annual. Height 1 foot per pkt. 6d.

VERBENA.

Invaluable bedding plants. We recommend the raising of these from seed, as they are invariably stronger and healthier than from cuttings, and flower with much greater profusion; sown in early Spring they make a fine display in Summer and Autumn.

GIANT-FLOWERED MIXED. A splendid strain, producing flowers of enormous size with a large white eye which adds a most striking and effective appearance to a bed of these Verbenas per pkt. 6d.

LUMINOSA. A very pretty bright salmon rose, a gem for bedding. The seed produce plants mostly of the true colour, with a small percentage of varied shades, which are also very fine both in colour and size per pkt. 6d.

SCARLET QUEEN. Flowers of the most vivid scarlet with a large and distinct eye. The individual blooms often exceed an inch in diameter, and succeed each other for a very long period, so that nothing finer can be conceived for striking bedding effects per pkt. 6d.

ROYALE. Strong growing large trusses of large blue flowers, good for edgings and bedding also per pkt. 6d.

LUTEA. An unusual colour in Verbena, being a canary-yellow, it makes a splendid contrast to the blues and crimsons. per pkt. 6d.

BRIGHTNESS. A neat and attractive variety with large heads of bright Rose and white eye, very showy per pkt. 6d.

ROYAL BOUQUET. Quite distinct type. Plants 15 to 18 inches high. Growth upright. Large flowers in a beautiful mixture of colours per pkt. 6d.

RUBY QUEEN (new). Dwarf compact plants of erect habit with bright ruby red flowers. Quite a new colour in this section per pkt. 6d.

BONARIENSIS (new). A hardy perennial which can be treated as a hardy annual if sown in early Spring, flowering from December to the end of Summer. It is a distinct variety, bearing deep rosy purple flowers. A great acquisition to the perennial border. Height 4 feet. Splendid for cutting per pkt. 1/-

VIOLA.

APRICOT QUEEN. Apricot yellow tinged orange. A most attractive variety per pkt. 6d.

ARKWRIGHT RUBY. This is one of the finest new Violas in many years. The colouring is a bright ruby crimson with shadings of terra-cotta and deeper central markings. The exquisite fragrance lends it additional charm. This is a free-flowering strain of hardy and vigorous constitution coming perfectly true from seed per pkt. 1/-

BOSNIACA. A beautiful little species allied to *Gracilis*, producing a profusion of red-coloured flowers through Spring and Summer, hardy perennial. Height 6in., fine for rock work per pkt. 6d.

BATHS IMPERIAL BLUE. Deep intense blue with black blotch. Large distinctive blooms per pkt. 6d.

BLUE PERFECTION. Clear blue with yellow eye. Compact habit. Ideal to contrast with yellow per pkt. 6d.

BLUE BEAUTY (new). The finest of all the Cornuta varieties, being literally smothered with masses of very fine deep lavender blue flowers. The nearest approach to a true blue Viola that has yet appeared. Makes a wonderful edging plant and bedder per pkt. 1/-

PAPILIO. Light blue with white centre. Very showy in the mass per pkt. 6d.

PARIS BLUE. Rich velvet purple, good bedder per pkt. 6d.

LUTEA SPLENDENS. Bright golden yellow. Free-flowering, good sized blooms, splendid in the mass or as a contrast to blue per pkt. 6d.

MAUVE QUEEN. Quite distinct. Very small foliage. Flowers resemble violets, but of course flower in the Summer per pkt. 6d.

SIEBOLDIANA (novelty). A dainty exquisite from the mountains of Japan. Blooms are an exquisite cream pink. The foliage is Silver, and the leaves gleam as though silver-plated. Quite hardy, and blooms in Spring and again in Autumn. Fine for edgings. Known as the Japanese Silver Violet. Seed scarce. (Sold out) per pkt. 1/-

VIOLET.

THE CZAR. Blue, hardy perennial, sweet-scented, blooming very early. Height 6 inches per pkt. 6d.

PRINCESS OF WALES. Fine large flowered sweet-scented variety, very popular per pkt. 6d.

VIRGINIAN STOCK.

Early free-flowering dwarf hardy annuals, suitable for edgings, beds, etc. Thriving well in almost any soil and situation. Height 6 inches.

CRIMSON GEM. Erect and compact in growth and a decided advance upon the older type. The colour is bright crimson, producing a gay effect when used for borders or edgings. In our trials it has been much admired per pkt. 6d.

CRIMSON KING. Deep crimson per pkt. 3d.

YELLOW per pkt. 3d.

MIXED per pkt. 3d.

VISCARIA.

A fine group of free-flowering hardy annuals of the easiest cultivation. They make a most attractive display in borders during Summer and until frost comes.

FIRE KING. An exceedingly striking compact growing variety, covered with bright scarlet flowers, valuable for massing and edgings. Height 6ins. per pkt. 6d.

DWARF MIXED. This charming new strain forms compact bushy plants 6 to 8 inches in height. The flowers are of lovely shades of bright colours; exceedingly showy and effective per pkt. 6d.

OCULATA, BLUE BOUQUET. A considerable advance upon other blue varieties of *Viscaria* oculata. The habit of the plant is of erect growth without the rather spreading habit of its tribe. The flower is large and of a beautiful shade of blue. Height 1 foot per pkt. 6d.

OCULATA, DELPHINIUM BLUE. Bright blue, very dainty. Height 1 foot per pkt. 6d. and 1/-

OCULATA, NOBILIS. Rosy pink, with dark crimson centre, large flower. Height 1ft. per pkt. 6d.

CHOICEST MIXED 1/3 ¼ oz., per pkt. 6d.

WATER LILIES.

Culture: Select shallow pans (deep household saucers will do); place heavy loam in these, taking care to have same firmly pressed. Sow seed thinly. Cover the seed with light sandy soil and one inch of water, then place in a sunny position. When the young plants are large enough to handle, transplant into shallow water and when large enough to their permanent quarters.

NYMPHAE "ALBA" A hardy water lily with multitudes of white flowers. Fine for floral work

per pkt. 1/-

NYMPHAE, COERULEA. A fine blue Water Lily and much sought after. Larger than Stellata

per pkt. 1/6

NYMPHAE "ROSEA." A hardy Water Lily with pink flowers, long stems for cutting .. per pkt. 1/-

NYMPHAE "STELLATA" Light blue star-shaped flowers, very pretty. Long stems. Hardy

per pkt. 1/-

NYMPHAE "GEORGE HUSTER" (novelty). The lovely Water Lily has large flowers of rose crimson on long stems .. per pkt. 2/6

NYMPHAE, H. C. HAARSTICK (novelty). A fine introduction from America, with large flowers of deep maroon .. per pkt. 2/6

WAHLENBERGIA.

MARIESII (new). A hardy perennial plant which bears large cup-shaped flowers of a beautiful rich blue, resembling a large Campanula. Thrives in any open position. Height 1ft. .. per pkt. 1/-

MARIESII ALBA (new). Similar plant to the above, but the large cup-shaped flowers have an exterior of pale China blue, while the interior is silvery white. Very attractive. Height 1ft. per pkt. 1/-

WALLFLOWERS.

These are now very popular; flowers of good substance and of rich fragrance. Sown in March, will bloom by June and continue to the end of the season.

ANNUAL, BLOOD RED .. per pkt. 6d. and 1/-

GOLDEN GEM .. per pkt. 6d. and 1/-

MIXED .. per pkt. 6d.

STOCK FLOWERED. This new d'ble flowered annual Wallflower received an Award of Merit from the R.H.S. The plants attain a height of 2 to 2½ feet, and the long main spike is covered with large double blossoms. Later on lateral branches are produced out of the axils, and bear fine flowers very suitable for cutting. If successive sowings are made, it is possible to have these beautiful sweet-scented flowers during Autumn in the open and during Winter and early Spring.

STOCK FLOWERED. .. Double. Gold

STOCK FLOWERED. .. Double Brown. per pkt. 6d.

SURPRISE. Quite Distinct. Flowers Brilliant Salmon Rose. Fine bedder .. per pkt. 6d.

SCARLET EMPEROR. This is the brightest of all scarlet wallflowers yet introduced; at a distance a bed of it looks like scarlet geraniums. The plant is of dwarf compact habit, and bears long spikes of broad petalled flowers, which are very lasting

per pkt. 6d. and 1/-

LINNAEUS (the New White Wallflower). This variety is unsurpassed for planting in beds with the other well-known varieties, the contrast between the white and the darker colours making the appearance of the beds very striking. Also suitable for rock gardens .. per pkt. 6d.

KEWENSIS. This is a true Winter flowering type. It is a perennial, but is best treated as an annual. The colour is primrose, which later turns to orange yellow, and violet. Very fragrant. Height 1ft. .. per pkt. 6d.

PAGE'S SUPER GIANT (new). This new variety bears extra large trusses of single flowers 2½ inches across. The colour is a splendid deep brown red. It is strongly perfumed, and much larger than any other kind, and is particularly valuable for bunching and cutting

per pkt. 6d.; ¼ oz. 1/6; ½ oz. 2/6

WHITLAVIA.

GLOXINOIDES. A very showy hardy annual with bell-shaped flowers, blue with white throat, fine for borders and edgings. Height 1 foot

per pkt. 6d.

ZEA (Maize).

Half-hardy annuals, graceful plants, invaluable for sub-tropical bedding. Sow in heat, and plant out in May.

JAPONICA VARIEGATA. Green and white. Height 4 feet .. per pkt. 6d.

JAPONICA GRACILLIMA VARIEGATA. Beautiful slender growing variety. Height 2 feet

per pkt. 6d.

ZINNIA.

One of the finest groups of half-hardy, annuals, very free-flowering, exhibiting varied and very brilliant colours. The double-flowered varieties are very handsome, of large size and fine form. The singles are likewise of much value for cutting their bright colours being exceedingly attractive in vases, etc. The Dwarf varieties are of a bushy habit with beautifully imbricated flowers.

GIANT DAHLIA FLOWERED. For size of bloom and variety of colour this marks the limit yet attained in the development of the Zinnia. Not only are the flowers of great beauty, but the colours include a number of shades not hitherto seen in these attractive plants. Height 2½ft.

ATTRACTION. A distinct shade of brick-red which carries its colour well from the base and forms into an immense ball of colour when in full bloom .. per pkt. 6d.

CRIMSON MONARCH. Gigantic flower often reaching 8 inches in diameter. Full rich crimson. Vigorous grower .. per pkt. 6d.

DAINTY. Light rose with deeper tint in the centre. Large flower .. per pkt. 6d.

DESERT GOLD. A most fascinating strain of Zinnias, containing the light and deep hues of gold, each petal overlaid at the base with a deeper golden yellow, giving a charming bicolor combination .. per pkt. 1/-

EFFECTIVE. An immense orange and gold bi-colour, changing slightly as it ages .. per pkt. 6d.

ECSTASY. A fine showy flower. The colour is shrimp pink, and blends well with the yellows .. per pkt. 6d.

FLASHLIGHT. Bright scarlet, with a charming blend of orange throughout the petal. A fine large bloom .. per pkt. 6d.

LUMINOUS. A very desirable shade of bright rose. It can be briefly described as bright deep pink with a light tinge of salmon, a few tones darker than "Dainty." .. per pkt. 6d.

ORANGE BEAUTY. A very rich orange yellow developing into an attractive orange when in full bloom. One of the best .. per pkt. 6d.

PRINCESS OF WALES. A new colour in dahlia-flowered zinnias—deep violet. Quite distinct, and a very telling colour. Flowers are large and well formed .. per pkt. 6d.

DAHLIA FLOWERED "TANGO" (new). Huge blooms, attractive two-toned flowers, gorgeous golden orange with reddish orange centres

per pkt. 6d.

ROSE QUEEN. Similar in size to "Dainty," but a striking self colour of deep rose .. per pkt. 6d.

PAGE'S SUPER GIANTS. A dahlia-flowered type with flowers of immense size and beautiful colouring. A great advance on existing strains, and strongly recommended. This mixture comprises all the best varieties, and has won many first prizes .. 7/6 oz.; 2/6 ¼ oz.; per pkt 6d.

ROYAL SOVEREIGN. This is next to Crimson Monarch in size and form, and is a golden yellow on brown .. per pkt. 6d.

SNOW QUEEN. A huge, pure white bloom which commands attention wherever grown .. per pkt. 6d.

SUNRISE. This beautiful shade of golden yellow comes true to colour, and form, and has been accepted as a valuable addition to the collection .. per pkt. 6d.

SWEET LAVENDER. Deep lavender turning to purple as the flower ages. Quite a distinct shade .. per pkt. 6d.

ZINNIA (Continued).

COOPERS MAMMOTH CACTUS. We have much pleasure in introducing this sterling novelty. Distinguished from all other Zinnias by the form of the petals, which are quilled. At the beginning of flowering the flower has a star-like appearance, but as it develops it becomes entirely globular, very full and measuring over five inches in diameter, maintaining the quilled petals, which open slightly, then it resembles a Cactus Dahlia. The plants grow to 4 feet in height, producing large flowers all round the stem, which are borne on long, stiff stems suitable for cutting. The mixture is composed of the following colours: flesh, deep yellow, clear yellow with rose centre, lemon, carmine, crimson, pink, bright rose, lilac, copper red and violet per pkt. 1/-

CALIFORNIAN GIANTS. Real giants in size of flower as well as growth of the plant itself. Heavily branched, they reach to a height of 3 to 6 feet, and bear throughout the Summer large numbers of immense flowers slightly flatter than the well known Dahlia-flowered type. Our mixture is unsurpassed 2/6 1/4-oz.; per pkt. 6d.

FANTASY. This is the most fascinating new Zinnia type introduced to the flower world in many years. The very informal shaggy looking flowers are graceful and interesting, quite distinct from the stiff informal Zinnias to which we are accustomed. The rounded medium-sized flowers are composed of a mass of shaggy ray-like petals, which give a delicate and refined appearance, large enough to satisfy the desire for mass of colour, yet small enough to lend themselves gracefully to flower arrangement. The colour range includes the brightest shades of red, yellow and orange, as well as the popular pastel pinks and cream. One of the most colourful new flower introductions. Award of Merit, A.A.C. Mixed Colours only per pkt. 6d.

FANTASY, "STAR DUST." (novelty). This informal Zinnia will be welcomed with enthusiasm. It is a rich deep golden yellow, one of the vibrant shades closely associated with Zinnias. Star Dust is a shaggy petalled variety with medium-sized flowers, free-flowering and growing 2½ to 3 feet high. Comes into flower about 45 to 50 days from time of planting. Award of Merit per pkt. 1/-

PUMILA, "SPUN GOLD" (novelty). A welcome addition to the "Cut and Come Again" Zinnias. Medium sized double flowers, a distinct and delicate pastel shade of butter yellow. Splendid for florists 2/6 1/4-oz.; per pkt. 6d.

VALENCIA. A Lilliput variety with orange flowers. Fine for growing along edges of flower borders or for massing and cutting. Height 15 inches per pkt. 6d.

SUPER MAMMOTH, "FANCY TINTS" (novelty). The largest Zinnia of all. Tremendous flowers that not only grow larger across than any other Dahlia-flowered Zinnia, but are of greater depth or thickness. Seed has been selected from the choicest and largest specimens, every one of which was more than 5 inches across, and about 4 inches deep. The combination of colours to be seen in this outstanding Zinnia is most unusual and distinct. They shade from old rose on the outer petals, through gold to a halo of bright cerise in the centre. Plants are base branching, providing stems 2 to 2½ inches long. Wonderful for exhibition purposes, outstanding in the garden and invaluable for cutting per pkt 1/-

MAIDEN'S BLUSH (new). A new colour in giant Dahlia-flowered Zinnias. The colour is a lovely delicate shell pink per pkt. 6d.

PASTEL SHADES (new). To meet the ever-increasing demand for a mixture of light colours in Dahlia-flowered Zinnias, we have taken the best and most pleasing shades of pink, yellow and lavender in addition to white, and blended them in the right proportion of each to give a colourful and well-balanced display. All dark and harsh colours have been omitted. Will create an unusually artistic effect, and supply many fine flowers for cutting per pkt. 1/-

ZINNIA (Continued).

GAILLARDIA FLOWERED (new). This is one of the newer Zinnia types which resembles another flower group, namely, the double Gaillardia. It is said to be a cross between the Haageana and Elegans types. The flowers are very attractive, of medium size, about 2 inches in diameter, just a good size for cut flower use, and are carried on stems of medium length. The plants are about 2 feet tall and very free-flowering. The colours range through the mellow shades of rose, pink, bronze, yellow, orange, lavender and combinations of these colours. Most of the flowers, in fact, are two-toned, with a ring of deeper colour towards the centre of the flower. The blooms are produced about 45 days after seed is sown per pkt. 6d.

LILLIPUT, "PASTEL MIXTURE" (new). Because of the neat, compact symmetrical habit of the flowers, together with their small size and stem length, the Lilliput type of Zinnia is particularly fine for cutting. Until this season, there has been no strictly pastel variety in the Lilliput type. In the Pastel Mixture, however, we have incorporated the lovely soft shades of apricot, peach, creamy yellow, shell pink, delicate salmon, light rose and orchid, which are prime favourites with florists, and cut flower growers. The plants are 12 to 15 inches in height, neat in habit, compact growing and very free flowering. Early blooming, it produces flowers about 45 days from seed per pkt. 1/-

GIANT "DAHLIA-FLOWERED" TANGO SHADES (new). Attractive two-toned flowers, gorgeous golden orange, with reddish orange centres. The flowers are extremely large and the plants vigorous per pkt. 6d.

SCABIOUS FLOWERED MIXED. An entirely distinct Zinnia, which bears a marked resemblance to Scabiosa or to the Double Cosmos. The medium sized flowers have a collar of broad petals surmounted by a full double cresting of the same tone and colour. The mixture contains a wide variety of colours. Height 2½ft. per pkt. 6d.

GOLDEN SCABIOUS (novelty). A beautiful golden yellow Scabious-flowered Zinnia with extra long stems, making it excellent for cutting per pkt 1/-

SALMON SCABIOUS (novelty). One of the best colours in this popular class. Identical with the Golden Scabious in all but colour, which is a bright salmon pink per pkt. 1/-

EARLY WONDER, MIXED (new). A fine mixture of many colours in this new dwarf class of Zinnias, raised by Bodgers, of California, of Dahlia-flowered Zinnia fame. Early flowering per pkt. 1/-

EARLY WONDER, SALMON CERISE (new). A fine new colour in this very early free flowering type, producing medium, well formed, fiery salmon-cerise pink flowers on long, strong stems. Foliage is sparse, and flowers can be better bunched than other types per pkt. 1/-

POMPON ZINNIAS.

The flowers are small, compact and symmetrical on strong stems. They grow twelve inches high and are consistently free blooming.

Crimson Gem. Rich crimson per pkt. 6d.

Golden Gem. Golden yellow per pkt. 6d.

Rosebud. Bright rose pink per pkt. 6d.

Finest Mixed All the best colours in splendid mixture per pkt. 6d.

PICOTEE MIXED. Each petal is tipped with distinct colour, harmonizing with the rest of the flower. The form and colour range is between the Giant and Pumila types. All colours mixed per pkt. 6d.

ZEBRA OR CARNATION STRIPED. Very pretty striped flowers. As the colours vary on each plant, they present a curious as well as a beautiful appearance per pkt. 6d.

VEGETABLE SEEDS

ASPARAGUS.

Health Value of FRESH ASPARAGUS:

Calories per lb. 100, Vitamins A, B, Proteins 1.8%,
Carbohydrates 3.3%, Fats 2%, Calcium .025%,
Iron .00096%.

Sow in Spring and Autumn, 1 oz. to 15 sq. yards.
1 oz. will produce about 200 plants.

COLOSSAL. The earliest, largest and best variety
in cultivation 1/6 oz., per pkt. 6d.
Roots 2/6 doz., 4/6 for 25, 7/6 50. (Freight
extra).

ARGENTEUIL EARLY. Splendid variety, very
popular in France . . . 1/6 oz., per pkt. 6d.

ARTICHOKE.

JERUSALEM. Tubers only. Obtainable June to
August. 4d. lb., 7 lbs. 2/- (Postage or freight
extra).

BROAD BEANS.

Sow Autumn and Winter. 1 lb. to a row of 50ft.
(Post extra.)

LEVIATHAN. Very prolific. Main crop
1/6 lb., per pkt. 3d. & 6d.

DWARF PROLIFIC. Splendid dwarf sort, grows 2ft.
high and branches from the base
2/- lb., per pkt. 6d.

FRENCH BEANS.

Health Value of FRESH BEANS:

Calories per lb. 184, Proteins 2.3%, Fats 3%,
Vitamins A, B, C., Carbohydrates 7.4%, Calcium
.046%, Iron .00098%.

Sow Spring and Summer. 1 lb. will sow 70ft. of
row. Sow 4in. apart, eye down. (Postage extra).

BLUE WONDER. Pods blue, but green when cooked.
Tender and fleshy . . . 2/6 lb., per pkt. 6d.

FELTHAM PROLIFIC. A very heavy cropper, but
pods rather small. Very dwarf
2/- lb., per pkt. 6d. & 1/-

EMPEROR WILLIAM. White seeded. Broad tender
pods 10in. long 1/6 lb., per pkt. 6d.

CANADIAN WONDER. Popular market bean, very
hardy and prolific. 1/6 lb., per pkt. 3d. & 6d.

BROWN BEAUTY. One of the best varieties for the
home gardener. Prolific, large pods, excellent
flavour 1/9 lb., per pkt. 6d.

STRINGLESS GREEN POD. Tender, fleshy pods two
weeks earlier than Canadian Wonder. Very pro-
lific 1/6 lb., per pkt. 6d.

BUTTER BEANS.

STARTLER. Very prolific. Pods 6 to 8in. long.
Fine flavour. Very popular
2/- lb., per pkt. 3d. & 6d.

RUST-PROOF WAX. Pods large, 6in. long. Said
to be Rustproof, stringless and tender
2/6 lb., per pkt 6d.

RUNNER BEANS.

EPICURE. The best of all Climbing Beans for small
gardens. Enormous cropper and delicious when
cooked 1/6 lb., 3d. & 6d. per pkt.

GOLDEN CLUSTER. A golden podded runner Bean.
Stringless, early, excellent flavour
3/6 lb., per pkt. 6d.

SCARLET EMPEROR. Bears enormous pods. Scar-
let flowers 3/6 lb., per pkt. 1/-

WHITE MONARCH. Perennial. Large, fleshy pods,
enormous cropper. Does not run to leaf like other
sorts per pkt. 6d. & 1/-

RUNNER BEANS (Continued).

THE CZAR. Large podded rich green Beans, very
mealy per pkt. 6d. & 1/-

SNAKE. Long tender round pods about 20 inches.
Delicate flavour per pkt. 6d. & 1/-

TONGAN. A very strong evergreen climber, pro-
ducing large quantities of large flat Beans with
tender stringless pods . . . per pkt. 6d. & 1/-

LIMA BEANS.

Health Value of FRESH LIMA BEANS:

Calories per lb. 570, Vitamins A, B., Proteins 7.1%,
Carbohydrates 22.0%, Fats .7%, Iron .0024%.

Sow Spring and Summer. 1 lb. will sow a row 80ft.
Plant 6 inches apart eye down.

BURPEE'S BUSH. Grows 1½ to 2ft. Great crop-
pers 2/6 lb., per pkt. 6d.

BEET.

Health Value of FRESH BEETS:

Calories per lb. 209, Proteins 2.3%, Fats .1%,
Vitamins A, B, C., Carbohydrates 9.7%, Calcium
.029%, Iron .00085%.

Sow January to December in drills. 1 oz. will sow
a row of about 50ft.

After sowing the drills should be well firmed. The
leaves of Red Beet are rich in iron and may be
used in their young state as greens.

BEST OF ALL (long). The best of all the long
varieties for salads . . . 2/- oz., per pkt. 6d.

CRIMSON GLOBE. Dark red flesh, selected strain,
best for market and private gardens
1/- oz., per pkt. 3d. & 6d.

EGYPTIAN TURNIP ROOTED. Very early deep
crimson, round, flat variety
1/- oz., per pkt. 3d. & 6d.

SPINACH BEET.

Sow in drills. 1 oz. to 100ft. Thin out to 6 inches
apart.

SILVER LUCULLUS. The leaves are crinkled or
curled, with broad white fleshy stalks. Fine
flavour . . 1/9 ¼ lb., 9d. oz., per pkt. 3d. & 6d.

COOPER'S MAMMOTH. Large dark green plain
leaves. Thick and succulent. Stems white. A fine
Spinach Beet
1/9 ¼ lb., 9d. oz., per pkt. 3d. & 6d.

ENGLISH PERPETUAL. Quite distinct. Can be cut
all the year round. Dark green leaves
1/6 oz., per pkt. 6d.

SPINACH-LEAVED TURNIP.

While this is a Turnip, its mild pleasing flavour is
like that of the finest Spinach. It seems to be
little affected by hot, dry weather. Ready for
use 3 to 4 weeks after sowing . . per pkt. 6d.

BORECOLE OR KALE.

Sow November to February. 1 oz. will sow 6 sq.
yds. for transplanting.

DWARF GREEN CURLED. A useful variety for
table. 1/6 oz., per pkt. 3d. & 6d.

1,000 HEADED. A splendid variety for poultry.
Exceedingly hardy and very productive. 1 oz. to
150ft. 1/- oz., per pkt. 6d.

CHOU MOELLIER. A Marrow-stem Kale, which
when cut young makes a very fine vegetable.
Plant out 2ft. apart. Also a great standby for
poultry. Sow 1 lb. to the acre. 1/- ¼ lb., 2/6 lb.

BRUSSELS SPROUTS.

Sow November to February. 1 oz. will produce 1,500 plants.

SCRYMGER'S GIANT. Hardy and very productive 1/6 oz., per pkt. 3d. & 6d.

BROCCOLI.

Sow December to August. 1 oz. will produce 1,500 plants.

SELF PROTECTING AUTUMN. Excellent heads beautifully white, firm and compact 2/6 oz., per pkt. 6d.

ADAM'S EARLY WHITE. A fine early maturing variety, large snowy heads like Cauliflowers, but more hardy 2/6 oz., per pkt. 6d.

CHINESE CABBAGE.

IMPROVED HEADING. Vigorous and rapid, large light green leaves of mild delicate flavour, much esteemed 1/6 oz., per pkt. 6d.

CABBAGE.

Health Value of FRESH CABBAGE:

Calories per lb. 145, Vitamins A. B. C., Proteins 1.6%, Carbohydrates 5.6%, Fats .2%, Calcium .045%, Iron .00043%.

Sow 1 oz. for 1,500 plants. Sow December to April —Enfield Market, Succession, First Crop, Sugarloaf. Sow May and June—East Ham. July to November —Early Allhead, St. John's Day.

EASTHAM. Firm solid heads 1/6 oz., per pkt. 3d. & 6d.

ENFIELD MARKET. One of the most reliable Spring varieties 1/6 oz., per pkt. 3d. & 6d.

EARLY ALLHEAD. Earliest Summer sort. Fine solid flat heads 2/6 oz., per pkt. 6d.

FIRST CROP. Earliest variety we can name. Fine quality. Can be cut 8 to 10 weeks after planting out 2/6 oz., per pkt. 6d.

SUCCESSION. Handsome large and a sure header. The best large variety for early or late use 3/6 oz., per pkt. 6d.

ST. JOHN'S DAY. Large heads, solid and tender, fine for Summer use 1/6 oz., per pkt. 3d. & 6d.

SUGARLOAF. Early conical-shaped heads 2/- oz., per pkt. 6d.

SAVOY GREEN CURLED. Sow November to April. Early. Firm white heart. Curled leaves. Fine Winter variety 1/6 oz., per pkt. 3d. & 6d.

CAPE GOOSEBERRY.

ORDINARY. Can be used for dessert. Makes delicious jam per pkt. 6d.

PUBESCENS. Quite different from the above. The plants trail and it is very prolific. This is the best flavoured variety for eating raw. The berry is small and sweet 1/4 oz. 2/6, per pkt. 6d.

CARROT.

Health Value of FRESH CARROTS:

Calories per lb. 204, Vitamins A. B. C., Proteins 1.1%, Carbohydrates 9.3%, Fats .2%, Calcium .056%, Iron .00064%.

Sow January to December. 1 oz. to 100ft. of drill, 4 lbs. to acre.

EARLY SHORT HORN. Splendid for quick growth and shallow soils. Roots rich deep orange colour and 3 inches long, with sweet flavour 1/- oz., 2/6 1/2 lb., per pkt. 3d. & 6d.

SCARLET INTERMEDIATE. Quite smooth, with long red 10in. tapered roots. Very popular 2/6 1/2 lb., 1/- oz., per pkt. 3d. & 6d.

CHAMPION HORN CORELESS. Early, stump-rooted short foliage, very little core, beautiful quality 1/6 oz., per pkt. 3d. & 6d.

CAULIFLOWER.

Health Value of FRESH CAULIFLOWER:

Calories per lb. 139, Vitamins A. B. C., Proteins 1.8%, Carbohydrates 4.7%, Fats .5%, Calcium .123%, Iron .00094%.

Sow November to June. 1 oz. for 1,500 plants.

EARLY LONDON. Very early dwarf, large compact heads. Heads in 5 months approx. 3/6 oz., per pkt. 6d.

EARLY ECLIPSE. Very large white heads, self protecting. Stands dry weather well. Heads in 4 1/2 months approx. 2/6 oz., per pkt. 6d.

EARLY GREENLEAF. The leaf is deep green and tough. On that account it is hardly ever attacked by green fly, making it extremely valuable. Shy seeder and therefore seed is always scarce and dear. Quick early sort. Heads in 4 1/2 months approx. 6/6 oz., per pkt. 1/-

VEITCH'S AUTUMN GIANT. Large compact heads. Late. Heads in 6 months approx. 2/6 oz., per pkt. 6d.

CELERY.

Health Value of FRESH CELERY:

Calories per lb. 84, Vitamins A. B., Proteins 1.1%, Carbohydrates 3.3%, Fats .1%, Calcium .078%, Iron .00062%.

Sow September to January. 1 oz. for 2,000 plants. Rich soil. Plenty of water.

WHITE PLUME. Crisp and solid, does not require much earthing up. Crisp and nutty flavour 2/6 oz., per pkt. 6d.

PINK PERFECTION. Heads are rosy pink, unusually meaty 2/6 oz., per pkt. 1/-

GIANT PASCAL. White, entirely stringless 2/6 oz., per pkt. 6d.

SOUP CELERY. For flavouring 1/9 1/4 lb., 6d. oz.

RED CELERY SEED.

FOR MEDICINAL PURPOSES. For Rheumatism, Sciatica, etc. Use 1 teaspoonful to 1 cup of boiling water and take freely 3/6 1/4 lb., 1/- oz. (post extra).

SWEET CORN.

Health Value of FRESH SWEET CORN:

Calories per lb. 470, Vitamins A. B. G., Proteins 3.1%, Carbohydrates 19.7%, Fats 1.1%, Iron .0008%.

Sow October to January. 2 lb. to 200 yards. (Post extra.)

GOLDEN BANTAM. Very sweet and luscious 3/- lb., per pkt. 6d.

COUNTRY GENTLEMAN. A great favourite. Late 3/- lb., per pkt. 6d.

EARLY FORDHOOK. One of the largest eared, extra earlies 3/- lb., per pkt. 6d.

GOLDEN CROSS BANTAM. It is with great pleasure that we introduce this variety, because it is practically immune from all the prevalent bacterial diseases that have devastated large and small plantings during the past few years. The ears of Golden Cross Bantam are larger than its prototype Golden Bantam. It matures about four days later than that variety, but it is quite equal to it in quality. A delicious vegetable served hot, with butter, pepper and salt to taste per pkt. 6d.

CRESS.

Sow January to December. 1 oz. will sow 3 sq. yards broadcast.

FINE CURLED. For salads and garnishing 9d. oz., per pkt. 3d. & 6d.

WATER CRESS. For salads and sandwiches per pkt. 6d.

CHIVES.

PERENNIAL PLANTS of the Onion family growing in dense tufts. The small tender green tops are much prized for salads, soups and seasoning, and are mild in flavour. Also makes an attractive border plant of quick growth per pkt. 6d.

CUCUMBER.

Health Value of FRESH CUCUMBERS:

Calories per lb. 79, Vitamins A. B. C., Proteins 8%, Fats 2%, Carbohydrates 3.1%, Calcium .016%, Iron .00033%.

Sow September to December. Sow 1 oz. for 50 holes.

APPLE SHAPED. Small, round and very early 1/6 oz., per pkt. 3d. & 6d.

WHITE SPINE. Extra early, handsome and prolific 1/6 oz., per pkt. 3d. & 6d.

L. GREEN PRICKLY. An old favourite, good flavour 1/6 oz., per pkt. 3d. & 6d.

L. GREEN SMOOTH. Solid and very productive 2/6 oz., per pkt. 6d.

GHERKIN. Roundish fruits. Fine for pickling 2/- oz., per pkt. 6d.

ENDIVE.

Health Value of FRESH ENDIVE:

Vitamins A. C., Calcium .104%, Iron .000123%. Sow February to April.

GREEN CURLED. Hardy. Easily blanched to a creamy white 2/- oz., per pkt. 6d.

HERBS.

Anise, Balm, Basil Bush, Basil Sweet, Borage, Caraway, Chervil, Coriander, Dill, Hyssop, Lavender, Marjoram, Mint, Rosemary, Rue, Sage, Savory (Summer), Savory (Winter), Tansy, Tarragon, Thyme (foreign), Thyme (English), Wormwood per pkt. 6d.

KOHL RABI.

Health Value of FRESH KOHL RABI:

Calories per lb. 140, Vitamin C., Proteins 2.0%, Carbohydrates 5.5%, Fats .1%, Calcium .077%, Iron .00061%.

Sow September to April. 1 oz. will sow 150 feet of row.

L. PURPLE. Grown and cooked like Turnips, purple skin 1/6 oz., per pkt. 3d. & 6d.

L. GREEN. The same as above, but green skin 1/6 oz., per pkt. 3d. & 6d.

LETTUCE.

Health Value of FRESH LETTUCE:

Calories per lb. 87, Vitamins A. B. C. G., Proteins 1.2%, Carbohydrates 2.9%, Fats 3%, Calcium .043%, Iron .001%.

Sow January to December. 1 oz. will produce 2,000 plants.

CONTINUITY. Excellent variety with brownish leaves. The heart when cut open is creamy-white. Stands hot or dry weather . 1/6 oz., per pkt. 6d.

ICEBERG. Handsome curly leaves, very solid. Good Summer Lettuce, crisp and tender 1/6 oz., per pkt. 3d. & 6d.

WEBB'S WONDERFUL. An improved New York Crisp, tender, large, excellent flavour 1/6 oz., per pkt. 3d. & 6d.

NEW YORK. Withstands heat and forms perfect hearts 1/6 oz., per pkt. 3d. & 6d.

NEAPOLITAN. Large crisp, early and hardy market Lettuce 1/6 oz., per pkt. 3d. & 6d.

MIGNONETTE. A crisp, curly, small brown Lettuce which always hearts. A fine hot weather Lettuce 2/- oz., per pkt. 3d. & 6d.

COOPER'S MARKET. A splendid Cabbage Lettuce, with large white hearts . . 2/6 oz., per pkt. 6d.

SEEDLESS (new). A really splendid variety, which we have proved to be the best for all purposes. Its fine large heads are very crisp and tender. It derives its name from the fact that it stands in head a particularly long time without going to seed 1/6 oz., per pkt. 6d.

PARIS WHITE COS. Large compact, crisp, requires tying up to blanch the centre leaves 1/6 oz., per pkt. 6d.

LEEK.

Health Value of FRESH LEEK:

Calories per lb. 150, Vitamins A. B. C., Proteins 1.2%, Carbohydrates 5.0%, Fats 0.5%, Iron .0048%.

Sow April to November. 1 oz. will sow a row of 50 feet.

LYON. A well known good sort 2/- oz., 6d. per pkt.

MELONS.

Health Value of FRESH ROCK MELONS:

Calories per lb. 185, Vitamins A. B. C., Proteins 6%, Carbohydrates 9.3%, Iron .00039%.

Sow in Spring. 1 oz. for 30 hills. 4 to 5 lbs to acre.

PRESERVING RED SEEDED. A very popular red seeded variety 1/- oz., per pkt. 6d.

PRESERVING GREEN HEADED. Large oval shape, but green seeded 1/- oz., per pkt. 6d.

MANGO. Splendid for cooking. Colour golden yellow, resembles an Orange in colour, shape and size per pkt. 6d.

MUSTARD.

Sow January to December. 1 oz. to 4 sq. yds. or 50ft. of drill.

FINE WHITE. Best for salads. Seed is also used for pickling and medicine . . . 6d. oz., per pkt. 3d.

MUSHROOM SPAWN.

Health Value of FRESH MUSHROOMS:

Calories per lb. 210, Vitamins A. C., Proteins 3.5%, Carbohydrates 6.8%, Fats 4%, Iron .00073%.

SUPERIOR MILLTRACK. In bricks. This may be planted in the open garden in Autumn and Winter or at any time in a cave or dark place where the temperature ranges between 50 and 70 degrees 1/6 each, post extra

OKRA.

Health Value of FRESH OKRA:

Calories per lb. 172, Vitamin B., Proteins 1.6%, Fats .2%, Carbohydrates 7.4%, Calcium .071%, Iron .00063%.

DWARF PROLIFIC. The young pods are used in soups, stews, etc. Likes a warm climate 2/- oz., per pkt. 6d.

ONION.

Health Value of FRESH ONIONS:

Calories per lb. 220, Vitamins A. B. C. G., Proteins 1.6%, Carbohydrates 9.9%, Fats 3%, Calcium .034%, Iron .00048%.

Sow February to October. 1 oz. will sow a row of 50ft. 3 lbs. to acre.

E. WHITE QUEEN. The earliest White Onion. Mild flavour, small, pure white and flat. Special strain 1/9 oz., per pkt. 6d.

BROWN SPANISH. Brown skinned sort of round shape. An excellent keeper and a popular market kind 1/- oz., per pkt. 3d. & 6d.

ORORLESS. The finest variety for salads. Can be eaten like an Apple. Grows to a large size, but is not a good keeper . 4/- oz., per pkt. 6d. & 1/-

TORPEDO WHITE (new). This is a companion to our Torpedo-shaped Red which we introduced last year. These Onions can be planted closer together than other kinds, giving a much greater crop to the acre. Another advantage is that they can be sliced much easier than other sorts. Good keepers per pkt. 6d.

BROWN GLOBE. A splendid keeper and grows to a good size 1/6 oz., per pkt. 6d.

POTATO ONION SEED per pkt. 6d.

SHALLOT SEED per pkt. 6d.

PARSLEY.

Sow Spring and Autumn. 1 oz. to a row of 80ft.
MOSS CURLED. Very select stock. Most beautifully curled . . . 1/- oz., per pkt. 3d. & 6d.

PARSNIP.

Health Value of FRESH PARSNIPS:

Calories per lb. 294, Vitamins A. B., Proteins 1.6%, Fats 5%, Carbohydrates 13.5%, Calcium .059%, Iron .00077%.

Sow July to April. 1 oz. will sow a row of 150ft.
HOLLOW CROWN. Standard variety. Roots 15 to 18in. long. . . . 1/- oz., per pkt. 3d. & 6d.

PEAS.

Health Value of FRESH GARDEN PEAS:

Calories per lb. 454, Vitamins A. B. C. G., Proteins 7.0%, Carbohydrates 16.9%, Fats 5%, Calcium .028%, Iron .0057%.

Sow January to December. 1 lb. will sow a row of 60 feet. Postage extra.

ASPARAGUS. Pods of fine flavour, which can be cooked like French Beans, with the flavour of Asparagus. Grows 1ft. in height. Plant 1½ to 2ft. each way per pkt. 6d. & 1/-

GREENFEAST. Great cropper. Most reliable early dwarf variety . . . 1/- lb., per pkt. 3d. & 6d.

GREAT POD. The pods are large, very dark green, and produced in pairs 10 to 12 peas in a pod of excellent flavour. Very robust. Highly recommended main crop Pea . . 1/6 lb. per pkt. 6d.

SUGAR DWARF EARLY. 1ft. The pods are cooked whole when young. 2/6 lb., per pkt. 6d.

YORKSHIRE HERO. A favourite main crop variety. 2½ft. 1/- lb., per pkt. 3d. & 6d.

PUMPKIN.

Health Value of FRESH PUMPKIN:

Calories per lb. 117, Vitamins A. B. C., Proteins 1.0%, Carbohydrates 5.2%, Fats 1%, Calcium .023%, Iron .00093%.

Sow August to December. 1 oz. will plant 20 hills. 1½ to 3 lbs. acre.

IRON BARK. A well known variety of medium size 1/- oz., per pkt. 3d. & 6d.

TURKS CAP. Flesh orange-yellow, thick and fine grained 1/- oz., per pkt. 3d. & 6d.

DRY MANDERIN. A fine new variety of medium size with deep orange flesh. Round. Splendid keeper. Excellent dessert sort . . . per pkt 1/-

TROMBONE. A crook-neck variety, orange flesh, good keeper 1/6 oz., per pkt. 6d.

QUEENSLAND BLUE. Dark skin golden flesh. Medium, dry flesh, good keeper . . . 1/- oz., per pkt. 6d.

RADISH.

Health Value of FRESH RADISHES:

Calories per lb. 133, Vitamins A. B. C., Proteins 1.3%, Fats .1%, Calcium .021%, Iron .00083%.
 Sow January to December. 1 oz. will sow a bed of 4 sq. yards.

ICICLE. White, very early, long, mild and tender . . 1/- oz., per pkt. 3d. & 6d.

LONG SCARLET. A popular variety . . . 1/- oz., per pkt. 3d. & 6d.

SPARKLER. Scarlet, Turnip, shaped, white tipped . . 1/- oz., per pkt. 6d.

MIXED, TURNIP SHAPED. A mixture of round varieties 9d. oz., per pkt. 3d. & 6d.

RHUBARB.

Health Value of FRESH RHUBARB:

Calories per lb. 105, Vitamin C., Proteins .6%, Carbohydrates 6.6%, Fats .7%, Calcium .044%, Iron .00056%.

Sow June to September.

HAWKS CHAMPAGNE. Early, scarlet, grows to a good size. The roots will remain in bearing for a considerable time if grown in good soil . . . 3/6 oz., per pkt. 1/-

ROCK MELON.

Sow in Spring. 1 oz. for 50 hills. 2 lbs. per acre.
DELICIOUS (Cantaloupe). Medium sized oval fruits finely netted, salmon coloured flesh. Extra small seed cavity, delicious flavour . . . 1/6 oz., per pkt. 6d.

EMERALD GEM (Cantaloupe). Roundish oval, flesh deep green . . 1/- oz., per pkt. 3d. & 6d.

EARLY HACKENSACK (Cantaloupe). Very early,, excellent flavour. One of the very best . . . 1/- oz., per pkt. 3d. & 6d.

HONEY DEW (Winter). Emerald green flesh, very thick 1/6 oz., per pkt. 6d.

GOLDEN BEAUTY. A remarkably fine early Melon, which was given an A.M. by the R.H.S. It has a robust constitution, and is a free setter, bearing handsome, rounded oval fruits weighing about 6 lbs. The skin is bright golden beautifully netted, the flesh very deep, of a rich salmon colour and delicious flavour per pkt 1/-

WATER MELON.

Health Value of FRESH WATER MELONS:

Calories per lb. 140, Proteins .4%, Carbohydrates 6.7%, Fats .2%, Iron .00023%.

Sow in Spring. 1 oz. for 30 hills. 4 to 5 lbs. per acre.

BLACK SPANISH. Flesh scarlet. Fruits round, dark green skin. Very sweet and delicious . . . 1/- oz., per pkt. 3d. & 6d.

KLECKLEY'S SWEET. Oblong shape, delicious flavour. Brilliant scarlet flesh. 18 to 20 inches long 1/- oz., per pkt. 3d. & 6d.

NORTHERN SWEET. A recent introduction from Russia. One of the very earliest varieties of Water Melon known. Dark green, with a lighter stripe. Flesh is beautiful red, crisp, sweet, and of excellent quality. Fruits 10 to 12 lbs. Very prolific 1/6 oz., per pkt. 6d.

STRAWBERRY SEED.

Sow in Spring or Autumn in fine soil. Cover lightly and keep evenly moist.

BUSH RED. Does not run. Long red fruit of excellent quality. Fine for pastry work . per pkt. 6d.

EARLY MARKET. Splendid dark red variety. Firm and juicy, ripens early. Good market variety . . . per pkt. 1/6

LARGE FRUITED VARIETIES MXD. Some splendid varieties in this per pkt. 1/-

SPINACH.

Health Value of FRESH SPINACH:

Calories per lb. 109, Vitamins A. B. C. G., Proteins 2.1%, Iron .00255%, Carbohydrates 3.2%, Fats 3%, Calcium .018%.

NEW ZEALAND. Perennial. Resists both heat and drought 1/- oz., per pkt. 3d. & 6d.

TRIUMPH. An all-season's Spinach with dark green leaves 1/- oz., per pkt. 3d. & 6d.

PRICKLY. Sow in Autumn for Winter use . . . 9d. oz., per pkt. 3d. & 6d.

SQUASH.

Health Value of FRESH SQUASH:

Calories per lb. 209, Vitamin A., Proteins 1.4%, Carbohydrates 9.0%, Fats 5%, Calcium .018%, Iron .00035%.

Sow August to December. 1 oz. for 50 hills. 5 lbs. acre. Runner, 3 lbs. acre.

CROOKNECK. Of true bush form, extra early. Colour deep orange. 12 to 18in. long, by 6 to 8in. thick 1/- oz., per pkt. 3d. & 6d.

WHITE CUSTARD. An extra early bush, scalloped variety 1/- oz., per pkt. 3d. & 6d.

GREEN HUBBARD. Fine grained, very dry and sweet 1/- oz., per pkt. 3d. & 6d.

TOMATO.

Health Value of FRESH TOMATOES:

Calories per lb. 104, Vitamins A. B. C. G., Proteins .9%, Fats .4%, Carbohydrates 3.9%, Calcium .011%, Iron .00044%.

Sow June to November. 1 oz. will give approx. 1,550 plants. 1 lb. or 3,226 plants will plant one acre planted 4½ ft. x 3 ft.

BURWOOD WONDER. A splendid dwarf variety for market growers and small growers. Crops well and takes very little room. Slightly wrinkled 5/- oz., per pkt. 3d. & 6d.

ORANGE PROLIFIC. A popular market variety with large slightly wrinkled fruits of good flavour. Splendid bearer 5/- oz., per pkt. 6d.

TABLE DAINTY (new). A variety we can highly recommend. The fruits are medium size, perfectly round, smooth, and excellent flavour. Strong growing, disease-resisting plant . . per pkt 1/-

STONOR'S M.P. (new). A splendid variety with a wonderful reputation for strong constitution, heavy cropping and good flavour. Very short joints, producing about 10 fruits to a cluster. Round and smooth per pkt. 1/-

NEW FRUIT. The result of cross breeding to produce a smooth, scarlet Tomato with solid flesh. It is a remarkably heavy cropper, and so full of firm, well-flavoured solid flesh that it contains but very little seed and it can be sliced without breaking up. The average fruit is about the size and shape of a tennis ball, and when ripe can be skinned quite easily without dipping in boiling water. Its firm, solid flesh is valuable for all purposes, cooked or in a raw state. When slicing the fruit for salads, cut it from the stalk downwards. It **PEELS LIKE A PEACH**, and can be eaten raw like an Apple at any time of the day. It altogether alters the usual idea of a Tomato, and removes it from the vegetable to the fruit class. For stuffing, there is nothing to equal it and for sandwiches it has no variety to touch it, as it does not wet the layers of bread. The growth of the plant is vigorous, and has proved itself a prolific cropper, 270 pounds of choicest Tomatoes being picked from plants from a small packet of seed. Highly recommended per pkt. 1/-

TOMATO (Continued).

DWARF CHAMPION. Quite distinct, late variety. Upright, sturdy habit. Fruits round, smooth and solid. Plants hardy and disease-resisting. Dark green leaves 5/- oz., per pkt. 6d.

ANY OTHER VARIETIES CAN BE SUPPLIED.

TURNIP (GARDEN).

Health Value of FRESH TURNIPS:

Calories per lb. 178, Vitamins A. B. C. G., Proteins 1.3%, Fats .2%, Carbohydrates 8.1%, Calcium .064%, Iron .00052%.

Sow September to April. 1 oz. will sow a row 150 feet. 1 to 2 lbs. in drills per acre.

ORANGE JELLY. Yellow flesh, one of the best for Summer use.

EARLY MILAN. Excellent variety with purple top and pure white flesh . 1/- oz., per pkt. 3d. & 6d.

E. WHITE STONE. A popular variety, round, with white flesh 9d. oz., per pkt. 3d. & 6d.

TURNIP (SWEDE).

CHAMPION PURPLE TOP. Yellow flesh, globe shaped, fine flavour, good quality 9d. oz., per pkt. 3d. & 6d.

LAING'S GARDEN. A small Swede for home use. Tender and sweet . . . 1/- oz., per pkt. 6d.

VEG. MARROW.

Sow August to December. 1 oz. for 50 holes. 3 lbs. to acre.

E. WHITE BUSH. Very prolific. Use before full grown 1/- oz., per pkt. 3d. & 6d.

E. GREEN BUSH. Same as above, but skin green 1/- oz., per pkt. 3d. & 6d.

WHITE RUNNER. Very free bearer. Best for large gardens 1/- oz., per pkt. 3d. & 6d.

GREEN RUNNER. Same as above, but green skin 1/- oz., per pkt. 3d. & 6d.

New Manure "FLORANID"

is a wonderful modern invention, being taken from the air by an electrical process. It is the purest manure manufactured, and is so strong that a packet makes over 18 gallons of the richest liquid manure. Ideal for ferns and pot plants.

DIRECTIONS: One teaspoonful to 2 galls. of water once a fortnight. At this strength it can watered over even the tenderest plants, without the slightest harm. **Dry:** Tablespoonful to one square yard before planting.

6d. pkt. posted; 4/- lb. posted.

Kill Insects with your Garden Hose . .

The New "EASY" Hose Sprayer

ELIMINATES ALL THE LABOUR OF SPRAYING

The Gardeners' dream realised: "A Pleasure to Spray."

No mixing or fussing, just insert Insecticide cartridge into the "EASY" Brass Cartridge container nozzle, attach to garden hose, turn on the water, and spray. Could anything be simpler?

The "Easy" Hose Sprayer automatically mixes just the right strength of Nicotine, Fungicide, or Arsenate of Lead, and diffuses it in a cloud of penetrating spray.

The work of spraying plants, trees and shrubs to kill insects is now made extremely easy, and **rapid**, at a moderate cost.

Cartridges are available as follow:—

ANTIPESTICK (Nicotine and Fish Oil Soap). For destroying Aphis, Thrips, Mites, Mealy Bugs, Red Spider, Green, Black and White Fly. This cartridge lasts about one hour, and is equal to 8 to 10 gallons of mixed spray.

SULPHUR. For the control of mildew and other fungus diseases affected by Sulphur, also Scale. These are made in two parts. Use only one at a time except when a stronger solution is needed. This cartridge lasts approximately ten minutes.

TWO-IN-ONE. Excellent results can be obtained by using one-half cartridge of Sulphur and one-half cartridge of Antipestick at the same time in the container nozzle, where it is desired to eradicate insect and fungus pests at the same time. Put Sulphur half in first.

FOODNDRINK (Nitrate of Soda) is a nourishing Plant Food. It will promote glorious growth of lawn, plants and shrubs, and will cover approx. 500 feet of ground space, and dissolves in about ten minutes. When using Foodndrink remove cap from spray nozzle and screw on your regular rose or director.

PRICES.

Nicotine Cartridges 1/6 each	Extension Rods 4/6 each
Extra Rubber Washers 1d. each. Brass Discs or Washers 3d. each. Postage Extra.	

HORTOMONE "A"

For "Striking" Results

Hortomone A is a wonderful preparation and entirely new to the Horticultural World. It is the result of certain discoveries regarding plant "hormones" or "auxins." Its function is to stimulate and accelerate the formation of roots in cuttings. Not only will Hortomone A increase the percentage of success in plants which root easily, but it is of definite value for those which root with rather more difficulty. Tests by leading horticulturists have shown too, that it ensures stronger and more vigorous plants.

Hortomone A is a highly-concentrated and active preparation which requires dilution with water before use. Full directions with every bottle. No nurseryman can afford to be without this. 1 oz. bottle makes 2 gallons of rooting medium.

PRICES:

1 oz. — 4/9 posted. 2 ozs. — 7/9 posted.

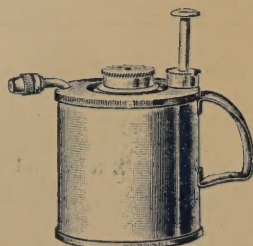

TOM THUMB SPRAYER

A neat little Sprayer for the home, operated by pressure from the thumb only. Fine misty spray almost continuous.

THE IDEAL Slug and Snail Exterminator

An Absolutely Effective Remedy

**FULLY PATENTED AND PROTECTED THROUGHOUT AUSTRALIA.
WATERPROOF.**

Slugs, Snails, Woodlice, Cockroaches, and Cutworms eat it eagerly, and are soon destroyed.

Watering will not affect the mixture, as it is impervious to moisture, and will lie on the ground for weeks in as good a condition as when applied.

Since issuing "**The Slug and Snail Exterminator**" we have received numerous reports from our customers all stating that it had completely eradicated the pests.

This "Ideal Mixture" is playing the biggest part in the garden of anything we have ever had in destroying our worst pests, and it will be found a "boon and a blessing" to every gardener.

Scattered lightly over the beds during the day time it saves the laborious task of hunting the pests or of shaking the lime bag during the evenings.

Ten points that go to make it **IDEAL**.

It is not affected by water

Does no damage to the foliage

Economical

Attracts vermin

Lasts for weeks

Keeps its strength

Is inconspicuous

Easy to distribute

Really kills

Is inexpensive

PRICE: 1/- and 2/6 Packet, post extra.

The New Manurial Fumigant . . **"GRENE DETH"**

(Reg. Trade Mark)

This new preparation (made by the makers of the famous "Ideal" Waterproof Slug Killer) supersedes all known methods of combating soil pests and diseases. Its five active ingredients combine to make it the most powerful soil fumigant ever used. Made only after extensive trials in our own nursery by a plant specialist. Destroys Mealy Bug, Millipedes, Pea Mite, Red Spider, Eelworms, Slugs, Snails, Thrips, Wireworms, Earthworms, and Grubs, also diseases of the soil and lice on bulbs.

New Features

Soil Fungicide.

Every particle active.

Instant planting.

Pleasant to use.

Harmless to Plants.

No Lime.

Organic base.

Gas heavier than air.

DIRECTIONS.—As the gas from this preparation is five times heavier than air simply fork or rake it lightly into the top layer of soil. Use two to four ounces to the square yard. Plants may be planted immediately after the soil is treated. In glasshouses simply sprinkle over benches and among the plants. **Bulbs**—Sprinkle in boxes where stored. Mix a pound or two with your potting soil.

PRICES: 1/- per carton; 7 lbs., 3/6; 14 lbs. tins, 6/-; 28 lbs. tins, 11/-; cwt., 40/-.
Post or Carriage Extra.
